| 3.3 | Number of trainings conducted measured by actual number of trainings conducted | Actual | 0 |
| 3.4 | Percentage of trainings actually conducted in relation to number of trainings requested by community measured by number of trainings requested divided by number of trainings actually conducted | Actual | 0 |
| 4.1 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 9 |
| 4.2 | Percentage of staff who speak multiple languages measured by number of staff who speak multiple languages divided by total number of staff | Actual | 35 |

**Contractor Comments:** HAWC received $9, 999.96 through this contract via McKinney ESG funds. The contract is designed to provide rental assistance to cover first and last months rents. The grant also provided families with temporary shelter at local motels until more permanent arrangements could be made. In addition, $2000 of this grant money was allocated to cover a portion of the salary costs for HAWC's part-time Housing Advocate. This fiscal year, 11 families were assisted with rent subsidies and 9 families with temporary shelter at a local motel. The performance measures for this MMARS code do not adequately reflect the grant as it has been used. Therefore, the majority of our performance measures are listed as "0" or N/A.

| 2.4 | Percentage of clients with prior mental health treatment (based on MIS admission form) | Actual | 74 |
| 2.5 | Percentage of injection drug users receiving residential services (based on MIS admission form) | Actual | 53 |
| 2.5 | Percentage of injection drug users receiving residential services (based on MIS admission form) | Actual | 53 |

**Contractor Comments:**

1.1 FY 01 the percentage was 30% completed treatment. The program set a goal for FY02 at 45% of completion. We surpassed our goal for FY02 at 2% completion.
1.2 FY 01 percentage was 30% overall goals achieved. The program set a goal of 45% for FY 02. We surpassed our goal for FY 02 at 2%.
2.1 FY01 percentage was 33% minority/non-white. The program set a goal of 50% for FY 02. We surpassed our goal for FY 02 at 5%.
2.3 FY 01 precentage was 38.4% of homeless people. The program set a goal for 40% to achieve in FY 02. The program didn't meet the goal so we need to do more out-reach to the homeless population.
2.4 FY 01 percentage was 75% of residents having prior mental health treatment. The program set a goal of 70% for FY 02. We surpassed our goal for Fy 02 over 4%. Reason is serving more Dual-Diagnose residents.
2.5 FY 01 percentage was 52% of injection drug users. The program set a goal of 50% for FY02. We surpassed our goal for FY 02 over 3%.

## *3392* Supportive Housing

Contract Number SCDPH23112805038

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who report sustained (more than six months) recovery (based on annual report) | Actual | 67 |
| 1.2 | Percentage of clients who are employed while in supportive housing (based on annual report) | Actual | 63 |
| 1.3 | Percentage of clients who receive referrals to other social/health services (based on annual report) | Actual | 62 |
| 2.1 | Percentage of clients who receive a shallow rent subsidy by the program (annual unduplicated count) | Actual | 1 |

**Contractor Comments:**

Goals: Maintain a safe and sober place for women early in recovery.
Objective: Conduct random urina test in the program and house meeting.
Target Date: On going
1.1 Certain time of the yaer it's harder for residents to stay sober ( Holiday). Percentage is lower during this period.
1.2 One of the requirements for Footsteps is to be employed.
1.3 Most residents come into the program already set up with referrals.
2.1 One resident receives a shelter rent subsidy because she is a full time student at Worcester State College.
FOR TIDES: 1.3 - 49%
1.3 Due to the transitional nature of Tides program, clients are moved on in the continum of service within a short period of admssion to the program to other treatment facilities.

## *3426* Adolescent Services (CHINS)

Contract Number SCDPH23172934007

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Increased knowledge of ATOD risks among youth and family measured by the percentage of clients who complete the program | Actual | 24 |
| 1.2 | Decreased ATOD use by youth and/or family measured by the percentage of clients who report no ATOD use at discharge from the program | Actual | 0 |
| 1.3 | Increased awareness of HIV/STD risk and risk of teen pregnancy measured by the number of youths receiving risk reduction materials based on monthly reports | Actual | 0 |
| 1.4 | Improved school performance measured by the percentage of clients who report improved grades, increased and consistent school attendance, reported annually | 0 | 0 |
| 1.5 | Decrease in or lack of illegal behaviors measured by the number of youths who complete the program and decrease illegal behaviors based on MIS data | 0 | 0 |
| 2.1 | Number of psycho-educational class sessions | Actual | 64 |
| 2.2 | Average number of youth in attendance at psycho-educational classes(number of youth at each session divided by number of sessions) | Actual | 16 |
| 2.3 | Number of youth participating in Youth Intervention Activities Group (unduplicated count) | Actual | 24 |
| 2.4 | Number of Family Educational class sessions | Actual | 0 |

| | | | |
|---|---|---|---|
| 2.5 | Average number of parents in attendance at educational classes (number of parents at each session divided by number of sessions) | Actual | 0 |

**Contractor Comments:** Bureau of Substance Abuse Services has all assessments (pre/post). We dropped parent involvement/home visits as approved by BSAS.

## *3450* Tobacco Control: Targeted Community Smoking Intervention Programs: Innovative Outreach for Risk Taki

Contract Number SCDPH29052143076

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Enhanced knowledge and skill level of participants measured by the average % increase between pre and post tests | Actual | 0 |
| 2.1 | Number of target priority population individuals served through outreach activities (annual unduplicated count) | Actual | 236 |
| 2.2 | Number of priority population smokers identified and counseled (annual unduplicated count) | Actual | 0 |
| 2.3 | Number of priority population smokers referred to smoking cessation services (annual unduplicated count) | Actual | 19 |
| 2.4 | Number of priority population smokers receiving smoking cessation services (annual unduplicated count) | Actual | 0 |

**Contractor Comments:** We only had to report on workplan objectives which did not include some of the above. There were no pre/post test conducted. Focus of program was on policy/advocacy and limited intervention.

- 1 client had a miscarriage & no longer qualified for the program.
- 10 other clients still in residence as of 7/1/02- not sober 6 mos. yet.

# Human Resources Unlimited, Inc. (237083475)

## 2201a Evaluation

Contract Number 20072004234

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Evaluation reports are completed measured by the number of completed evaluation reports that answer referral questions and submitted within ten (10) working days. | 12 | 12 |
| 2.1 | Number of people served measured by unduplicated count | 18 | 18 |

**Contractor Comments:**

## 2205 Employment Services

Contract Number 20072031086

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers work a minimum of 4 hrs/day; 5 days/wk with an average production of 25% measured by the total # of individuals on monthly reports divided by total number who met the goal | 0 | 0 |
| 1.2 | Consumers work a minimum of 4 hrs/day; 5 days/wk with an average attendance rate of 75% measured by the total # of individuals on monthly reports divided by total number who met goal | 0 | 0 |
| 1.3 | Consumers have a diversity of sub-contract work measured by the total number of individuals who can choose their desired work | 0 | 0 |
| 1.4 | Individuals will maintain work skills, attitudes and habits that prepare them for community based work measured by the total # of individuals who are identified for community based employment | 0 | 0 |
| 2.1 | Number of individuals served (unduplicated count) | 0 | 0 |
| 2.2 | Number of sub-contract jobs within the year (unduplicated count) | 0 | 0 |
| 2.3 | Number of individuals served who are referred for Community Based Employment (unduplicated count) | 0 | 0 |
| 4.1 | Number of individuals maintaining attendance eligibility for the year | 0 | 0 |
| 4.2 | Number of individuals maintaining production eligibility for the year | 0 | 0 |

| | | | |
|---|---|---|---|
| 4.3 | Number of individuals given the opportunity to choose sub-contract work measured by the number of individuals who respond through consumer evaluations that they have been given options for sub-contract work | 0 | 0 |
| 4.4 | Number of individuals that are referred out for placement services | 0 | 0 |

**Contractor Comments:** Contract Goals were not identified by MRC nor tracked by HRU.

## *3034* Community Support Clubhouse

Contract Number 13202001051

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers become clubhouse members measured by the total number of new referrals who become "active members" | 12 | 10 |
| 1.2 | Consumers are employed in transitional employment measured by the total number of clubhouse members who are employed in transitional employment during the contract year (unduplicated) | 22 | 16 |
| 1.3 | Consumers are employed in supported employment measured by the total number of clubhouse members employed in supported employment during the contract year (unduplicated) | 8 | 6 |
| 1.4 | Consumers are employed in independent employment measured by the total number of clubhouse members employed in independent employment during the contract year (unduplicated) | 35 | 36 |
| 2.1 | Clubhouse developed employment opportunities for members measured by total # of supported employment placements | 7 | 7 |

**Contractor Comments:** There were fewer "turnovers" during the year, so members stayed in their transitional employment positions longer.

Contract Number 13403001086

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers become clubhouse members measured by the total number of new referrals who become "active members" | 52 | 70 |
| 1.2 | Consumers are employed in transitional employment measured by the total number of clubhouse members who are employed in transitional employment during the contract year (unduplicated) | 50 | 34 |
| 1.3 | Consumers are employed in supported employment measured by the total number of clubhouse members employed in supported employment during the contract year (unduplicated) | 18 | 27 |

| | | | |
|---|---|---|---|
| 1.4 | Consumers are employed in independent employment measured by the total number of clubhouse members employed in independent employment during the contract year (unduplicated) | 40 | 42 |
| 2.1 | Clubhouse developed employment opportunities for members measured by total # of supported employment placements | 12 | 27 |

**Contractor Comments:** There were fewer "turnovers" during the year, so members stayed in their transitional employment positions longer. There was also a greater number of members moving into supported and independent employment than predicted.

Contract Number 13501001103

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers become clubhouse members measured by the total number of new referrals who become "active members" | 25 | 42 |
| 1.2 | Consumers are employed in transitional employment measured by the total number of clubhouse members who are employed in transitional employment during the contract year (unduplicated) | 45 | 51 |
| 1.3 | Consumers are employed in supported employment measured by the total number of clubhouse members employed in supported employment during the contract year (unduplicated) | 25 | 29 |
| 1.4 | Consumers are employed in independent employment measured by the total number of clubhouse members employed in independent employment during the contract year (unduplicated) | 27 | 32 |
| 2.1 | Clubhouse developed employment opportunities for members measured by total # of supported employment placements | 14 | 36 |

**Contractor Comments:** There were a greater number of members moving to supported and independent employment than originally predicited.

Contract Number 23202002035

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers become clubhouse members measured by the total number of new referrals who become "active members" | 25 | 29 |
| 1.2 | Consumers are employed in transitional employment measured by the total number of clubhouse members who are employed in transitional employment during the contract year (unduplicated) | 28 | 18 |
| 1.3 | Consumers are employed in supported employment measured by the total number of clubhouse members employed in supported employment during the contract year (unduplicated) | 10 | 19 |

| | | | |
|---|---|---|---|
| 1.4 | Consumers are employed in independent employment measured by the total number of clubhouse members employed in independent employment during the contract year (unduplicated) | 19 | 12 |
| 2.1 | Clubhouse developed employment opportunities for members measured by total # of supported employment placements | 9 | 19 |

**Contractor Comments:** There were fewer "turnovers" during the year, so members stayed in their transitional employment positions longer. More members chose supported rather than independent employment in FY02.

## *3036* Services for Education & Employment (SEE)

Contract Number 13402001086

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers are employed measured by the total # of consumers who secured employment during the contract year (unduplicated) | 12 | 15 |
| 1.2 | Consumers are employed measured by the total # of jobs secured by consumers during the contract year | 30 | 22 |
| 1.3 | Consumers are enrolled in education and/or job training measured by the total # of consumers enrolled in education and/or job training during the contract year (unduplicated) | 13 | 11 |
| 1.4 | Consumers are enrolled in education and/or job training measured by the total # of education and/or job training enrollments during the contract year | 12 | 13 |

**Contractor Comments:**

## *3163* Community Based Day Supports

Contract Number 21402140347

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percent of individuals who want to be involved in personal or community activities of their own choosing and who are involved in such activities consistent with their identified goals | 1% | 1 |
| 1.1 | Percent of individuals who want to be involved in personal or community activities of their own choosing and who are involved in such activities consistent with their identified goals | 1% | 1 |
| 1.2 | Percent of individuals to be provided specialized services per contractual agreement (OT, PT, Speech, Intensive Behavioral Support) who are receiving these clinical services in a manner responsive to their individual needs | 1% | 1 |

| | | | |
|---|---|---|---|
| 1.2 | Percent of individuals to be provided specialized services per contractual agreement (OT, PT, Speech, Intensive Behavioral Support) who are receiving these clinical services in a manner responsive to their individual needs | 1% | 1 |
| 1.3 | Percent of individuals who want to be involved in work who are involved in volunteer or paid work activities in the community consistent with their identified needs | 0% | 0.03 |
| 1.3 | Percent of individuals who want to be involved in work who are involved in volunteer or paid work activities in the community consistent with their identified needs | 0% | 0.03 |

**Contractor Comments:**

## *3168* Employment Services

Contract Number 21402140345

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers earn pay through facility based work programs measured by percentage (# of consumers in category divided by # in program) | 36% | 0.3 |
| 1.2 | Consumers work in congregate settings in business as measured by the percentage of consumers in this category | 36% | 0.34 |
| 1.3 | Consumers work in group supported employment measured by percentage (# of consumers in category divided by # in program) | 26% | 0.31 |
| 1.4 | Consumers participate in unpaid work or are in transition measured by percentage (# of consumers in category divided by # in program) | 2% | 0.04 |
| 1.5 | Consumers work in provider paid supported employment as measured by the percentage of consumers in this category | 36% | 0.36 |
| 1.6 | Consumers work in employer paid supported employment as measured by the percentage of consumers in this category | 26% | 0.26 |

**Contractor Comments:**

# Independence House, Inc. (042716665)

## 3361 Sexual Assault Prevention and Survivor Services

Contract Number SCDPH34012802013

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Survivors receive immediate medical and police advocacy measured by percentage of ED and police sexual assault accompaniment requests by survivors responded to within 2 hours (total # of requests for accompaniment responded to within 2 hours ( total num | 90% | 1 |
| 1.2 | Survivors receive timely sexual assault counseling measured by percentage of survivors in need of short term counseling offered appointments within 5 days of request ( total # of appointments scheduled within 5 days of request ( total # of appointments r | 100% | 1 |
| 2.1 | % of cities and towns (as defined in the contract) within service area for which educational services are provided | 100% | 0.8 |
| 2.2 | % of relevant organization types ( as defined in the contract) provided educational presentations | 100% | 0.5 |
| 2.3 | % of hotline calls responded to | 100% | 1 |

**Contractor Comments:** The police departments on Cape Cod have not shown an interest in receiving training on sexual assault from a victim service agency.

## BWCSa Battered Women & Children: Comprehensive Program

Contract Number SCDSS00050219236

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of emergency shelter/safe home beds occupied--# in bed days(bed days=actual # of beds occupied each day of the month totaled) measured by total number of bed days for the month | Actual | 0 |
| 1.10 | Percentage of families receiving support services measured by the number of families receiving support services divided by the number of families in shelter/safe home | 100% | 0 |
| 1.11 | Number of children receiving children's services measured by the actual number of children receiving children's services | Actual | 0 |
| 1.12 | Percentage of children receiving children's services measured by the number of children receiving children's services divided by number of children in shelter/safe home | 100% | 0 |

| | | | |
|---|---|---|---|
| 1.13 | Number of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by actual number of families reporting that they were helped during their stay in the shelter/safe home | Actual | 0 |
| 1.14 | Percentage of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by the number of families reporting they were helped divided by number of families exiting shelter/safe home. | Actual | 0 |
| 1.15 | Number of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the actual number of families contacted | Actual | 0 |
| 1.16 | Percentage of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the # of families contacted in a given month (who left the shelter 3 months prior to the contact) divided by # of families who left the shelter/ | Actual | 0 |
| 1.17 | Number of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the actual # of families contacted | Actual | 0 |
| 1.18 | Percentage of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the # of families contacted in a given month (6 months prior) divided by # of families who left the shelter/safe home during the entire month 6 | Actual | 0 |
| 1.19 | Number of families receiving community (non-residential) services measured by the actual # of families receiving community services | Actual | 3212 |
| 1.2 | Percentage of emergency shelter/safe home beds occupied measured by number of bed day divided by capacity for month (capacity = actual number of beds multiply by number of days in the month) | 100% | 0 |
| 1.20 | Percentage of families receiving community (non-residential) services measured by the # of families receiving community services divided by # of families served in both shelter and outside community | Actual | 0 |
| 1.21 | Number of trainings conducted muesured by the actual number of trainings conducted | Actual | 542 |
| 1.22 | Percentage of trainings actually conducted in relation to number of trainings requested by community measured by the number of trainings requested divided by number of trainings actually conducted | Actual | 1 |
| 1.23 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 1 |
| 1.24 | Percentage of staff who speak multiple languages measured by the number of staff who speak multiple languages divided by total number of staff | Actual | 0.27 |

| | | | |
|---|---|---|---|
| 1.3 | Number of families requesting shelter/sae home who are turned away due to lack of space measured by actual number of families turned away | Actual | 0 |
| 1.4 | Percentage of families requesting shelter/safe home who are turned away due to lack of space measured by the number of families turned away due to lack of space divided by number of families requesting shelter/safe home | Actual | 0 |
| 1.5 | Number of families receiving safety plans measured by actual number of families receiving safety plans | Actual | 1712 |
| 1.6 | Percentage of families receiving safety plans measured by number of families receiving safety plans divided by the number of families in shelter/safe home | 100% | 0 |
| 1.7 | Number of families receiving advocacy services measured by actual number of families receiving advocacy services | Actual | 3000 |
| 1.8 | Percentage of families receiving advocacy services measured by the number of families receiving advocacy services divided by number of families in shelter/safe home | 100% | 0 |
| 1.9 | Number of families receiving support services measured by actual number of families receiving support services | Actual | 3212 |

**Contractor Comments:** The Independence House, Inc. contract is primarily funded to provide community based services. Shelter and safe home services are not provided under this contract.

## *BWCSb* Battered Women & Children: Community Education & Training

| | | | |
|---|---|---|---|
| 4.3 | Peer Counseling: From the consumer satisfaction survey, the percentage of respondents who answer “very good” or “good” to question #6 (staff support you….own decisions?) | 50% | 0.75 |
| 4.4 | Skills Training: From the consumer satisfaction survey, the percentage of respondents who answer “very good” or “good” to question #8 (provide….increased ability to live independently?) | 25% | 0.39 |
| 4.5 | Advocacy Services: From the consumer satisfaction survey, the percentage of respondents who answer “very good” or “good” to question # 9b (increase ability to represent self) | 35% | 0.5 |
| 4.6 | Advocacy Services: From the consumer satisfaction survey, the percentage of respondents who answer “very good” or “good” to question #10a (center represents your interests) | 45% | 0.53 |

**Contractor Comments:** Have instituted mid year a new consumer database system as well as piloting this new system thus there may be some inaccuracies with the crossover data/new datasystem correlations. The 4 series measures are from the '01 consumer satisfaction survey that we send out in '02 and tabulate in Spring of '02. Overall performance is high despite Executive Director being out in Winter for major surgery and staff recruitment difficulties in Fall.

**Contractor Comments:** The basic reason for the lower than 100% scores lies in the parents desire to have additional services renederd, such as various activities currently not offered (lessons ans special training). The second request by parents is that teachers who can speak the native language of the children.

Unfortunatley, because of cost restarints neither of the above is possible, althgough the organization does attemtp to match children with teachers who have a knowledge of their language. Also programs such as exposing the children to a local arts center are used to provide the additional services that parents desire.

# Institute for Developmental Disabilities, Inc. (042764196)

## 2143 Residential/Day (3 providers only)

Contract Number SCMCB41003123096

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers have increased opportunities for community based experiences measured by the percentage of consumers that participate in at least four community based outings each month | 70% | 0.8 |

## *2201a* Evaluation

Contract Number 20070004263/64

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Evaluation reports are completed measured by the number of completed evaluation reports that answer referral questions and submitted within ten (10) working days. | 100% | 1 |
| 2.1 | Number of people served measured by unduplicated count | 5 | 5 |

**Contractor Comments:** Contractual goals were established for all service components combined: 2201a, 2201b, 2201c, 2201d.

1.1 In addition to evaluation reports, Individual Service Reports were submitted monthly as required by MRC. Throughout the month, LFC kept MRC Counselors up to date on their referrals through phone conversations, correspondence, and visits to MRC area offices.

2.1 Two of the five individuals served in this component were also served in skills training, program code 2201C.

## *2201b* Work Adjustment Training

Contract Number 20070004263/64

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Individuals develop vocational skills, work attitudes, work habits, work tolerance and job seeking skills through Work Adjustment Training measured by percentage (total number of individuals who complete the Work Adjustment Training Program divided by th | 100% | 1 |
| 1.2 | Reports reviewing consumers progress in attaining the goals of their Work Adjustment Training program are completed measured by the total number of completed reports submitted within ten (10) working days of the completion of Work Adjustment | 100% | 1 |
| 2.1 | Number of individuals served measured by unduplicated count | 6 | 4 |
| 4.1 | Total number of clients who complete the Work Adjustment Training Program and are in jobs corresponding to their identified vocational goal within a year | 6 | 2 |
| 4.2 | Total number of individuals maintaining employment for more than a minimum of ninety (90) days | 6 | 1 |

**Contractor Comments:** Contractual goals were established for all service components combined: 2201a, 2201b, 2201c, 2201d.

1.2 Individual Service Reports were submitted monthly as required by MRC. Throughout the month, LFC kept MRC Counselors up to date on their referrals through phone conservations, correspondences, and visits to MRC offices.

4.1 Two of six individuals enrolled (33%)was referred for training only. Placement was not an expected employment outcome.

## *2201c* Skills Training

Contract Number 2007200463\64

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Individuals develop job skills, work behaviors and work habits in a specific vocational area through Skills Training that prepares for competitive employment in their community measured by the total number of individuals who successfully complete the ski | 100% | 0.83 |
| 1.2 | Total number of completed reports submitted within ten (10) working days of the completion of the Skills Training Program. | 100% | 1 |
| 2.1 | Total number of individuals served measured by unduplicated count | 42 | 29 |
| 4.1 | Individuals will be placed in competitive jobs reflective of their skills training program measured by percentage (total number of individuals placed in competitive jobs reflective of their skills divided by total number of individuals trained) | 100% | 0.43 |
| 4.2 | Individuals maintain employment for more than ninety (90) days measured by the number of individuals maintaining employment for more than a minimum of ninety (90) days | 100% | 1 |

**Contractor Comments:** Contractual goals were established for all service components combined: 2201a, 2201b, 2201c, 2201d.

1.1 This % is exclusive of 7 individuals who did not complete classroom training or completed less than five days in total throughout the fiscal year.

1.2 Individual Service Reports were submitted monthly as required by MRC. Throughout the month, LFC kept MRC Counselors up to date on their referrals through phone conversations, correspondence, and visits to MRC area offices.

2.1 This number includes 13 individuals who were enrolled in other components. Twelve were enrolled in 2201D and one in 2201a.

4.1 9 placements out of 21 completers.

Please note: Life Focus Center had two contracts in FY 2002 for Vocational Rehabilitation Services. Performance data has been combined to reflect LFC's UFR as well as LFC's end-of-year reporting to MRC. Contract numbers are 20071004263 & 64.

## *2201d* Job Support Services

Contract Number 2007200463\64

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Individuals are placed and/or retained at integrated competitive jobs in the community through Job Support Services measured by the total number of individuals who are placed and/or retained at integrated competitive jobs. | 27 | 10 |
| 1.2 | Placements are consistent with individual work choices, functional capacities and vocational qualifications measured by the total number of placements consistent with the individuals work choices, functional capacities and vocational | 100% | 1 |
| 2.1 | Number of individuals accepted for services measured by unduplicated count | 33 | 25 |
| 4.1 | Individuals maintain employment for more than ninety (90) days measured by the number of individuals maintaining employment for more than a minimum of ninety (90) days | 4 | 10 |

**Contractor Comments:** Contractual goals were established for all service components combined: 2201a, 2201b, 2201c, 2201d.

1.1 Placement totals reflect 3 individuals who are also reflected in the skills training placements. (2201c).

2.1 This number reflects 8 individuals who were enrolled in 2201C.

10 of the 33 enolled were carried through to the next financial year.

4.1 An additional ? individuals achieved retention in the first quarter of the next financial year.

Please note: Life Focus Center had two contracts in FY2002 for Vocational Rehabilitation Services. Performance data has been combined to reflect LFC'S UFR as well as LFC's end-of-year reporting to MRC. Contract #'s are 20071004263 & 20071004264.

## *3163* Community Based Day Supports

Contract Number 26403640338

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percent of individuals who want to be involved in personal or community activities of their own choosing and who are involved in such activities consistent with their identified goals | 100 | 100 |
| 1.1 | Percent of individuals who want to be involved in personal or community activities of their own choosing and who are involved in such activities consistent with their identified goals | 100 | 100 |
| 1.2 | Percent of individuals to be provided specialized services per contractual agreement (OT, PT, Speech, Intensive Behavioral Support) who are receiving these clinical services in a manner responsive to their individual needs | 100 | 75 |
| 1.2 | Percent of individuals to be provided specialized services per contractual agreement (OT, PT, Speech, Intensive Behavioral Support) who are receiving these clinical services in a manner responsive to their individual needs | 100 | 75 |
| 1.3 | Percent of individuals who want to be involved in work who are involved in volunteer or paid work activities in the community consistent with their identified needs | 100 | 47 |
| 1.3 | Percent of individuals who want to be involved in work who are involved in volunteer or paid work activities in the community consistent with their identified needs | 100 | 47 |

**Contractor Comments:** These individuals are aging and developing medical problems which are slowing them down quite rapidly. Early onset of Alheimers has been noted in quite a few of these individuals making employment opportunities diminished. We will continue to offer community involvement such as volunteer opportunities and employment opportunities when appropriate.

Contract Number 26403640338B

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percent of individuals who want to be involved in personal or community activities of their own choosing and who are involved in such activities consistent with their identified goals | 100 | 85 |
| 1.1 | Percent of individuals who want to be involved in personal or community activities of their own choosing and who are involved in such activities consistent with their identified goals | 100 | 85 |
| 1.2 | Percent of individuals to be provided specialized services per contractual agreement (OT, PT, Speech, Intensive Behavioral Support) who are receiving these clinical services in a manner responsive to their individual needs | 100 | 80 |
| 1.2 | Percent of individuals to be provided specialized services per contractual agreement (OT, PT, Speech, Intensive Behavioral Support) who are receiving these clinical services in a manner responsive to their individual needs | 100 | 80 |
| 1.3 | Percent of individuals who want to be involved in work who are involved in volunteer or paid work activities in the community consistent with their identified needs | 100 | 50 |
| 1.3 | Percent of individuals who want to be involved in work who are involved in volunteer or paid work activities in the community consistent with their identified needs | 100 | 50 |

**Contractor Comments:** Newly hired personnel will expand our opportunity to explore volunteer and paid work activities. We continue to expose our consumers to community involvement through volunteerism. Through our Job Development department we are attempting to secure paid employment within the community.

## *3168* Employment Services

Contract Number 26403640337

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers earn pay through facility based work programs measured by percentage (# of consumers in category divided by # in program) | 100 | 100 |
| 1.2 | Consumers work in congregate settings in business as measured by the percentage of consumers in this category | 12 | 3 |
| 1.3 | Consumers work in group supported employment measured by percentage (# of consumers in category divided by # in program) | 100 | 100 |
| 1.4 | Consumers participate in unpaid work or are in transition measured by percentage (# of consumers in category divided by # in program) | 25 | 5 |

| | | | |
|---|---|---|---|
| 1.5 | Consumers work in provider paid supported employment as measured by the percentage of consumers in this category | 10 | 30 |
| 1.6 | Consumers work in employer paid supported employment as measured by the percentage of consumers in this category | 100 | 65 |

**Contractor Comments:** It is our goal to see consumers move into more independant settings when appropriate. Consumers are continually exposed to all aspects of employment accessing their capabilities.

**Contractor Comments:**

## 3414 Youth Programs

Contract Number 23220802006

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Percentage of youth engaged in community prevention programs (annual unduplicated count) | Actual | 125 |
| 2.2 | Percentage of youth referred to treatment services (annual unduplicated count) | Actual | 23 |
| 2.3 | Number of youths receiving risk reduction materials (annual unduplicated count) | actual | 255 |

**Contractor Comments:**

## 3449 Tobacco Control: Targeted Community Smoking Intervention Programs: Innovative Smoking Interventions

Contract Number 29042087075

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of target priority population participating in program activities measured by the number of smokers identified and counseled | 50 | 41 |
| 1.2 | Number of target priority population participating in program activities measured by the number of smokers receiving intensive treatment | 25 | 17 |
| 1.3 | Number of target priority population participating in program activities mesured by the number of target population participating in program activities | 500 | 450 |
| 2.1 | Development and uimplementation of an annual workplan measured by successful implementation of an annual workplan that addresses program components and standards described in the scope of services (1=yes, 2=no) | 1 (Yes) | 1 |

**Contractor Comments:** Staffing changes in FY02 resulted in lower than projected number of individuals served through this program.

## *3461* Tobacco Control: Targeted Community Smoking Intervention Programs: Tobacco Treatment Services

Contract Number 29090087999

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of target priority population participating in program activities measured by the total number of brief interventions conducted | 240 | 94 |
| 1.2 | Number of target priority population participating in program activities measured by the total number of referrals to Tobacco Treatment Services | 150 | 94 |
| 1.3 | Number of target priority population participating in program activities measured by the total number of smokers receiving TobaccoTreatment Services | 135 | 70 |
| 1.4 | Number of target priority population participating in program activities measured by the total hours of individual counseling conducted | 400 | 104 |
| 1.5 | Number of target priority population participating in program activities measured by the number of group counseling hours conducted | 600 | 190 |
| 2.1 | Delivery of smoking cessation services to target priority population measured by documentation of service delivery as prescribed by the department (1 = yes, 2 = no) | 1 (yes) | 1 |

**Contractor Comments:** Staff vacancies in the Tobacco Treatment Specialist postion, as well as lower than projjected deman for Tobacco Treatment Services, resulted in actual performance lower than projected goals.

## *BWCPa* Battered Women & Children: Substance Abuse Shelter

Contract Number 09950219048

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of beds occupied - give # in bed days (bed days = actual number of beds occupied each day of th emonth totaled) measured by the actual number of bed days for the month | Actual | 0 |
| 1.2 | Percentage of beds occupied measured by the number of bed days for the month divided by capacity for the month(capacity = actual number of beds times number of days in the month) | 100% | 0 |
| 1.3 | Number of families requesting admittance to Program who are turned away due to lack of space measured by the actual number of families turned away due to lack of space | Actual | 0 |
| 1.4 | Percentage of families requesting admittance to Program who are turned away due to lack of space measured by actual # of families turned away due to lack of space divided by total # of families requesting admittance to the program | Actual | 0 |
| 2.1 | Number of substance abusing battered women achieving and sustaining sobriety for length of stay measured by actual number of substance abusing battered women achieving and sustaining sobriety for length of stay | Actual | 0 |
| 2.2 | Percentage of substance abusing battered women achieving and sustaining sobriety for length of stay measured by actual number of substance abusing battered women achieving and sustaining sobriety for length of stay divided by total # of women participati | Actual | 0 |
| 2.3 | Number of substance abusing battered women who are safe for length of stay measured by the actual number of substance abusing battered women who are safe for length of stay | Actual | 0 |
| 2.4 | Percentage of substance abusing battered women who are safe for length of stay measured by number of substance abusing battered women who are safe for length of stay divided by total number of women participating in the program | Actual | 0 |
| 2.5 | Number of mothers who attended parenting classes during the length of their stay measured by the actual number of mothers who attended classes during the length of their stay | Actual | 0 |
| 2.6 | Percentage of mothers who attended parenting classes during the length of their stay measured by the actual number of mothers who attended classes during the length of their stay divided by total number of mothers participating in the program | Actual | 0 |

| | | | |
|---|---|---|---|
| 3.1 | Number of children who are safe for length of stay measure by the actual number of children who are safe for length of stay | Actual | 0 |
| 3.2 | Percentage of children who are safe for length of stay measure by the actual number of children who are safe for length of stay divided by total number of children participating in the program | Actual | 0 |
| 3.3 | Number of women sho receive individual or group support during their stay measured by the actual number of women who receive individual or group support during their stay | Actual | 0 |
| 3.4 | Percentage of women who receive individual or group support during their stay measured by the actual number of women who receive individual or group support during their stay divided by total number of women participating in the program | 100% | 0 |
| 4.1 | Number of mothers who entered program without physical custody of their children measured by the actual number of mothers who entered the program without physical custody of their children | Actual | 0 |
| 4.2 | Percentage of mothers who entered program without physical custody of their children measured by the actual number of mothers who entering the program without physical custody of their children dibvided by total number of mothers entering in the program | 0 | 0 |
| 4.3 | Number of mothers who were reunified with their children during their program stay measured by actual number of mothers who were reunified with their children during their program stay | Actual | 0 |
| 4.4 | Percentage of mothers who were reunified with their children during their program stay measured by actual number of mothers who were reunified with their children divided by total number of mothers in program without physical custody | Actual | 0 |
| 5.1 | Number of families who are referred to community agencies for additional services measured by the actual number of families who are referred to community agencies for additional services | Actual | 0 |
| 5.2 | Percentage of families who are referred to community agencies for additional services measured by the actual number of families who are referred to community agencies for additional services divided by total number of families participating in the progra | 100% | 0 |
| 5.3 | Number of children receiving support services while in program measured by actual number of children who receive support services while in the program | Actual | 0 |
| 5.4 | Percentage of children receiving support services while in program measured by actual number of children who receive support services while in the program divided by total number of children participating in the program | 100% | 0 |

**Contractor Comments:** We do not have this contract for Shelter

Contract Number 09950219048

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of referrals received from court personnel measured by actual number of referrals received from court personnel | Actual | 3 |
| 1.2 | Percentage of referrals received from court personnel measured by actual number of referrals received from court personnel divided by total number of referrals to the program | Actual | 75 |
| 1.3 | Number of referrals received from other domestic violence service providers measured by actual number of referrals received from other domestic violence service providers | Actual | 0 |
| 1.4 | Percentage of referrals received from other domestic violence service providers measured by actual number of referrals from domestic violence service providers divided by total number of referrals to the program | Actual | 0 |
| 1.5 | Number of referrals received from DSS measured by actual numbers of referrals received from DSS | Actual | 1 |
| 1.6 | Percentage of referrals received from DSS measured by actual number of referrals from domestic violence service providers divided by the total number of referrals to the program | Actual | 25 |
| 1.7 | Number of referrals received from others measured by actual number of referrals received from others | Actual | 0 |
| 1.8 | Percentage of referrals received from others measured by actual number of referrals received from others divided by the total number of referrals to the program | Actual | 0 |
| 2.1 | Number of safe supervised visits measured by actual number of safe supervised visits | Actual | 4 |
| 2.2 | Number of safe unsupervised visits measured by actual number of safe unsupervised visits | Actual | |
| 2.3 | Percentage of safe unsupervised visits measured by total number of safe unsupervised visits at the program divided by total number of safe supervised visits | Actual | |
| 2.4 | Number of safe neutral exchanges measured by actual number of safe neutral exchanges | Actual | |
| 3.1 | Number of participants in parenting groups for non-offending parents measured by actual number of participants in parenting groups for non-offending parents | Actual | 1 |
| 3.2 | Percentage of participants in parenting groups for non-offending parents measured by number of non-offending parents in the parenting groups divided by the number of non-offending parents in the program | Actual | 25 |

| | | | |
|---|---|---|---|
| 3.3 | Number of participants in parenting groups for offending parents measured by actual number of participants in groups for offending parents | Actual | 0 |
| 3.4 | Percentage of participants in parenting groups for offending parents measurd by actual number of participants in parenting groups for offending parents divided by the number of offending parents in the program | Actual | 0 |
| 4.1 | Number of families referred to court due to dangerous behavior measured by actual number of families referred back to court due to dangerous behavior | Actual | 1 |
| 4.2 | Percentage of families referred to court due to dangerous behavior measured by actual number of families referred back to court due to dangerous behavior dividedby total number of families in program | Actual | 25 |
| 4.3 | Number of families reveiving case management services measured by actual number of families receiving case management services | Actual | |
| 4.4 | Percentage of families reveiving case management services measured by actual number of families receiving case management services divided by total number of families in program | Actual | |
| 5.1 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 0 |
| 5.2 | Percentage of staff who speak multiple languages measured by actual number of staff who speak multiple languages divided by total number of staff | Actual | 0 |
| 5.3 | Number of non-English speaking families served measured by actual number of non-English speaking families served. | Actual | 0 |
| 5.4 | Percentage of non-English speaking families served measured by actual number of non-English speaking families served divided by total number of families served | Actual | 0 |
| 5.5 | Number of families served from diverse ethnic backgrounds measured by actual number of families from diverse ethnic backgrounds reveiving services | Actual | 1 |
| 5.6 | Percentage of families served from diverse ethnic backgrounds measured by actual number of families from diverse ethnic backgrounds reveiving services divided by total number of families served | Actual | 25 |
| 5.7 | Number of community-based initiatives participated in measured by actual number of community-based initiatives participated in | 0 | 0 |

**Contractor Comments:**

Contract Number 00050219239

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of emergency shelter/safe home beds occupied--# in bed days(bed days=actual # of beds occupied each day of the month totaled) measured by total number of bed days for the month | Actual | 32 |
| 1.10 | Percentage of families receiving support services measured by the number of families receiving support services divided by the number of families in shelter/safe home | 100% | 1 |
| 1.11 | Number of children receiving children's services measured by the actual number of children receiving children's services | Actual | 0 |
| 1.12 | Percentage of children receiving children's services measured by the number of children receiving children's services divided by number of children in shelter/safe home | 100% | 0 |
| 1.13 | Number of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by actual number of families reporting that they were helped during their stay in the shelter/safe home | Actual | 5 |
| 1.14 | Percentage of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by the number of families reporting they were helped divided by number of families exiting shelter/safe home. | Actual | 100 |
| 1.15 | Number of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the actual number of families contacted | Actual | 3 |
| 1.16 | Percentage of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the # of families contacted in a given month (who left the shelter 3 months prior to the contact) divided by # of families who left the shelter/ | Actual | 100 |
| 1.17 | Number of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the actual # of families contacted | Actual | 2 |
| 1.18 | Percentage of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the # of families contacted in a given month (6 months prior) divided by # of families who left the shelter/safe home during the entire month 6 | Actual | 100 |
| 1.19 | Number of families receiving community (non-residential) services measured by the actual # of families receiving community services | Actual | 275 |

| | | | |

1.4 This represents the total number of children registered in fy ended june 30, 2002, additional detail is available on request.
1.6 This represents the total number attending these events, additional detail is available on request.
1.7 This represents the total number of matches from these events, additional detail is available on request.
1.8 This represents the total number of children placed from these events, additional detail is available on request.
1.9 This represents the total number of inquiries, additional detail is available on request.

# Massachusetts Association for the Blind, Inc (042109859)

## 2152a Peer Support

Contract Number SCMCB40002400009

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Peer Support participants are better able to participate in the life of family, friends and/or community measured by percentage reported on survey (total # self-reporting improvement in ability to participate ( total # of participants surveyed) | 80% | 0.652 |
| 1.2 | Peer Support participants are more in control of making important life decisions measured by percentage reported on survey ( total # self-reporting improvements in decision-making ( total # of participants surveyed) | 70% | 0.664 |
| 1.3 | Peer Support participants are more confident in their ability to perform activities that were given up due to vision loss measured by percentage reported on survey (total # self-reporting that they are performing activities previously given up ( total # | 70% | 0.688 |
| 1.4 | Peer Support participants gain knowledge about blindness and resources and programs within their communities measured by percentage reported on survey (total # who report knowledge gain ( total # of participants surveyed) | 80% | 0.854 |

**Contractor Comments:** Peer Support group participants are frail and elderly. They are frequently isolated and do not have family supports.

## 3049 Adult Residential Services

Contract Number SCDMH33102003222

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients meet PSTP objectives measured by the number of clients who achieve 75% of their objectives towards their PSTP goals divided by the total number of clients | 100% | 1 |
| 1.2 | Clients experience a reduction in the rate of psychiatric hospitalizations measured by the number of days program clients are hospitalized in psychiatric facilities divided by the total number of clients | 0 | 0 |
| 1.3 | Clients experience a reduction in the rate of hospitalizations in substance abuse facilities measured by the number of days program clinets are hospitalized in substance abuse facilities divided by the total number of clients. | 0 | 0 |

| | | | |
|---|---|---|---|
| 1.4 | Program measures client satisfaction by the number of clients who reprot satisfaction with the program divided by the number of clients who participated in the satisfaction survey | 100% | 1 |

**Contractor Comments:** 1.2 No psychitric hospitalizations for FY 2002.
1.3 No hospitalizations in psychitric facilities for FY 2002.

## *3153* Residential Supports

Contract Number SCDMR26502650310

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Provider maintains at least a one year certification by the DMR Office of Quality Enhancement ( Please Enter 1 for "Yes" and 2 for "No") | Yes | 1 |
| 1.2 | Individuals and their families are invited to participate in an annual satisfaction survey/process conducted by the provider agency measured by percentage (number of individuals and families invited to participate in satisfaction survey divided by number | 100% | 1 |
| 1.3 | ISP assessments and support strategies are completed within 15 days of request per compliance with DMR regulations measured by percentage (number of assessments and strategies completed within 15 days divided by number of assessments and strategies compl | 100% | 1 |

**Contractor Comments:**

## *3168* Employment Services

Contract Number SCDMR26503650320

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers earn pay through facility based work programs measured by percentage (# of consumers in category divided by # in program) | 0% | 0.75 |
| 1.2 | Consumers work in congregate settings in business as measured by the percentage of consumers in this category | 0% | 0 |
| 1.3 | Consumers work in group supported employment measured by percentage (# of consumers in category divided by # in program) | 100% | 0.25 |
| 1.4 | Consumers participate in unpaid work or are in transition measured by percentage (# of consumers in category divided by # in program) | 0% | 0 |

| | | | |
|---|---|---|---|
| 1.5 | Consumers work in provider paid supported employment as measured by the percentage of consumers in this category | 0% | 0 |
| 1.6 | Consumers work in employer paid supported employment as measured by the percentage of consumers in this category | 0% | 0 |

**Contractor Comments:** Some consumers prefer facility based work.

DMR instructions for completing this form require that consumers in congregate settings be included in 1.1.

## *3177* Individual Support

Contract Number SCDMR26502650311

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1 | Provider to participate in evaluations conducted by the Office of Quality Management and use evaluation results to improve the supports provided to involved individuals. | 100% | 1 |
| 1 | Provider to participate in evaluations conducted by the Office of Quality Management and use evaluation results to improve the supports provided to involved individuals. | 100% | 1 |
| 2 | Assessment and support plans will be developed, submitted on a timely basis per DMR regulation and maintained by the provided for each person. | 100% | 1 |
| 2 | Assessment and support plans will be developed, submitted on a timely basis per DMR regulation and maintained by the provided for each person. | 100% | 1 |
| 3 | Supports will be provided according to each individual's support plan. | 100% | 1 |
| 3 | Supports will be provided according to each individual's support plan. | 100% | 1 |
| 4 | Individuals and their involved families wil be invited to participate in an annual satisfaction survey/process conducted by the provider agency. A summary of the results will be completed by the provider agency and forwarded to the area office. | 100% | 1 |
| 4 | Individuals and their involved families wil be invited to participate in an annual satisfaction survey/process conducted by the provider agency. A summary of the results will be completed by the provider agency and forwarded to the area office. | 100% | 1 |

1.2 Non applicable.
2.1 Non applicable.
4.1 Non applicable.

## *2205* Employment Services

Contract Number 20072031094

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers work a minimum of 4 hrs/day; 5 days/wk with an average production of 25% measured by the total # of individuals on monthly reports divided by total number who met the goal | 100% | 1 |
| 1.2 | Consumers work a minimum of 4 hrs/day; 5 days/wk with an average attendance rate of 75% measured by the total # of individuals on monthly reports divided by total number who met goal | 100% | 0.73 |
| 1.3 | Consumers have a diversity of sub-contract work measured by the total number of individuals who can choose their desired work | 100% | 1 |

| | | | |
|---|---|---|---|
| 1.4 | Individuals will maintain work skills, attitudes and habits that prepare them for community based work measured by the total # of individuals who are identified for community based employment | 5 | 5 |
| 2.1 | Number of individuals served (unduplicated count) | 19 | 19 |
| 2.2 | Number of sub-contract jobs within the year (unduplicated count) | 21 | 29 |
| 2.3 | Number of individuals served who are referred for Community Based Employment (unduplicated count) | 5 | 5 |
| 4.1 | Number of individuals maintaining attendance eligibility for the year | 19 | 18 |
| 4.2 | Number of individuals maintaining production eligibility for the year | 19 | 18 |
| 4.3 | Number of individuals given the opportunity to choose sub-contract work measured by the number of individuals who respond through consumer evaluations that they have been given options for sub-contract work | 19 | 19 |
| 4.4 | Number of individuals that are referred out for placement services | 5 | 3 |

**Contractor Comments:** 1.2 Actual Performance due to vacations and time off due to illness.

## *3034* Community Support Clubhouse

Contract Number 53102005011

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers become clubhouse members measured by the total number of new referrals who become "active members" | 30 | 30 |
| 1.2 | Consumers are employed in transitional employment measured by the total number of clubhouse members who are employed in transitional employment during the contract year (unduplicated) | 35 | 25 |
| 1.3 | Consumers are employed in supported employment measured by the total number of clubhouse members employed in supported employment during the contract year (unduplicated) | 25 | 17 |
| 1.4 | Consumers are employed in independent employment measured by the total number of clubhouse members employed in independent employment during the contract year (unduplicated) | 20 | 18 |
| 2.1 | Clubhouse developed employment opportunities for members measured by total # of supported employment placements | 25 | 17 |

**Contractor Comments:**

Contract Number 53202005020

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers become clubhouse members measured by the total number of new referrals who become "active members" | 17 | 25 |
| 1.2 | Consumers are employed in transitional employment measured by the total number of clubhouse members who are employed in transitional employment during the contract year (unduplicated) | 16 | 13 |
| 1.3 | Consumers are employed in supported employment measured by the total number of clubhouse members employed in supported employment during the contract year (unduplicated) | 12 | 8 |
| 1.4 | Consumers are employed in independent employment measured by the total number of clubhouse members employed in independent employment during the contract year (unduplicated) | 10 | 25 |
| 2.1 | Clubhouse developed employment opportunities for members measured by total # of supported employment placements | 10 | 4 |

**Contractor Comments:**

Contract Number 53302005033

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers become clubhouse members measured by the total number of new referrals who become "active members" | 50 | 100 |
| 1.2 | Consumers are employed in transitional employment measured by the total number of clubhouse members who are employed in transitional employment during the contract year (unduplicated) | 30 | 27 |
| 1.3 | Consumers are employed in supported employment measured by the total number of clubhouse members employed in supported employment during the contract year (unduplicated) | 40 | 42 |
| 1.4 | Consumers are employed in independent employment measured by the total number of clubhouse members employed in independent employment during the contract year (unduplicated) | 35 | 39 |
| 2.1 | Clubhouse developed employment opportunities for members measured by total # of supported employment placements | 35 | 44 |

**Contractor Comments:**

Contract Number 53502005049

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Consumers become clubhouse members measured by the total number of new referrals who become "active members" | 12 | 12 |
| 1.2 | Consumers are employed in transitional employment measured by the total number of clubhouse members who are employed in transitional employment during the contract year (unduplicated) | 12 | 11 |
| 1.3 | Consumers are employed in supported employment measured by the total number of clubhouse members employed in supported employment during the contract year (unduplicated) | 14 | 15 |
| 1.4 | Consumers are employed in independent employment measured by the total number of clubhouse members employed in independent employment during the contract year (unduplicated) | 15 | 14 |
| 2.1 | Clubhouse developed employment opportunities for members measured by total # of supported employment placements | 12 | 12 |

**Contractor Comments:**

| 1.2 | Consumers are employed in transitional employment measured by the total number of clubhouse members who are employed in transitional employment during the contract year (unduplicated) | 50 | 43 |
| 1.3 | Consumers are employed in supported employment measured by the total number of clubhouse members employed in supported employment during the contract year (unduplicated) | 28 | 25 |
| 1.4 | Consumers are employed in independent employment measured by the total number of clubhouse members employed in independent employment during the contract year (unduplicated) | 90 | 95 |
| 2.1 | Clubhouse developed employment opportunities for members measured by total # of supported employment placements | 27 | 25 |

**Contractor Comments:**

## *3036* Services for Education & Employment (SEE)

Contract Number 43302004055

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Consumers are employed measured by the total # of consumers who secured employment during the contract year (unduplicated) | 20 | 4 |
| 1.2 | Consumers are employed measured by the total # of jobs secured by consumers during the contract year | 20 | 4 |
| 1.3 | Consumers are enrolled in education and/or job training measured by the total # of consumers enrolled in education and/or job training during the contract year (unduplicated) | 28 | 14 |
| 1.4 | Consumers are enrolled in education and/or job training measured by the total # of education and/or job training enrollments during the contract year | 25 | 14 |

**Contractor Comments:**

Contract Number 53202005021

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers are employed measured by the total # of consumers who secured employment during the contract year (unduplicated) | 25 | 17 |
| 1.2 | Consumers are employed measured by the total # of jobs secured by consumers during the contract year | 27 | 22 |
| 1.3 | Consumers are enrolled in education and/or job training measured by the total # of consumers enrolled in education and/or job training during the contract year (unduplicated) | 12 | 7 |
| 1.4 | Consumers are enrolled in education and/or job training measured by the total # of education and/or job training enrollments during the contract year | 13 | 7 |

**Contractor Comments:**

## *3048* Respite Care Services

Contract Number 53302005032

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers meet respite plan goals measured by percentage (Number of consumer who achieve one or more respite plan goals divided by the total number of program consumers). | 100% | 0.81 |
| 1.2 | Consumers are discharged from the program in accordance with discharge plan measured by the percentage (Number of planned discharges divided by the total number of discharges) | 90% | 0.88 |

**Contractor Comments:** Re-admission to Inpatient
Arrests
Medical Discharges
AWA

## *3049* Adult Residential Services

Contract Number 53202005095

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients meet PSTP objectives measured by the number of clients who achieve 75% of their objectives towards their PSTP goals divided by the total number of clients | 35 | 38 |
| 1.2 | Clients experience a reduction in the rate of psychiatric hospitalizations measured by the number of days program clients are hospitalized in psychiatric facilities divided by the total number of clients | 6.3 | 8 |
| 1.3 | Clients experience a reduction in the rate of hospitalizations in substance abuse facilities measured by the number of days program clinets are hospitalized in substance abuse facilities divided by the total number of clients. | 6.3 | 0.06 |
| 1.4 | Program measures client satisfaction by the number of clients who reprot satisfaction with the program divided by the number of clients who participated in the satisfaction survey | 85 | 97 |

**Contractor Comments:** A factor that may skew the actual percentages would be that most of the psychiatric hospital admissions and Hospital diversion admissions refer to repeated admission of two specific clients.

## *3050* Outpatient

Contract Number 53102005013

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients remain in the community measured by percentage (total number of clients, unduplicated count, with serious mental illness as defined in DMH Policy 89-3 who are not hospitalized divided by total number of clients, unduplicated | 90 | 89 |
| 1.2 | Clients are discharged from the program in accordance with discharge plans measured by percentage (total number of planned discharges divided by total number of discharges | 100 | 100 |
| 1.3 | Clients are satisfied with program services defined by percentage (number of clients who report overall satisfaction with the program divided by total number of clients who participated in the satisfaction survey | 95 | 100 |

| | | | |
|---|---|---|---|
| 2.1a | program enrollment measured by an unduplicated count of the number of individuals who receive therapy services | 8 | 9 |
| 2.1b | program enrollment measured by an unduplicated count of the number of individuals who receive medication services | 0 | 0 |
| 2.2a | Service utilization measured by total number of units (as defined in the RFR) of therapy services provided | 28 | 28 |
| 2.2b | Service utilization measured by total number of units (as defined in the RFR) of medication services provided | 0 | 0 |

**Contractor Comments:**

Contract Number 63302006146

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients remain in the community measured by percentage (total number of clients, unduplicated count, with serious mental illness as defined in DMH Policy 89-3 who are not hospitalized divided by total number of clients, unduplicated | 85% | 0.82 |
| 1.2 | Clients are discharged from the program in accordance with discharge plans measured by percentage (total number of planned discharges divided by total number of discharges | 90% | 1 |
| 1.3 | Clients are satisfied with program services defined by percentage (number of clients who report overall satisfaction with the program divided by total number of clients who participated in the satisfaction survey | 95% | 1 |
| 2.1a | program enrollment measured by an unduplicated count of the number of individuals who receive therapy services | 30 | 16 |
| 2.1b | program enrollment measured by an unduplicated count of the number of individuals who receive medication services | 10 | 9 |
| 2.2a | Service utilization measured by total number of units (as defined in the RFR) of therapy services provided | 170 | 118 |
| 2.2b | Service utilization measured by total number of units (as defined in the RFR) of medication services provided | 75 | 32 |

**Contractor Comments:**

## *3053* Social Club

Contract Number 63302006115

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers participate in program activities measured by the monthly average number of hours consumers participated in scheduled program activities | 4000 | 4844 |
| 1.1a | Consumers participate in program activities measured by the monthly average number of hours consumers participated in scheduled program activities | 4000 | 4844 |
| 1.1b | Consumers participate in program activities measured by percentage (the average daily attendance for the last month in the contract year minus average daily attendance for the first month in the contract year divided by average daily attendance for the f | 25% | 0.38 |
| 1.2 | Consumers participate in program activities measured by percentage (the average daily attendance for the last month in the contract year minus average daily attendance for the first month in the contract year ( average daily attendance for the first mont | 25% | 0.38 |
| 2.1 | Program measures consumer satisfaction measured by percentage (number of consumers who report being satisfied with the program ( number of consumers who participate in the survey | 85% | 1 |

**Contractor Comments:** Please review how 1b gets calculated as it does not seem to accurately capture participation. Our average daily attendance rose from 18 consumers in the first month of the reporting period to 25 consumers reporting in the last month of the reporting period.

## *3059* Community Rehabilitation Support

Contract Number 53102005013

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients remain in the community measured by percentage (total number of clients, unduplicated count, who are not hospitalized divided by total number of clients, unduplicated count, with serious mental illness serv | 90 | 83 |
| 1.2 | Clients are discharged from the program in accordance with discharge plans measured by percentage (total number of planned discharges divided by total number of discharges | 100 | 100 |
| 1.3 | Clients are satisfied with program services measured by percentage (number of clients who report overall satisfaction with the program divided by total number of clients who participated in the satisfaction survey | 95 | 95 |
| 2.1 | Program enrollment measured by unduplicated count of individuals who received community rehabilitative support services | 275 | 131 |

| | | | |
|---|---|---|---|
| 2.2a | Service utilization measured by total number of "Case Coordination" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 691 | 3452 |
| 2.2b | Service utilization measured by total number of "General Support and Rehab" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 4428 | 12075 |
| 2.2c | Service utilization measured by total number of "Assistance with Medication" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 679 | 2582 |
| 2.2d | Service utilization measured by total number of "Engaging Clients who are Resistant to Treatment" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 1603 | 6045 |

**Contractor Comments:**

Contract Number 63302006146

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients remain in the community measured by percentage (total number of clients, unduplicated count, who are not hospitalized divided by total number of clients, unduplicated count, with serious mental illness serv | 75% | 0.82 |
| 1.2 | Clients are discharged from the program in accordance with discharge plans measured by percentage (total number of planned discharges divided by total number of discharges | 80% | 0.93 |
| 1.3 | Clients are satisfied with program services measured by percentage (number of clients who report overall satisfaction with the program divided by total number of clients who participated in the satisfaction survey | 95% | 1 |
| 2.1 | Program enrollment measured by unduplicated count of individuals who received community rehabilitative support services | 161 | 170 |
| 2.2a | Service utilization measured by total number of "Case Coordination" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 0 | 0 |
| 2.2b | Service utilization measured by total number of "General Support and Rehab" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 0 | 0 |

| | | | |
|---|---|---|---|
| 2.2c | Service utilization measured by total number of "Assistance with Medication" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 0 | 0 |
| 2.2d | Service utilization measured by total number of "Engaging Clients who are Resistant to Treatment" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 0 | 0 |

**Contractor Comments:** Program Outputs: When contract became unite rate, the units measured changed and became the following:
Direct General Rehabilitation and Support Services:
Goal:9358 Acutal: 8785 units
Indirect General Rehabilitation and Support Services:
Goal:6456 Acutal: 15143.5 units
Direct Assistance with Medication Services:
Goal:520 Acutal: 915 units
Indirect Assistance with Medication Services:
Goal:130 Acutal: 294.5units

## *3064* Outpatient Services (ch)

Contract Number 53302005038

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Youth are able to be sustained in a family setting measured by percentage (number of youth who, on discharge are living in a family setting divided by the total number of youth discharged) | 90% | 1 |
| 1.2 | Parents/guardians report increased competence in managing their child's illness and related behaviors measured by percentage (number of families completing satisfactions surveys who report increased competence in managing their child's illness and relate | 87% | 1 |
| 2.1 | Utilization of outpatient services measured by unduplicated number of children who are the identified clients who had been served by the end of the reporting period. (this measure is applicable only if outpatient services (3064) were included in the RFR | 38 | 17 |

**Contractor Comments:** A total of 134 individuals were served through outpatient services, however, only 17 were without insurance, makin them eligible for this portion of the contract.

## *3065* Community and School Support

Contract Number 53302005038

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Professionals who are recipients of technical assistance or support show increased understanding and ability to deal with children's mental health issues measured by percentage (number of recipients of technical assistance completing 3 month evaluation s | 0 | 0.79 |
| 1.2 | Parent Coordinator and CAP contracts only: Families are better able to cope with their child's mental health needs measured by percentage (number of families completing evaluation surveys who report an improved relationship with their child as a result o | 0 | 0 |
| 1.3 | Parent Coordinator and CAP contracts only: Families with children who have mental health problems feel less isolated measured by percentage (number of families completing evaluation surveys who report feeling less isolated as a result of activities of th | 0 | 0 |
| 2.1 | Parent Coordinator and CAP contracts only: Family Support Utilization measured by the total number of telephone support contacts. | 0 | 0 |
| 2.1a | Parent Coordinator and CAP contracts only: Family Support Utilization measured by the total number of telephone support contacts. | 0 | 0 |
| 2.1b | Parent Coordinator and CAP contracts only: Family Support Utilization measured by the total number of individual (unduplicated count) attending support groups | 0 | 0 |
| 2.2 | Technical assistance and support utilization measured by total number of individuals attending professional activities | 37 | 47 |
| 2.3 | Services to schools and community agencies measured by total number of schools and community agencies served (unduplicated count) | 36 | 35 |

**Contractor Comments:**

1.2 Non applicable.
1.3 Non applicable.
2.1 Non applicable.
2.1a Non applicable.
2.1b Non applicable.

## *3066* Individual & Family Flexible Support Srvs

Contract Number 53302005038

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Youth are able to be sustained in a family setting measured by percentage (number of youth who, on discharge are living in a family setting divided by the total number of youth discharged) | 90% | 0.93 |

| | | | |
|---|---|---|---|
| 1.2 | Parents/guardians report increased competence in managing their child's illness and related behaviors measured by percentage (number of families completing satisfactions surveys who report increased competence in managing their child's illness and relate | 87% | 0.83 |
| 2.1 | Utilization of Individual and Family Flexible Support Services measured by unduplicated number of families served by the end of the reporting period | 220 | 88 |

**Contractor Comments:** 1.2 Of those discharged, 100% reported increased competence in managing their children's behavior.
2.1 The goal for the number of families was never modified as had been discussed. The number has consistenly been an overestimate. Because only DMH-eligible children are counted in the number served, it is likely that the goal is not realistic. For FY02, Childrens' Services provided care to 134 children and families.

## *3068* Day Services (children & adolescents)

Contract Number 53102005017

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Families and clients are satisfied with services measured by percentage (number of families and clients who report overall satisfaction with the program divided by total number of satisfaction surveys completed and returned by clients/families | 90% | 1 |
| 1.1a | Families and clients are satisfied with services measured by percentage (number of families and clients who report overall satisfaction with the program divided by total number of satisfaction surveys completed and return | 90% | 1 |
| 1.1b | Families and clients are satisfied with services measured by percentage (number of families and clients who report overall satisfaction with the program divided by total number of satisfaction surveys completed and r | 90% | 1 |
| 1.2 | Clients increase their level of functioning within a family measured by percentage (number of families who, at the time of discharge, report improvement in their child's level of functioning within the family divided by total number of clients discharged | 90% | 0.92 |
| 1.2a | Clients increase their level of functioning within a family measured by percentage (number of families who, at the time of discharge, report improvement in their child's level of functioning within the family divided by | 90% | 0.92 |
| 1.2b | measured by percentage (number of families who, at the time of discharge, report improvement in their childs level of functioning within the family divided by total number of clients discharged from the program in the second (2nd)) two quarters | 90 | 92 |

| | | | |
|---|---|---|---|
| 1.3a | Clients who can participate in childhood activities without day services supports measured by percentage (number of clients who are discharged from the program to less intensive interventions or programs divided by total number of clients discharged | 92 | 92 |
| 1.3b | Clients who can participate in childhood activities without day services supports measured by percentage (number of clients who are discharged from the program to less intensive interventions or programs divided by total number of clients di | 92 | 92 |
| 2.1a | Program enrollment measured by unduplicated count of clients served during the contract year | 64 | 19 |
| 2.2 | Program enrollment measured by average daily census reported on a monthly basis | 18 | 14 |

**Contractor Comments:**

Contract Number 62102006011

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Families and clients are satisfied with services measured by percentage (number of families and clients who report overall satisfaction with the program divided by total number of satisfaction surveys completed and returned by clients/families | 85 | 100 |
| 1.1a | Families and clients are satisfied with services measured by percentage (number of families and clients who report overall satisfaction with the program divided by total number of satisfaction surveys completed and return | 0 | 0 |
| 1.1b | Families and clients are satisfied with services measured by percentage (number of families and clients who report overall satisfaction with the program divided by total number of satisfaction surveys completed and r | 0 | 0 |
| 1.2 | Clients increase their level of functioning within a family measured by percentage (number of families who, at the time of discharge, report improvement in their child's level of functioning within the family divided by total number of clients discharged | 80 | 80 |
| 1.2a | Clients increase their level of functioning within a family measured by percentage (number of families who, at the time of discharge, report improvement in their child's level of functioning within the family divided by | 0 | 0 |
| 1.2b | measured by percentage (number of families who, at the time of discharge, report improvement in their childs level of functioning within the family divided by total number of clients discharged from the program in the second (2nd)) two quarters | 00 | 0 |

| | | | |
|---|---|---|---|
| 1.3a | Clients who can participate in childhood activities without day services supports measured by percentage (number of clients who are discharged from the program to less intensive interventions or programs divided by total number of clients discharged | 70 | 70 |
| 1.3b | Clients who can participate in childhood activities without day services supports measured by percentage (number of clients who are discharged from the program to less intensive interventions or programs divided by total number of clients di | 0 | 0 |
| 2.1a | Program enrollment measured by unduplicated count of clients served during the contract year | 16 | 15 |
| 2.2 | Program enrollment measured by average daily census reported on a monthly basis | 7 | 8 |

**Contractor Comments:**

## *3132* Comprehensive Psychiatric Services

Contract Number 53302005034

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Psychiatrists are board certified measured by percentage (number of psychiatrists who are board certified divided by total number of psychiatrists | 100% | 1 |
| 4.1 | Direct care staff spend a specified percentage of their time doing direct face-to-face contact measured by number of hours staff had face-to-face contact divided by (40 hours times number of FTEs) | 75% | 0.816 |

**Contractor Comments:**

Contract Number 53502005055

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Psychiatrists are board certified measured by percentage (number of psychiatrists who are board certified divided by total number of psychiatrists | 100% | 1 |
| 4.1 | Direct care staff spend a specified percentage of their time doing direct face-to-face contact measured by number of hours staff had face-to-face contact divided by (40 hours times number of FTEs) | 75% | 0.851 |

**Contractor Comments:**

Contract Number 54202005116

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Psychiatrists are board certified measured by percentage (number of psychiatrists who are board certified divided by total number of psychiatrists | 100 | 100 |
| 4.1 | Direct care staff spend a specified percentage of their time doing direct face-to-face contact measured by number of hours staff had face-to-face contact divided by (40 hours times number of FTEs) | 30 | 54.8 |

**Contractor Comments:**

## *3146* CHMC-Continuing Care (Non-Inpatient)

Contract Number 53502005047

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Psychiatrists are board certified measured by percentage (number of psychiatrists that are board certified divided by total number of psychiatrists) | 100% | 1 |
| 1.2 | Service provision is appropriately documented by clinicians measured by percentage (number of clinicians who meet all established documentation standards divided by total number of program clinicians) | 100% | 1 |

**Contractor Comments:**

## *3153* Residential Supports

Contract Number 21202120307

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Provider maintains at least a one year certification by the DMR Office of Quality Enhancement ( Please Enter 1 for "Yes" and 2 for "No") | Yes | 1 |
| 1.2 | Individuals and their families are invited to participate in an annual satisfaction survey/process conducted by the provider agency measured by percentage (number of individuals and families invited to participate in satisfaction survey divided by number | 100% | 1 |
| 1.3 | ISP assessments and support strategies are completed within 15 days of request per compliance with DMR regulations measured by percentage (number of assessments and strategies completed within 15 days divided by number of assessments and strategies compl | 100% | 1 |

**Contractor Comments:**

Contract Number 21402140396

| Measure Number | | Goal | Actual Performance |

|---|---|---|---|
| 1.1 | Clients meet PSTP objectives measured by the number of clients who achieve 75% of their objectives towards their PSTP goals divided by the total number of clients | 80% | 0.52 |
| 1.2 | Clients experience a reduction in the rate of psychiatric hospitalizations measured by the number of days program clients are hospitalized in psychiatric facilities divided by the total number of clients | 1.5 | 4.3 |

| | | | |
|---|---|---|---|
| 1.3 | Clients experience a reduction in the rate of hospitalizations in substance abuse facilities measured by the number of days program clinets are hospitalized in substance abuse facilities divided by the total number of clients. | 0.5 | 0.1 |
| 1.4 | Program measures client satisfaction by the number of clients who reprot satisfaction with the program divided by the number of clients who participated in the satisfaction survey | 85% | 0.88 |

**Contractor Comments:** 1.1 This performance is low because many individuals are in an area of recovery that has higher expectations which makes the objective more difficult and takes more time to meet.

## *3153* Residential Supports

Contract Number 21102110376

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Provider maintains at least a one year certification by the DMR Office of Quality Enhancement ( Please Enter 1 for "Yes" and 2 for "No") | Yes | 1 |

| 1.9 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 1 |
| 1.9 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 1 |
| 1.9 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 1 |

**Contractor Comments:** 1.3 In FY02 there were no unenrolled days. Of 1300 days(260 sevice days times 5 slots) there were 31 referral days, which computes to less tnan one percent vacancy.
1.4 through 1.7 Individual service plans as indicated for each child enrolled in supportive center based pre-school have been completed and are on file at the center. Monthly reports are sent to DSS social workers. Contact is made through weekly faxes and phone calls from the center to DSS. Parents are kept abreast of all happenings through phone calls and notes.

# *MetroWest Center for Independent Living (042955399)*

## *2215b* Independent Living Centers: Peer Counseling/Skills Training

Contract Number 20072006111

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Advocacy Services: Percentage of individuals who chose and meet the goal of attaining increased skills in self advocacy/empowerment | 30% | 0.3 |
| 2.1 | Information & Referral : Number of units (hours) of I&R calls | Negotiated | 2846 |
| 2.10 | Advocacy Services: Number of units of individual advocacy services provided | Negotiated | 105 |
| 2.11 | Advocacy Services: Number of units (hours) of community and systems advocacy | Negiotiated | 1880 |
| 2.2 | Information & Referral : Number of calls received from PWD's | Actual | 0 |
| 2.3 | Information & Referral : Number of calls received from community members | actual | 0 |
| 2.4 | Skills Training : Number of units (hours) of skills training | Negotiated | 438 |
| 2.5 | Skills Training: Number of individuals receiving skills training services | actual | 70 |
| 2.6 | Peer Counseling : Number of units (hours) of peer counseling | Negotiated | 447 |
| 2.7 | Peer Counseling: Number of individuals receiving peer counseling | Actual | 67 |
| 2.8 | Advocacy Services: Number of advocacy skills groups | Negotiated | 4 |
| 2.9 | Advocacy Services: Number of individuals served through individual advocacy services | actual | 7 |
| 4.1 | Information & Referral: From the consumer satisfaction survey, the percentage of respondents who answer “very good” or “good” to question # 5 (information to live more independently?) | 50% | 0.85 |
| 4.2 | Peer Counseling: From the consumer satisfaction survey, the percentage of respondents who answer “very good” or “good” to question #7 (how well did ILC….peer counseling) | 25% | 0.89 |

| | | | |
|---|---|---|---|
| 4.3 | Peer Counseling: From the consumer satisfaction survey, the percentage of respondents who answer “very good” or “good” to question #6 (staff support you….own decisions?) | 50% | 0.89 |
| 4.4 | Skills Training: From the consumer satisfaction survey, the percentage of respondents who answer “very good” or “good” to question #8 (provide….increased ability to live independently?) | 25% | 0.66 |
| 4.5 | Advocacy Services: From the consumer satisfaction survey, the percentage of respondents who answer “very good” or “good” to question # 9b (increase ability to represent self) | 35% | 0.71 |
| 4.6 | Advocacy Services: From the consumer satisfaction survey, the percentage of respondents who answer “very good” or “good” to question #10a (center represents your interests) | 45% | 0.63 |

**Contractor Comments:** MWCIL's current data collection system, IDMS, is currently unable to produce a report which breaks down I&R calls into the sub-categories of calls received from PWD's and calls received from community members. We are working with the software developer to resolve the problem

# MetroWest Latin American Center, Inc. (042636327)

## 3343 HIV/AIDS Prevention & Education

Contract Number 49351802029

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Unduplicated # of clients belonging to the priority population (s) who receive an education session or discuss HIV risk with an outreach worker or health educator | actual | 65 |

**Contractor Comments:**

# *MicroTek, Inc. (042775290)*

## *3168* Employment Services

Contract Number 21502150340

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers earn pay through facility based work programs measured by percentage (# of consumers in category divided by # in program) | 100 | 100 |
| 1.2 | Consumers work in congregate settings in business as measured by the percentage of consumers in this category | 0 | 0 |
| 1.3 | Consumers work in group supported employment measured by percentage (# of consumers in category divided by # in program) | 100 | 100 |
| 1.4 | Consumers participate in unpaid work or are in transition measured by percentage (# of consumers in category divided by # in program) | 0 | 0 |
| 1.5 | Consumers work in provider paid supported employment as measured by the percentage of consumers in this category | 0 | 0 |
| 1.6 | Consumers work in employer paid supported employment as measured by the percentage of consumers in this category | 100 | 100 |

**Contractor Comments:**

# Middlesex Human Service Agency, Inc. (042626387)

## 2839 Individual Shelters

Contract Number 40922110037

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Accept any individual for whom there is space and who has not previously violated shelter rules and regulations measured by the actual number of individuals sheltered each day as reported monthly on the Individual Shelter Log | 700 | 869 |
| 2.1 | Accept any individual for whom there is space and who has not previously violated shelter rules and regulations measured by the actual number of individuals sheltered each day as reported monthly on the Individual Shelter Log | 700 | 869 |
| 2.2 | Provide two (2) meals per day at the shelter site for individual guests measured by the number of actual meals served each day as reported monthly on the Individual Shelter Log | 100% | 0.95 |
| 2.2 | Provide two (2) meals per day at the shelter site for individual guests measured by the number of actual meals served each day as reported monthly on the Individual Shelter Log | 100% | 0.95 |
| 2.3 | Refer individuals for appropriate services measured by actual number reported monthly on the Individual Shelter Log | 100% | 0.75 |
| 2.3 | Refer individuals for appropriate services measured by actual number reported monthly on the Individual Shelter Log | 100% | 0.75 |

**Contractor Comments:**

2.1 The statistic is UNDUPILCATED numbers.
2.3 MHSA closed its' Detox program which resulted in an increase in the number of individuals seeking detox services.

There was also an increase in the number of available appropriate referral sources due to this increased demmand.

The lack of available affordable housing is very much a factor.

Contract Number 40922111037

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 2.1 | Accept any individual for whom there is space and who has not previously violated shelter rules and regulations measured by the actual number of individuals sheltered each day as reported monthly on the Individual Shelter Log | 200 | 216 |
| 2.1 | Accept any individual for whom there is space and who has not previously violated shelter rules and regulations measured by the actual number of individuals sheltered each day as reported monthly on the Individual Shelter Log | 200 | 216 |
| 2.2 | Provide two (2) meals per day at the shelter site for individual guests measured by the number of actual meals served each day as reported monthly on the Individual Shelter Log | 100% | 0.96 |
| 2.2 | Provide two (2) meals per day at the shelter site for individual guests measured by the number of actual meals served each day as reported monthly on the Individual Shelter Log | 100% | 0.96 |
| 2.3 | Refer individuals for appropriate services measured by actual number reported monthly on the Individual Shelter Log | 100% | 0.8 |
| 2.3 | Refer individuals for appropriate services measured by actual number reported monthly on the Individual Shelter Log | 100% | 0.8 |

**Contractor Comments:**

2.1 Numbers are UNDUPLICATED. The number of women seeking shelter beds is on the rise. Our numbers are higher than last year.

2.3 There is an increased need for more appropriate referral sources for women. The available resources are stretched to the limit.

## *2901a* Family Shelters

Contract Number 509220030FS

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 0 | 15 |
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 0 | 15 |
| 2.2 | Provide up to three meals (3) per day per family measured by the actual number of meals served | 17,520 | 16644 |
| 2.2 | Provide up to three meals (3) per day per family measured by the actual number of meals served | 17,520 | 16644 |
| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.98 |

| | | | |
|---|---|---|---|
| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.98 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 1 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 1 |

**Contractor Comments:**
2.1 Affordable permanent housing is all but non-existent.
2.2 Nutritionally balanced meals are prepared on site.
2.3 The number of homeless families is the largest, fastest growing homeless population.
2.4 Family Life Advocacy Plans are developed and maintained for each family on a timely basis.

Contract Number 509220031FS

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 0 | 9 |
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 0 | 9 |
| 2.2 | Provide up to three meals (3) per day per family measured by the actual number of meals served | 100% | 1 |
| 2.2 | Provide up to three meals (3) per day per family measured by the actual number of meals served | 100% | 1 |
| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.98 |
| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.98 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 1 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 1 |

**Contractor Comments:** 2.1 The turnover rate was higher than usual, with many placements far outside our typical service area.

2.2 Food is provided for all meals during the guests' stay. Guests often prepare their own meals and occasionally share the responsibility of preparing their evening meal. Since it is the responsibility of the guests to prepare their own meals, it is difficult to measure accurately the number of meals consumed on a daily basis.

2.3 The total number of bed nights delivered was 2,190.

2.4 A Family Life Advocacy Plan is routinely done within the first wee. If a family leaves within the first week, this precludes having a plan in place.

Contract Number 509220032FS

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 0 | 35 |
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 0 | 35 |
| 2.2 | Provide up to three meals (3) per day per family measured by the actual number of meals served | 38,325 | 36409 |
| 2.2 | Provide up to three meals (3) per day per family measured by the actual number of meals served | 38,325 | 36409 |
| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.98 |
| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.98 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 1 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 1 |

**Contractor Comments:**
2.1 affordable permanent housing is all but non-existent.
2.2 Nutritionally balanced meals are prepared on site.
2.3 The number of homeless families is the largest, fastest growing homeless population.
2.4 Family Life Advocacy Plans are developed and maintained on a timely basis.

## *3385* Ambulatory Substance Abuse Treatment Services

Contract Number 230122BP080

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete treatment at discharge (based on MIS discharge form) | Actual | 0.43 |
| 1.2 | Percentage of clients who report no alcohol use at discharge (based on MIS discharge form) | Actual | 0.462 |
| 1.3 | Percentage of clients who report no drug use at discharge (based on MIS discharge form) | actual | 0.402 |
| 1.4 | Percentage of clients who report overall program goals as “achieved” (on MIS discharge form) | Actual | 0.411 |
| 2.1 | Percentage of non-white clients receiving ambulatory services (based on MIS admission form) | Actual | 0.587 |
| 2.2 | Percentage of clients whose language "most often used" is other than English (based on MIS admission form) | actual | 0.16 |
| 2.3 | Percentage of clients who live in shelters/missions or on the street (based on MIS admission form) | Actual | 0 |
| 2.4 | Percentage of clients with prior mental health treatment (based on MIS admission form) | Actual | 0.306 |
| 2.5 | Percentage of injection drug users receiving ambulatory services (based on MIS admission form) | actual | 0.013 |
| 2.6 | Percentage of clients who receive compulsive gambling treatment (based on annual report) | Actual | 0 |

**Contractor Comments:** MHSA recieved a very small amount of money in this contract($5,000.) and operates at a loss. The MIS information is collected more for MASS Health and third party billing.

## *3386* Residential Treatment and Rehabilitation

Contract Number 23042802028

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete treatment at discharge (based on MIS discharge form) | Actual | 29.9 |
| 1.1 | Percentage of clients who complete treatment at discharge (based on MIS discharge form) | Actual | 29.9 |
| 1.2 | Percentage of clients who report overall program goals as “achieved” (on MIS discharge form) | Actual | 29.9 |
| 1.2 | Percentage of clients who report overall program goals as “achieved” (on MIS discharge form) | Actual | 29.9 |
| 2.1 | Percentage of minority/non-white clients receiving residential services (based on MIS admission form) | Actual | 3.2 |
| 2.1 | Percentage of minority/non-white clients receiving residential services (based on MIS admission form) | Actual | 3.2 |

| | | | |
|---|---|---|---|
| 2.2 | Percentage of clients whose language “most often used” is other than English (based on MIS Admission form) | Actual | 0 |
| 2.2 | Percentage of clients whose language “most often used” is other than English (based on MIS Admission form) | Actual | 0 |
| 2.3 | Percentage of clients who live in shelters/missions or on the street (based on MIS admission form) | Actual | 6.3 |
| 2.3 | Percentage of clients who live in shelters/missions or on the street (based on MIS admission form) | Actual | 6.3 |
| 2.4 | Percentage of clients with prior mental health treatment (based on MIS admission form) | Actual | 7.1 |
| 2.4 | Percentage of clients with prior mental health treatment (based on MIS admission form) | Actual | 7.1 |
| 2.5 | Percentage of injection drug users receiving residential services (based on MIS admission form) | Actual | 51.2 |
| 2.5 | Percentage of injection drug users receiving residential services (based on MIS admission form) | Actual | 51.2 |

**Contractor Comments:** Community outreach was improved via hosting a 22 week 12 STEP Program for women as well as a weekly 12 STEP AWOL seminars frou our clients and the community.

Contract Number 23042802058

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete treatment at discharge (based on MIS discharge form) | Actual | 43.1 |
| 1.1 | Percentage of clients who complete treatment at discharge (based on MIS discharge form) | Actual | 43.1 |
| 1.2 | Percentage of clients who report overall program goals as “achieved” (on MIS discharge form) | Actual | 44.1 |
| 1.2 | Percentage of clients who report overall program goals as “achieved” (on MIS discharge form) | Actual | 44.1 |
| 2.1 | Percentage of minority/non-white clients receiving residential services (based on MIS admission form) | Actual | 31.5 |
| 2.1 | Percentage of minority/non-white clients receiving residential services (based on MIS admission form) | Actual | 31.5 |
| 2.2 | Percentage of clients whose language “most often used” is other than English (based on MIS Admission form) | Actual | 9.01 |
| 2.2 | Percentage of clients whose language “most often used” is other than English (based on MIS Admission form) | Actual | 9.01 |
| 2.3 | Percentage of clients who live in shelters/missions or on the street (based on MIS admission form) | Actual | 7.2 |

| | | | |
|---|---|---|---|
| 2.3 | Percentage of clients who live in shelters/missions or on the street (based on MIS admission form) | Actual | 7.2 |
| 2.4 | Percentage of clients with prior mental health treatment (based on MIS admission form) | Actual | 17.1 |
| 2.4 | Percentage of clients with prior mental health treatment (based on MIS admission form) | Actual | 17.1 |
| 2.5 | Percentage of injection drug users receiving residential services (based on MIS admission form) | Actual | 57.7 |
| 2.5 | Percentage of injection drug users receiving residential services (based on MIS admission form) | Actual | 57.7 |

**Contractor Comments:** A significant portion of clients continue to come from the criminal justice system.

Sullivan House is now a 4-6 month program instead of 4 month program, allowing for more consistent, longer term treatment.

## *3395b* Acute Treatment Services

Contract Number 23031802014

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete treatment at discharge (based on MIS discharge form) | Actual | 0.66 |
| 2.1 | Percentage of referrals to aftercare services (in the quarterly report) | Actual | 0.81 |

**Contractor Comments:** Our detox program as of July 1st had all TSS beds. There was no medical detox and the program closed at the end of September.

## *3401* Second Offender 14 day residential (DUIL)

Contract Number 23142802002

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete the 14 day residential program | Actual | 0.97 |
| 1.2 | Percentage of clients who achieve their goals in the area of alcohol use and drug use (based on MIS discharge form) | Actual | 0.965 |
| 1.3 | Percentage of clients who advance to an aftercare program (based on quarterly reports), aggregated annually | Actual | 1 |
| 2.1 | Number of clients admitted to program ( annual unduplicated count) | Actual | 1208 |

**Contractor Comments:** Declining enrollment continues to be a major concern. There has been a steady decrease in enrollment over the last 6-7 years.

## *3414* Youth Programs

Contract Number 23212802022

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Percentage of youth engaged in community prevention programs (annual unduplicated count) | Actual | 0.99 |
| 2.2 | Percentage of youth referred to treatment services (annual unduplicated count) | Actual | 0.17 |
| 2.3 | Number of youths receiving risk reduction materials (annual unduplicated count) | actual | 1936 |

**Contractor Comments:** Our program continues to make curriculum based presentations and workshops to students from the elementary grades through high school.

After school activities include a new mentoring program, a software and hardware class to tweleve adolescents; DARE summer camp; a work force prep program and boys and girls groups; and adolescent substance abuse groups.

# MINUTEMAN ARC FOR HUMAN SERVICES, INC. (042269230)

## 3153 Residential Supports

Contract Number 26802680331

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Provider maintains at least a one year certification by the DMR Office of Quality Enhancement ( Please Enter 1 for "Yes" and 2 for "No") | Yes | 1 |
| 1.2 | Individuals and their families are invited to participate in an annual satisfaction survey/process conducted by the provider agency measured by percentage (number of individuals and families invited to participate in satisfaction survey divided by number | 100% | 1 |
| 1.3 | ISP assessments and support strategies are completed within 15 days of request per compliance with DMR regulations measured by percentage (number of assessments and strategies completed within 15 days divided by number of assessments and strategies compl | 100% | 1 |

**Contractor Comments:**

## 3168 Employment Services

Contract Number 26802680377

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers earn pay through facility based work programs measured by percentage (# of consumers in category divided by # in program) | 0% | 0 |
| 1.2 | Consumers work in congregate settings in business as measured by the percentage of consumers in this category | 0% | 0 |
| 1.3 | Consumers work in group supported employment measured by percentage (# of consumers in category divided by # in program) | 0% | 0 |
| 1.4 | Consumers participate in unpaid work or are in transition measured by percentage (# of consumers in category divided by # in program) | 5% | 0.06 |
| 1.5 | Consumers work in provider paid supported employment as measured by the percentage of consumers in this category | 58% | 0.63 |

| | | | |
|---|---|---|---|
| 1.6 | Consumers work in employer paid supported employment as measured by the percentage of consumers in this category | 37% | 0.31 |

**Contractor Comments:** Three consumers lost their positions in employer paid supported employment due to work attitude; provider has been working with them on skills training and dealing with work-related issues appropriately so they will be ready for placement in independent positions in the future. One consumer lost his position on a crew site due to behaviors and is currently in unpaid work.

## *3176* Family Support

Contract Number 26802680333

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1a | Families are offered the opportunity to participate in family directed organizational activities measured by the percentage offered (# offered divided by the # in program) | 100% | 1 |
| 1.1b | Of those families offered opportunities, the percentage (# involved divided by the # offered opportunity) involved in family directed organizational activities such as family council, family leadership training and/or advisory boards. | 20% | 0.15 |
| 1.2 | Families avail themselves of flexible service options measured by percentage (# of families that avail themselves divided by # in the program) | 100% | 1 |
| 1.3 | Families take advantage of inclusive community based activities measured by percentage (# or families that take advantage of inclusive activities divided by # in the program) | 80% | 0.8 |
| 1.4a | Family support agencies review on a semi-annual basis the number of individuals under age 22 served during the year and the number of individuals who sought and received out of home placement as measured by the percentage of individuals reviewed | 100% | 1 |
| 1.4b | Individuals who receive family support services remain in their homes and community as measured by the percentage decreas from FY 01 to FY 02 in the number of families whose children under age 22 are placed out of home | 50% | 1 |
| 1.5 | Families are surveyed to determine satisfaction/dissatisfaction with family support services measured by percentage of families offered the opportunity to express their satisfaction/dissatisfaction (# of families offered the opportunity divided by # of ) | 100% | 1 |

**Contractor Comments:**

## *3177* Individual Support

Contract Number 26802680333

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1 | Provider to participate in evaluations conducted by the Office of Quality Management and use evaluation results to improve the supports provided to involved individuals. | 100% | 1 |
| 1 | Provider to participate in evaluations conducted by the Office of Quality Management and use evaluation results to improve the supports provided to involved individuals. | 100% | 1 |
| 2 | Assessment and support plans will be developed, submitted on a timely basis per DMR regulation and maintained by the provided for each person. | 100% | 1 |
| 2 | Assessment and support plans will be developed, submitted on a timely basis per DMR regulation and maintained by the provided for each person. | 100% | 1 |
| 3 | Supports will be provided according to each individual's support plan. | 100% | 1 |
| 3 | Supports will be provided according to each individual's support plan. | 100% | 1 |
| 4 | Individuals and their involved families wil be invited to participate in an annual satisfaction survey/process conducted by the provider agency. A summary of the results will be completed by the provider agency and forwarded to the area office. | 100% | 1 |
| 4 | Individuals and their involved families wil be invited to participate in an annual satisfaction survey/process conducted by the provider agency. A summary of the results will be completed by the provider agency and forwarded to the area office. | 100% | 1 |

**Contractor Comments:**

## *3317* Early Intervention

Contract Number 36012005175

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Needs of enrolled children are addressed in a timely manner measured by the percentage of enrolled children with signed IFSPs within 45 days of referral | 100% | 0.5 |
| 2.1 | Needs of enrolled children are addressed in a timely manner measured by the percentage of enrolled children with signed IFSPs within 45 days of referral | 100% | 0.5 |
| 2.2 | Services are provided in natural settings measured by percentage of services provided in natural, non-segregated environments | 50% | 0.84 |

| | | | |
|---|---|---|---|
| 2.2 | Services are provided in natural settings measured by percentage of services provided in natural, non-segregated environments | 50% | 0.84 |
| 2.3 | Transition in “next step” services is enhanced through collaboration and communication measured by percentage of children over 2½ with written transition plan developed with family | 75% | 0.9 |
| 2.3 | Transition in “next step” services is enhanced through collaboration and communication measured by percentage of children over 2½ with written transition plan developed with family | 75% | 0.9 |

**Contractor Comments:** 2.1 Data indicate 64% IFSP's done in 50 days & 76% in 60 days. Factors affecting delay: staff shortage for 2 months, schedule conflicts for families & 297 referrals in 256 working days (9/1/01-9/1/02) Even with delay, all evaluations & assessments are done before IFSP & services begin immediately after IFSP is signed. Program Director has developed weekly monitoring system to remind staff of 45 day timeline; improvement is expected in FY03

# *Minuteman Senior Services, Inc. (042587212)*

## *8006* Home Care Purchase-of-Service

Contract Number 03642206017

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder Consumers requiring assistance with Activities of Daily Living are able to remain in the community measured by the percentage that remain in the community (total number of HC clients receiving purchased services {every client except CM only} during FY 02 minus the total numbe of closed clients who received said services divided by total number of HC clients receiving purchased services during FY02 | actual | 100 |
| 1.2 | Caregivers and family members are supported and encouraged to continue their involvement caring for the needs of elderly consumers measured by the percentage of caregivers responding favorably on Client Satisfaction Survey regarding Respite Care | actual | 85 |
| 2.1 | Annual monthly average number of intakes completed for the Home Care program measured by the total number of Home Care intakes conducted during FY 02 divided by 12 months | 50 | 64.92 |
| 2.2 | Annual monthly average number of Home Care clients served measured by the total number of Home Care clients served in FY 02 divided by 12 (months) | actual | 859.67 |
| 2.3 | Unmet ADL/IADL needs for new clients are reduced subsequent to receiving Home Care services measured by percentage annual average number of unmet needs for new clients at the time of initial assessment divided by tannual average number of unmet needs for the same number of clients after reassessment. | 90% | 1 |
| 2.4 | Monthly average number of CICLE linkages achieved measured by the total number of actual CICLE linkages for FY 02 divided by 12 (months) | actual | 0.58 |
| 2.5 | Monthly average number of clients enrolled in the 2176 Waiver Program measured by the total number of 2176 MA Waiver clients served in FY 02 divided by 12 (months) | actual | 87.55 |
| 2.6 | Annual number of nursing home elders discharged through ASAP intervention measured by the total number of FY02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 0.19 |
| 3.1 | Percentage of eligible cost sharing co-payments from eligible clients | 90% | 0.98 |

| | | | |
|---|---|---|---|
| 4.1 | Consumers are satisfied with Home Care Purchased Services measured by % (total # of HC Program consumers responding to client satisfaction survey(s) who rated their services as positive/affirmative or satisfactory divided by total # of HC Program consumers responding to the client satisfaction survey) | 90% | 1 |
| 4.2 | % of peer reviewed records receiving an "agreement" rating measured by annual total # of agency-specific HC Program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by annual total number of all agency-specific HC Program intakes reviewed during FY 02 Peer Review sessions | 90% | 1 |

**Contractor Comments:**

## *8009* Elder at Risk

Contract Number 03642233208

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers who become Elder At Risk clients (open cases) are evaluated in a timely manner (at least monthly) consistent with standards measured by percentage (total # of open cases that received all required montly visits divided by total # of cases | Actual | 0.99 |
| 2.1 | % of EAR intakes designated as "routine" that receiv a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 0.99 |
| 2.2 | % of cases screened as "routine" in which the assessment was initiated, face to face contact, within 5 days of receipt of the reprot (# of intakes screened as routine where face to face contact was initiated within 5 days of receipt of the reprot divided | Actual | 0.97 |
| 2.3 | % of assessments completed within 30 days of receipt of reprot (# of assessments completed within 30 days of receipt of reprot divided by total # of assessments completed) | Actual | 0.96 |
| 2.4 | EAR staff provide a minimum of 15 trainings annually to community persons and organizations measured by actual number | 15/yr | 17 |

**Contractor Comments:**

## *8014* Home Care Case Management

Contract Number 03642206017

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers requiring assistance with Activities of Daily Living (ADLs) have information, opportunities, choices and assistance in accessing services to assist them in remaining in the community measured by percentage (total number of HC clients receiving case management services during FY 02 minus the total of all closed HC cases divided by total number of HC clients receiving CM services during the FY) | actual | 100 |
| 1.2 | Caregivers and family members are supported and encouraged to continue their involvement in caring for the needs of elder consumers measured by percentage of caregivers responding favorably on Client Satisfaction Survey(s) regarding Respite Care services | actual | 85 |
| 2.1 | Monthly average number of intakes completed for the Home Care Program measured by total number of Home Care intakes conducted during FY 02 divided by 12 months | actual | 64.92 |
| 2.2 | Monthly average number of clients receiving case management services measured by total number of Home Care clients receiving both case management and purchased services during FY 02 divided by 12 months | actual | 10.33 |
| 2.3 | Number of unmet ADL/ADL needs for new clients is reduced subsequent to receiving case management services measured by percentage (annual average number of unmet needs for new clients at the time of initial assessment divided by annual average number of unmet needs for the same number of clients after reassessment | 90 % | 1 |
| 2.4 | Monthly average number of clients served by the Home Care Program, i.e. provided case management services measured by total number of Home Care clients receiving case management services during FY 02 divided by 12 months | actual | 859.67 |
| 2.5 | Monthly average number of CICLE linkages achieved measured by the total number of actual CICLE linkages for FY 02 divided by 12 months | actual | 0.58 |
| 2.6 | Monthly minimum number of clients enrolled in the 2176 Waiver Program measured by total number of 2176 MA Waiver clients served in FY 02 divided by 12 months. Average not to be lower that contract specific goal. | 60 | 87.55 |
| 2.7 | Annual number of nursing home elders discharged through ASAP intervention measured by percentage (total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 0.19 |
| 3.1 | Percentage of collection of eligible cost-sharing co-payments from eligible clients | 90% | 0.9784 |

| | | | |
|---|---|---|---|
| 4.1 | Consumers are satisfied with Case Management Services measured by percentage (total number of HC program consumers responding to a clients satisfaction survey(s) who rated their overall satisfaction with case management services as positive/affirmative or satisfactory divided by total number of HC program consumers responding to the client satisfaction survey(s) | 90% | 1 |
| 4.2 | Percentage of peer reviewed records receiving an "agreement" rating measured by annual total number of agency-specific HC Program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by total number of all agency-specific HC Program intakes reviewed during FY 02 Peer Review sessions | 90% | 1 |

**Contractor Comments:**

## *8017* Congregate Housing

Contract Number 03642517036

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Occupancy level measured by percentage (numerator: add together the number of occupied congregate units @ the end of each month. Divide by 12 months. denominator: total number of all congregate units, occupied and vacant) | 90% | 0.67 |
| 2.2 | Conduct a minimum of eight community presentations per year measured by the actual number of community presentations conducted by ASAP personnel during this FY | 8 | 8 |
| 4.1 | Achieve a “Satisfactory” rating or above on resident satisfaction surveys measured by percentage(numerator: # of Congregate tenants responding to a client satisfaction survey who rated their services as positive, affirmative or satisfactory. denominator: | 90% | 1 |

**Contractor Comments:**

## *8025* Coordination of Care

Contract Number 03642225017

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Maximize the annual number of diversions of elders seeking nursing home placements back to the community measured by total annual number of Medicaid pre-admission and Medicaid post-approval diversions | 0 | 0 |

| | | | |
|---|---|---|---|
| 1.2 | Maximize the annual number of nursing facility residents discharged to a community setting measured by total annual number of Nursing Home discharges (i.e. assist with placement of Medicaid nursing facility residents into community settings) | 1 | 1.58 |
| 2.1 | Monthly average number of CoC clients screened measured by number tracked and reported by HOMIS | Actual | 92.67 |
| 2.10 | Annual number of nursing home elders discharged through ASAP intervention measured by the total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to ASAP | Actual | 19 |
| 2.2 | Monthly average number of CoC clients determined eligible for Adult Day Health (ADH) measured by the total number of CoC clients determined eligible for ADH during FY 02 divided by 12 (months) | Actual | 1.83 |
| 2.3 | Monthly average number of CoC clients determined eligible for Adult Foster Care (AFC) measured by the total number of CoC clients determined eligible for AFC during FY 02 divided by 12 (months) | Actual | 0 |
| 2.4 | Monthly average number of CoC clients determined eligible for Group Adult Foster Care (GAFC) measured by the total number of CoC clients determined eligible for GAFC during FY 02 divided by 12 (months) | Actual | 0 |
| 2.5 | Monthly average number of CoC clients determined eligible for Pre Pace measured by the total number of CoC clients determined eligible for Pre Pace during FY 02 divided by 12 (months) | Actual | 0 |
| 2.6 | Monthly average number of CoC clients determined eligible for 2176 Home and Community Based Waiver measured by the total number of CoC clients determined eligible for 2176 Home and Community Based Waiver during FY 02 divided by 12 (months) | Actual | 8.58 |
| 2.7 | Monthly average number of CoC clients determined eligible for Personal Emergency Response Services (PERS) measured by the total number of CoC clients determined eligible for PERS during FY 02 divided by 12 (months) | Actual | 15 |
| 2.8 | Monthly average number of CoC clients determined eligible for Home Health (HH) services measured by the total number of CoC clients determined eligible for HH services during FY 02 divided by 12 (months) | Actual | 2.33 |
| 2.9 | Monthly average number of Home Health Initiative alternative service plans measured by the total number of Home Health Initiative alternative plans implemented for FY 02 divided by 12 (months) | Actual | 0.58 |
| 4.1 | Percentage of peer review records receiving an agreement rating measured by the annual total number of agency-specific CoC client records receiving an agreement rating during FY02 Peer Review sessions divided by annual total number of all agency-specific | 90% | 1 |

**Contractor Comments:**

## 8042 Protective Services Care Management

Contract Number 03642206017

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers who become Protective Services clients (open cases) are evaluated in a timely manner (at least monthly) consistent with standards measured by percentage (total # of open cases that received all required monthly visits divided by total # ) | Actual | 0.97 |
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 1 |
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 1 |
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 1 |
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 1 |
| 2.3 | % of investigations completed within 30 days of receipt of the report (# of investigations completed within 30 days of receipt of the report divided by total # of investigations completed during the fiscal year) | Actual | 0.95 |
| 2.4 | Protective Services staff provide a minimum of 15 trainings annually to community persons and organizations | 15/yr | 17 |

| 2.4 | Percentage of clients with prior mental health treatment (based on MIS admission form) | Actual | 45.1 |
| 2.4 | Percentage of clients with prior mental health treatment (based on MIS admission form) | Actual | 45.1 |
| 2.5 | Percentage of injection drug users receiving residential services (based on MIS admission form) | Actual | 41.8 |
| 2.5 | Percentage of injection drug users receiving residential services (based on MIS admission form) | Actual | 41.8 |

**Contractor Comments:**

1. Percentage of clients with substantial criminal records. A large number of our clients have extremely violent backgrounds including instituitional histories of several years average. Ex-offenders require a large amount of case management services in order to be able to make a succesful transition to the community.
2. Percentage of clients with mental health diagnosis
who require an extraordinary amount of case management services, thus taxing the staff.

# New England Business Associates,Inc. (042790394)

## *3415* EI Autistic

Contract Number DPH3614103199902

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Intensive programs are available to all children with ASD in timely manner measured by the percentage of children beginning service in less than thirty days between referral to Intensive Home Visiting Program and initiation of service | 75% | 0.66 |
| 2.2 | Program collaborates with other service providers measured by the percentage of children with documentation of at least one monthly contact with collaborator in child's record | 85% | 0.86 |

**Contractor Comments:**

Measure 2.1
There were 7 students referred to the Center from within our defined service area (30-40 minutes actual driving time from the Central School Facility)during this reporting period. As stated in our application, NECC strives to provide all children with the most effective intervention available, based on "best practice" in the literature, (Green, 1996; NYS-DPH EIP, 1999). As such, we are committed to providing 30 hours per week for all students that we serve. Of the 7 students there were six students for whom parents and NECC agreed that our services were appropriate (86%). Of those 6, we began services for 4 children. In one case, the family of the other student had begun receiving services from other SSP's at the time NECC services were offered. Our commitment to providing 30 hours per week for each child limits the number of students we can serve effectively in the program.

## *8009* Elder at Risk

Contract Number 03642233221

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers who become Elder At Risk clients (open cases) are evaluated in a timely manner (at least monthly) consistent with standards measured by percentage (total # of open cases that received all required montly visits divided by total # of cases | Actual | 100 |
| 2.1 | % of EAR intakes designated as "routine" that receiv a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 100 |
| 2.2 | % of cases screened as "routine" in which the assessment was initiated, face to face contact, within 5 days of receipt of the reprot (# of intakes screened as routine where face to face contact was initiated within 5 days of receipt of the reprot divided | Actual | 100 |
| 2.3 | % of assessments completed within 30 days of receipt of reprot (# of assessments completed within 30 days of receipt of reprot divided by total # of assessments completed) | Actual | 100 |
| 2.4 | EAR staff provide a minimum of 15 trainings annually to community persons and organizations measured by actual number | 15/yr | 17 |

**Contractor Comments:** Measure 2.1: "routine" should read "rapid"

## *8014* Home Care Case Management

Contract Number 03642206020

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers requiring assistance with Activities of Daily Living (ADLs) have information, opportunities, choices and assistance in accessing services to assist them in remaining in the community measured by percentage (total number of HC clients receiving case management services during FY 02 minus the total of all closed HC cases divided by total number of HC clients receiving CM services during the FY) | actual | 67 |
| 1.2 | Caregivers and family members are supported and encouraged to continue their involvement in caring for the needs of elder consumers measured by percentage of caregivers responding favorably on Client Satisfaction Survey(s) regarding Respite Care services | actual | 94 |
| 2.1 | Monthly average number of intakes completed for the Home Care Program measured by total number of Home Care intakes conducted during FY 02 divided by 12 months | actual | 39 |
| 2.2 | Monthly average number of clients receiving case management services measured by total number of Home Care clients receiving both case management and purchased services during FY 02 divided by 12 months | actual | 857 |
| 2.3 | Number of unmet ADL/ADL needs for new clients is reduced subsequent to receiving case management services measured by percentage (annual average number of unmet needs for new clients at the time of initial assessment divided by annual average number of unmet needs for the same number of clients after reassessment | 90 % | 0.94 |
| 2.4 | Monthly average number of clients served by the Home Care Program, i.e. provided case management services measured by total number of Home Care clients receiving case management services during FY 02 divided by 12 months | actual | 901 |
| 2.5 | Monthly average number of CICLE linkages achieved measured by the total number of actual CICLE linkages for FY 02 divided by 12 months | actual | 0.17 |
| 2.6 | Monthly minimum number of clients enrolled in the 2176 Waiver Program measured by total number of 2176 MA Waiver clients served in FY 02 divided by 12 months. Average not to be lower that contract specific goal. | 0 | 71 |
| 2.7 | Annual number of nursing home elders discharged through ASAP intervention measured by percentage (total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1.05 |
| 3.1 | Percentage of collection of eligible cost-sharing co-payments from eligible clients | 90% | 0.95 |

| | | | |
|---|---|---|---|
| 4.1 | Consumers are satisfied with Case Management Services measured by percentage (total number of HC program consumers responding to a clients satisfaction survey(s) who rated their overall satisfaction with case management services as positive/affirmative or satisfactory divided by total number of HC program consumers responding to the client satisfaction survey(s) | 90% | 0.94 |
| 4.2 | Percentage of peer reviewed records receiving an "agreement" rating measured by annual total number of agency-specific HC Program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by total number of all agency-specific HC Program intakes reviewed during FY 02 Peer Review sessions | 90% | 1 |

**Contractor Comments:**

## *8017* Congregate Housing

Contract Number 03642517020

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Occupancy level measured by percentage (numerator: add together the number of occupied congregate units @ the end of each month. Divide by 12 months. denominator: total number of all congregate units, occupied and vacant) | 90% | 0.95 |
| 2.2 | Conduct a minimum of eight community presentations per year measured by the actual number of community presentations conducted by ASAP personnel during this FY | 8 | 10 |
| 4.1 | Achieve a “Satisfactory” rating or above on resident satisfaction surveys measured by percentage(numerator: # of Congregate tenants responding to a client satisfaction survey who rated their services as positive, affirmative or satisfactory. denominator: | 90% | 1 |

**Contractor Comments:**

## *8025* Coordination of Care

Contract Number 03642225020

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Maximize the annual number of diversions of elders seeking nursing home placements back to the community measured by total annual number of Medicaid pre-admission and Medicaid post-approval diversions | 0 | 0 |

| | | | |
|---|---|---|---|
| 1.2 | Maximize the annual number of nursing facility residents discharged to a community setting measured by total annual number of Nursing Home discharges (i.e. assist with placement of Medicaid nursing facility residents into community settings) | 0 | 1 |
| 2.1 | Monthly average number of CoC clients screened measured by number tracked and reported by HOMIS | Actual | 84 |
| 2.10 | Annual number of nursing home elders discharged through ASAP intervention measured by the total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to ASAP | Actual | 1 |
| 2.2 | Monthly average number of CoC clients determined eligible for Adult Day Health (ADH) measured by the total number of CoC clients determined eligible for ADH during FY 02 divided by 12 (months) | Actual | 2 |
| 2.3 | Monthly average number of CoC clients determined eligible for Adult Foster Care (AFC) measured by the total number of CoC clients determined eligible for AFC during FY 02 divided by 12 (months) | Actual | 0 |
| 2.4 | Monthly average number of CoC clients determined eligible for Group Adult Foster Care (GAFC) measured by the total number of CoC clients determined eligible for GAFC during FY 02 divided by 12 (months) | Actual | 0 |
| 2.5 | Monthly average number of CoC clients determined eligible for Pre Pace measured by the total number of CoC clients determined eligible for Pre Pace during FY 02 divided by 12 (months) | Actual | 0 |
| 2.6 | Monthly average number of CoC clients determined eligible for 2176 Home and Community Based Waiver measured by the total number of CoC clients determined eligible for 2176 Home and Community Based Waiver during FY 02 divided by 12 (months) | Actual | 7 |
| 2.7 | Monthly average number of CoC clients determined eligible for Personal Emergency Response Services (PERS) measured by the total number of CoC clients determined eligible for PERS during FY 02 divided by 12 (months) | Actual | 20 |
| 2.8 | Monthly average number of CoC clients determined eligible for Home Health (HH) services measured by the total number of CoC clients determined eligible for HH services during FY 02 divided by 12 (months) | Actual | 5 |
| 2.9 | Monthly average number of Home Health Initiative alternative service plans measured by the total number of Home Health Initiative alternative plans implemented for FY 02 divided by 12 (months) | Actual | 0 |
| 4.1 | Percentage of peer review records receiving an agreement rating measured by the annual total number of agency-specific CoC client records receiving an agreement rating during FY02 Peer Review sessions divided by annual total number of all agency-specific | 90% | 1 |

**Contractor Comments:**

## 8042 Protective Services Care Management

Contract Number 03642206020

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers who become Protective Services clients (open cases) are evaluated in a timely manner (at least monthly) consistent with standards measured by percentage (total # of open cases that received all required monthly visits divided by total # ) | Actual | 95 |
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 100 |
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 100 |
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 98 |
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 98 |
| 2.3 | % of investigations completed within 30 days of receipt of the report (# of investigations completed within 30 days of receipt of the report divided by total # of investigations completed during the fiscal year) | Actual | 90 |
| 2.4 | Protective Services staff provide a minimum of 15 trainings annually to community persons and organizations | 15/yr | 15 |

**Contractor Comments:**

## 8043 Managed Care/Housing

Contract Number 03642206020

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Elder consumers requiring assistance with ADLs are able to remain in the community measured by the total number of MCIH clients served during FY 02 minus the total number of closed MCIH Program clients for said FY divided by total number of MCIH clients | Actual | 84 |
| 2.1 | Monthly average number of intakes completed for the MCIH Program measured by total number of MCIH intakes conducted during FY 02 divided by 12 months | Actual | 1 |
| 2.2 | Monthly average number of clients enrolled in the MCIH program measured by the total number of MCIH program clients served during FY 02 divided by 12 months | Actual | 25 |
| 2.3 | Number of unmet ADL/IADL needs for new clients is reduced subsequent to receiving MCIH services as tracked and reported by HOMIS | 90% | 0.94 |
| 2.4 | Annual number of nursing home elders discharged through ASAP intervention measured by total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1.05 |
| 4.1 | Clients are satisfied with MCIH services measured by percentage (total number of MCIH program consumers responding to a client satisfaction survey who rated their overall satisfaction with MCIH services as positive, affirmative or satisfactory for FY02 | 90% | 0.94 |
| 4.2 | Percentage of peer reviewed records receiving an "agreement" rating measured by annual total # of agency-specific MCIH program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by total number of all agency specific MCIH I | 90% | 1 |

**Contractor Comments:**

## *8044* ECOP (Enhanced Community Options)

Contract Number 03642ECO020

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers at risk of nursing home placement and requiring assistance with ADLs are able to remain in the community measured by % (total # of ECOP clients served during FY 02 minus the total # of closed ECOP clients during said FY divided by total # | Actual | 55 |
| 2.1 | Monthly average number of intakes completed for the ECOP program measured by total number of ECOP Program intakes conducted during FY 02 divided by 12 months | Actual | 4 |
| 2.2 | Monthly average number of client served in the ECOP Program measured by the total number of ECOP Program clients served during FY 02 divided by 12 months | Actual | 32 |

| | | | |
|---|---|---|---|
| 2.3 | Number of unmet ADL/IADL needs for new clients is reduced subsequent to receiving ECOP services as tracked and reported to HOMIS | Actual | 94 |
| 2.4 | Annual number of nursing home elders discharged through ASAP intervention measured by total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1.05 |
| 4.1 | Clients are satisfied with ECOP services measured by percentage (total number of ECOP program consumers responding to a client satisfaction survey (s) who rate their overall satisfaction with ECOP services as positive, affirmative or satisfactory divided | 90% | 0.94 |
| 4.2 | Percentage of Peer Reviewed records receiving an agreement rating measured by annual total number of agency-specific ECOP Program intakes receiving an agreement rating during FY 02 Peer Review sessions divided by annual total number of all agency-specifi | 90% | 1 |

**Contractor Comments:**

Contract Number 10002131040

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.4a | Parents are knowledgeable of child care options available to them, including types of child care subsidy and of health and safety requirements for child care measured by the number of parents given information about subsidized child care (in their own | Actual # | 52 |
| 1.4a | Parents are knowledgeable of child care options available to them, including types of child care subsidy and of health and safety requirements for child care measured by the number of parents given information about subsidized child care (in their own | Actual # | 52 |
| 1.4a | Parents are knowledgeable of child care options available to them, including types of child care subsidy and of health and safety requirements for child care measured by the number of parents given information about subsidized child care (in their own | Actual # | 52 |
| 1.4b | Parents are knowledgeable of child care options available to them, including types of child care subsidy and of health and safety requirements for child care measured by the percentage of parents given information subsidized child care (in their own | Actual % | 1 |
| 1.4b | Parents are knowledgeable of child care options available to them, including types of child care subsidy and of health and safety requirements for child care measured by the percentage of parents given information subsidized child care (in their own | Actual % | 1 |
| 1.4b | Parents are knowledgeable of child care options available to them, including types of child care subsidy and of health and safety requirements for child care measured by the percentage of parents given information subsidized child care (in their own | Actual % | 1 |
| 1.5a | Parents are satisfied with the services provided to them and their children measured by the number and percentage of families who are provided with an OCCS consumer questionnaire at least annually or at the termination of care. | Actual # | 52 |
| 1.5a | Parents are satisfied with the services provided to them and their children measured by the number and percentage of families who are provided with an OCCS consumer questionnaire at least annually or at the termination of care. | Actual # | 52 |
| 1.5a | Parents are satisfied with the services provided to them and their children measured by the number and percentage of families who are provided with an OCCS consumer questionnaire at least annually or at the termination of care. | Actual # | 52 |

| | | | |
|---|---|---|---|
| 1.5b | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, are provided with an OCCS consumer questionnaire at least annually or at the termination of care. | Actual % | 1 |
| 1.5b | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, are provided with an OCCS consumer questionnaire at least annually or at the termination of care. | Actual % | 1 |
| 1.5b | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, are provided with an OCCS consumer questionnaire at least annually or at the termination of care. | Actual % | 1 |
| 1.6a | Parents are satisfied with the services provided to them and their children measured by the number of families who, on an OCCS questionnaire, report that they are satisfied with the services received | Actual # | 0 |
| 1.6a | Parents are satisfied with the services provided to them and their children measured by the number of families who, on an OCCS questionnaire, report that they are satisfied with the services received | Actual # | 0 |
| 1.6a | Parents are satisfied with the services provided to them and their children measured by the number of families who, on an OCCS questionnaire, report that they are satisfied with the services received | Actual # | 0 |
| 1.6b | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, on an OCCS questionnaire, report that they are satisfied with the services received. | Actual % | 0 |
| 1.6b | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, on an OCCS questionnaire, report that they are satisfied with the services received. | Actual % | 0 |
| 1.6b | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, on an OCCS questionnaire, report that they are satisfied with the services received. | Actual % | 0 |

**Contractor Comments:** 1.6a, 1.6b NES Child Care Services distributed a survey created by OCCS in January 2002. The results of the survey have not been made available to programs as of yet.

Surveys are returned to OCCS directly by consumers.

## *CHCY* Supportive Child Care

Contract Number 10402041018

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Children promptly access contracted slots that have been vacated measured by the number of vacancies reported to DSS and OCCS within 5 days of having occurred | Actual | 12 |
| 1.1 | Children promptly access contracted slots that have been vacated measured by the number of vacancies reported to DSS and OCCS within 5 days of having occurred | Actual | 12 |
| 1.1 | Children promptly access contracted slots that have been vacated measured by the number of vacancies reported to DSS and OCCS within 5 days of having occurred | Actual | 12 |
| 1.10 | Parents are satisfied with the services provided to them and their children measured by the number of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received. | Actual | 0 |
| 1.10 | Parents are satisfied with the services provided to them and their children measured by the number of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received. | Actual | 0 |
| 1.10 | Parents are satisfied with the services provided to them and their children measured by the number of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received. | Actual | 0 |
| 1.11 | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received | Actual | 0 |
| 1.11 | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received | Actual | 0 |
| 1.11 | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received | Actual | 0 |
| 1.2 | Children promptly access contracted slots that have been vacated measured by the percentage of vacancies reported to DSS and OCCS within 5 days of having occurred | Actual | 0.48 |
| 1.2 | Children promptly access contracted slots that have been vacated measured by the percentage of vacancies reported to DSS and OCCS within 5 days of having occurred | Actual | 0.48 |
| 1.2 | Children promptly access contracted slots that have been vacated measured by the percentage of vacancies reported to DSS and OCCS within 5 days of having occurred | Actual | 0.48 |
| 1.3 | Average number of days that reported vacancies remain vacant before being filled | Actual | 5 |

| | | | |
|---|---|---|---|
| 1.3 | Average number of days that reported vacancies remain vacant before being filled | Actual | 5 |
| 1.3 | Average number of days that reported vacancies remain vacant before being filled | Actual | 5 |
| 1.4 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of individual child plans prepared by the provider with input from the DSS social worker given to parents at a meeting or through | Actual | 9 |
| 1.4 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of individual child plans prepared by the provider with input from the DSS social worker given to parents at a meeting or through | Actual | 9 |
| 1.4 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of individual child plans prepared by the provider with input from the DSS social worker given to parents at a meeting or through | Actual | 9 |
| 1.5 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of individual child plans prepared by the provider with input from the DSS social worker) given to parents at a meeting or | Actual | 0.75 |
| 1.5 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of individual child plans prepared by the provider with input from the DSS social worker) given to parents at a meeting or | Actual | 0.75 |
| 1.5 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of individual child plans prepared by the provider with input from the DSS social worker) given to parents at a meeting or | Actual | 0.75 |
| 1.6 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 6 |
| 1.6 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 6 |
| 1.6 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 6 |
| 1.7 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 0.58 |

| | | | |
|---|---|---|---|
| 1.7 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 0.58 |
| 1.7 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 0.58 |
| 1.8 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 0 |
| 1.8 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 0 |
| 1.8 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 0 |
| 1.9 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 0 |
| 1.9 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 0 |
| 1.9 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 0 |

**Contractor Comments:** 1.10, 1.11 Questionaire returned to state, not a daycare program.

1.8 No quarterly meetings arranged between OCCS/DSS/Provider, that provider has been asked to attend.

1.9 Changes in workers often prevent report distribution.

## *RESGb* Group Home Teen Pregnancy Program

Contract Number 09950218123

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Teens complete high school or a high school equivalency program (GED) measured by % (total # of teens getting diplomas or GEDs ( total # of teen residents served in non-emergency beds | > 10% | 0.5 |
| 1.2 | Teens experience increased parenting skills and nurturing with their children leading to a minimization in the number of supported reports of child abuse and neglect measured by % (total # of teen residents served (in non-emergency beds) who had 51A repo | < 5% | 0.01 |
| 1.3 | Teens experience a reduction in repeat pregnancies measured by % (total # of teens who become pregnant while in residence ( total # of teens served in the TLP program (in non-emergency beds) | < 5% | 0 |
| 2.1 | # of teen residents served (in non-emergency beds) measured by total annual unduplicated count | actual | 12 |
| 2.2 | # of babies served (in non-emergency beds) measured by total annual unduplicated count | actual | 13 |
| 2.3 | # of teens served in emergency beds (if emergency beds are specified in the contract) measured by the total annual unduplicated number of teens | actual | 1 |
| 2.4 | % of terminated residents measured by the total # of terminated residents ( total # of residents served (in non-emergency beds) | < 25% | 0.2 |
| 2.5 | % of graduated teens measured by total # of graduated teens ( total # of residents served (in non-emergency beds) | > 10% | 0.5 |
| 2.6 | # of hours of staff training measured by total annual hours of staff training offered during the year | > 30% | 0.45 |
| 2.7 | % of teens contacted, telephone or face-to-face, for follow-up services measured by the total # of terminated and graduated teens contacted for follow-up ( total # of terminated and graduated residents (from non-emergency beds) | > 50% | 0.75 |
| 3.1 | DSS total program costs measured by the total amount billed to DSS | actual | 145490 |
| 3.2 | DSS cost per slot measured by the total amount billed to DSS ( the number of slots in the program | actual | 29098 |
| 3.3 | Total program cost measured by the total annual cost from all sources of revenue | actual | 174369 |
| 3.4 | Total cost per slot measured by the total annual program cost from all sources of revenue ( the number of slots | actual | 34874 |
| 3.5 | TLP maximizes DSS purchase measured by total amount billed to DSS for the TLP program ( total annual program cost | < 1.00 | 1 |

**Contractor Comments:** 1.3 There were no repeat pregnancies

# Old Colony Elderly Services, Inc. (042545236)

## 8006 Home Care Purchase-of-Service

Contract Number 03642206021

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder Consumers requiring assistance with Activities of Daily Living are able to remain in the community measured by the percentage that remain in the community (total number of HC clients receiving purchased services {every client except CM only} during FY 02 minus the total numbe of closed clients who received said services divided by total number of HC clients receiving purchased services during FY02 | actual | 0.958 |
| 1.2 | Caregivers and family members are supported and encouraged to continue their involvement caring for the needs of elderly consumers measured by the percentage of caregivers responding favorably on Client Satisfaction Survey regarding Respite Care | actual | 0.955 |
| 2.1 | Annual monthly average number of intakes completed for the Home Care program measured by the total number of Home Care intakes conducted during FY 02 divided by 12 months | 296 | 296 |
| 2.2 | Annual monthly average number of Home Care clients served measured by the total number of Home Care clients served in FY 02 divided by 12 (months) | actual | 1357 |
| 2.3 | Unmet ADL/IADL needs for new clients are reduced subsequent to receiving Home Care services measured by percentage annual average number of unmet needs for new clients at the time of initial assessment divided by tannual average number of unmet needs for the same number of clients after reassessment. | 90% | 0.9 |
| 2.4 | Monthly average number of CICLE linkages achieved measured by the total number of actual CICLE linkages for FY 02 divided by 12 (months) | actual | 23 |
| 2.5 | Monthly average number of clients enrolled in the 2176 Waiver Program measured by the total number of 2176 MA Waiver clients served in FY 02 divided by 12 (months) | actual | 205 |
| 2.6 | Annual number of nursing home elders discharged through ASAP intervention measured by the total number of FY02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1.13 |
| 3.1 | Percentage of eligible cost sharing co-payments from eligible clients | 90% | 1 |

| | | | |
|---|---|---|---|
| 4.1 | Consumers are satisfied with Home Care Purchased Services measured by % (total # of HC Program consumers responding to client satisfaction survey(s) who rated their services as positive/affirmative or satisfactory divided by total # of HC Program consumers responding to the client satisfaction survey) | 90% | 0.96 |
| 4.2 | % of peer reviewed records receiving an "agreement" rating measured by annual total # of agency-specific HC Program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by annual total number of all agency-specific HC Program intakes reviewed during FY 02 Peer Review sessions | 90% | 1 |

**Contractor Comments:**

## *8009* Elder at Risk

Contract Number 03642233231

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers who become Elder At Risk clients (open cases) are evaluated in a timely manner (at least monthly) consistent with standards measured by percentage (total # of open cases that received all required montly visits divided by total # of cases | Actual | 0.87 |
| 2.1 | % of EAR intakes designated as "routine" that receiv a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 1 |
| 2.2 | % of cases screened as "routine" in which the assessment was initiated, face to face contact, within 5 days of receipt of the reprot (# of intakes screened as routine where face to face contact was initiated within 5 days of receipt of the reprot divided | Actual | 1 |
| 2.3 | % of assessments completed within 30 days of receipt of reprot (# of assessments completed within 30 days of receipt of reprot divided by total # of assessments completed) | Actual | 0.66 |
| 2.4 | EAR staff provide a minimum of 15 trainings annually to community persons and organizations measured by actual number | 15/yr | 12 |

**Contractor Comments:** The remainder of trainings were waived due to budget constraints.

## *8014* Home Care Case Management

Contract Number 03642206021

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers requiring assistance with Activities of Daily Living (ADLs) have information, opportunities, choices and assistance in accessing services to assist them in remaining in the community measured by percentage (total number of HC clients receiving case management services during FY 02 minus the total of all closed HC cases divided by total number of HC clients receiving CM services during the FY) | actual | 0.999 |
| 1.2 | Caregivers and family members are supported and encouraged to continue their involvement in caring for the needs of elder consumers measured by percentage of caregivers responding favorably on Client Satisfaction Survey(s) regarding Respite Care services | actual | 0.955 |
| 2.1 | Monthly average number of intakes completed for the Home Care Program measured by total number of Home Care intakes conducted during FY 02 divided by 12 months | actual | 296 |
| 2.2 | Monthly average number of clients receiving case management services measured by total number of Home Care clients receiving both case management and purchased services during FY 02 divided by 12 months | actual | 1357 |
| 2.3 | Number of unmet ADL/ADL needs for new clients is reduced subsequent to receiving case management services measured by percentage (annual average number of unmet needs for new clients at the time of initial assessment divided by annual average number of unmet needs for the same number of clients after reassessment | 90 % | 0.9 |
| 2.4 | Monthly average number of clients served by the Home Care Program, i.e. provided case management services measured by total number of Home Care clients receiving case management services during FY 02 divided by 12 months | actual | 1658 |
| 2.5 | Monthly average number of CICLE linkages achieved measured by the total number of actual CICLE linkages for FY 02 divided by 12 months | actual | 23 |
| 2.6 | Monthly minimum number of clients enrolled in the 2176 Waiver Program measured by total number of 2176 MA Waiver clients served in FY 02 divided by 12 months. Average not to be lower that contract specific goal. | 205 | 205 |
| 2.7 | Annual number of nursing home elders discharged through ASAP intervention measured by percentage (total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1.13 |
| 3.1 | Percentage of collection of eligible cost-sharing co-payments from eligible clients | 90% | 1 |

| | | | |
|---|---|---|---|
| 4.1 | Consumers are satisfied with Case Management Services measured by percentage (total number of HC program consumers responding to a clients satisfaction survey(s) who rated their overall satisfaction with case management services as positive/affirmative or satisfactory divided by total number of HC program consumers responding to the client satisfaction survey(s) | 90% | 0.955 |
| 4.2 | Percentage of peer reviewed records receiving an "agreement" rating measured by annual total number of agency-specific HC Program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by total number of all agency-specific HC Program intakes reviewed during FY 02 Peer Review sessions | 90% | 1 |

**Contractor Comments:**

## *8017* Congregate Housing

Contract Number 03642517021

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Occupancy level measured by percentage (numerator: add together the number of occupied congregate units @ the end of each month. Divide by 12 months. denominator: total number of all congregate units, occupied and vacant) | 90% | 0.56 |
| 2.2 | Conduct a minimum of eight community presentations per year measured by the actual number of community presentations conducted by ASAP personnel during this FY | 8 | 11 |
| 4.1 | Achieve a “Satisfactory” rating or above on resident satisfaction surveys measured by percentage(numerator: # of Congregate tenants responding to a client satisfaction survey who rated their services as positive, affirmative or satisfactory. denominator: | 90% | 1 |

**Contractor Comments:**

## *8025* Coordination of Care

Contract Number 03642225021

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Maximize the annual number of diversions of elders seeking nursing home placements back to the community measured by total annual number of Medicaid pre-admission and Medicaid post-approval diversions | 5 | 5 |

| | | | |
|---|---|---|---|
| 1.2 | Maximize the annual number of nursing facility residents discharged to a community setting measured by total annual number of Nursing Home discharges (i.e. assist with placement of Medicaid nursing facility residents into community settings) | 81 | 81 |
| 2.1 | Monthly average number of CoC clients screened measured by number tracked and reported by HOMIS | Actual | 262 |
| 2.10 | Annual number of nursing home elders discharged through ASAP intervention measured by the total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to ASAP | Actual | 1.07 |
| 2.2 | Monthly average number of CoC clients determined eligible for Adult Day Health (ADH) measured by the total number of CoC clients determined eligible for ADH during FY 02 divided by 12 (months) | Actual | 10 |
| 2.3 | Monthly average number of CoC clients determined eligible for Adult Foster Care (AFC) measured by the total number of CoC clients determined eligible for AFC during FY 02 divided by 12 (months) | Actual | 0 |
| 2.4 | Monthly average number of CoC clients determined eligible for Group Adult Foster Care (GAFC) measured by the total number of CoC clients determined eligible for GAFC during FY 02 divided by 12 (months) | Actual | 0 |
| 2.5 | Monthly average number of CoC clients determined eligible for Pre Pace measured by the total number of CoC clients determined eligible for Pre Pace during FY 02 divided by 12 (months) | Actual | 0 |
| 2.6 | Monthly average number of CoC clients determined eligible for 2176 Home and Community Based Waiver measured by the total number of CoC clients determined eligible for 2176 Home and Community Based Waiver during FY 02 divided by 12 (months) | Actual | 25 |
| 2.7 | Monthly average number of CoC clients determined eligible for Personal Emergency Response Services (PERS) measured by the total number of CoC clients determined eligible for PERS during FY 02 divided by 12 (months) | Actual | 46 |
| 2.8 | Monthly average number of CoC clients determined eligible for Home Health (HH) services measured by the total number of CoC clients determined eligible for HH services during FY 02 divided by 12 (months) | Actual | 12 |
| 2.9 | Monthly average number of Home Health Initiative alternative service plans measured by the total number of Home Health Initiative alternative plans implemented for FY 02 divided by 12 (months) | Actual | 7 |
| 4.1 | Percentage of peer review records receiving an agreement rating measured by the annual total number of agency-specific CoC client records receiving an agreement rating during FY02 Peer Review sessions divided by annual total number of all agency-specific | 90% | 1 |

**Contractor Comments:**

## *8042* Protective Services Care Management

Contract Number 03642206021

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers who become Protective Services clients (open cases) are evaluated in a timely manner (at least monthly) consistent with standards measured by percentage (total # of open cases that received all required monthly visits divided by total # ) | Actual | 0.88 |
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 1 |
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 1 |
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 0.96 |
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 0.96 |
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 1 |
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 1 |
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 0.96 |

| | | | |
|---|---|---|---|
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 0.96 |
| 2.3 | % of investigations completed within 30 days of receipt of the report (# of investigations completed within 30 days of receipt of the report divided by total # of investigations completed during the fiscal year) | Actual | 0.68 |
| 2.4 | Protective Services staff provide a minimum of 15 trainings annually to community persons and organizations | 15/yr | 12 |

**Contractor Comments:** The remainder of trainings were waived due to budget constraints.

## *8043* Managed Care/Housing

Contract Number 03642206021

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers requiring assistance with ADLs are able to remain in the community measured by the total number of MCIH clients served during FY 02 minus the total number of closed MCIH Program clients for said FY divided by total number of MCIH clients | Actual | 0.947 |
| 2.1 | Monthly average number of intakes completed for the MCIH Program measured by total number of MCIH intakes conducted during FY 02 divided by 12 months | Actual | 296 |
| 2.2 | Monthly average number of clients enrolled in the MCIH program measured by the total number of MCIH program clients served during FY 02 divided by 12 months | Actual | 55 |
| 2.3 | Number of unmet ADL/IADL needs for new clients is reduced subsequent to receiving MCIH services as tracked and reported by HOMIS | 90% | 0.9 |
| 2.4 | Annual number of nursing home elders discharged through ASAP intervention measured by total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1.13 |
| 4.1 | Clients are satisfied with MCIH services measured by percentage (total number of MCIH program consumers responding to a client satisfaction survey who rated their overall satisfaction with MCIH services as positive, affirmative or satisfactory for FY02 | 90% | 0.955 |
| 4.2 | Percentage of peer reviewed records receiving an "agreement" rating measured by annual total # of agency-specific MCIH program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by total number of all agency specific MCIH I | 90% | 1 |

**Contractor Comments:**

## *8044* ECOP (Enhanced Community Options)

Contract Number 03642ECO021

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers at risk of nursing home placement and requiring assistance with ADLs are able to remain in the community measured by % (total # of ECOP clients served during FY 02 minus the total # of closed ECOP clients during said FY divided by total # | Actual | 0.964 |
| 2.1 | Monthly average number of intakes completed for the ECOP program measured by total number of ECOP Program intakes conducted during FY 02 divided by 12 months | Actual | 296 |
| 2.2 | Monthly average number of client served in the ECOP Program measured by the total number of ECOP Program clients served during FY 02 divided by 12 months | Actual | 82 |
| 2.3 | Number of unmet ADL/IADL needs for new clients is reduced subsequent to receiving ECOP services as tracked and reported to HOMIS | Actual | 0.9 |
| 2.4 | Annual number of nursing home elders discharged through ASAP intervention measured by total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1.13 |
| 4.1 | Clients are satisfied with ECOP services measured by percentage (total number of ECOP program consumers responding to a client satisfaction survey (s) who rate their overall satisfaction with ECOP services as positive, affirmative or satisfactory divided | 90% | 0.955 |
| 4.2 | Percentage of Peer Reviewed records receiving an agreement rating measured by annual total number of agency-specific ECOP Program intakes receiving an agreement rating during FY 02 Peer Review sessions divided by annual total number of all agency-specifi | 90% | 1 |

**Contractor Comments:**

# *Residential Care Consortium, Inc. (222519375)*

## *2901a* Family Shelters

Contract Number SCWEL509220040FS

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 0 | 0 |
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 0 | 0 |
| 2.2 | Provide up to three meals (3) per day per family measured by the actual number of meals served | Actual | 11617 |
| 2.2 | Provide up to three meals (3) per day per family measured by the actual number of meals served | Actual | 11617 |
| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.98 |
| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.98 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 1 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 1 |

**Contractor Comments:** Measure 2.1 is no longer the responsibility of the family shelter programs. Effective January 1, 2001 DTA now contracts with the HAP program for housing search services. The family shelter program povides on-site support for housing search activities as well as office space for the HAP worker.

## *BWCSa* Battered Women & Children: Comprehensive Program

Contract Number 2

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of emergency shelter/safe home beds occupied--# in bed days(bed days=actual # of beds occupied each day of the month totaled) measured by total number of bed days for the month | Actual | 4847 |
| 1.10 | Percentage of families receiving support services measured by the number of families receiving support services divided by the number of families in shelter/safe home | 100% | 1 |

| | | | |
|---|---|---|---|
| 1.11 | Number of children receiving children's services measured by the actual number of children receiving children's services | Actual | 58 |
| 1.12 | Percentage of children receiving children's services measured by the number of children receiving children's services divided by number of children in shelter/safe home | 100% | 1 |
| 1.13 | Number of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by actual number of families reporting that they were helped during their stay in the shelter/safe home | Actual | 43 |
| 1.14 | Percentage of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by the number of families reporting they were helped divided by number of families exiting shelter/safe home. | Actual | 0.74 |
| 1.15 | Number of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the actual number of families contacted | Actual | 26 |
| 1.16 | Percentage of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the # of families contacted in a given month (who left the shelter 3 months prior to the contact) divided by # of families who left the shelter/ | Actual | 0.45 |
| 1.17 | Number of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the actual # of families contacted | Actual | 37 |
| 1.18 | Percentage of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the # of families contacted in a given month (6 months prior) divided by # of families who left the shelter/safe home during the entire month 6 | Actual | 0.64 |
| 1.19 | Number of families receiving community (non-residential) services measured by the actual # of families receiving community services | Actual | 0 |
| 1.2 | Percentage of emergency shelter/safe home beds occupied measured by number of bed day divided by capacity for month (capacity = actual number of beds multiply by number of days in the month) | 100% | 0.67 |
| 1.20 | Percentage of families receiving community (non-residential) services measured by the # of families receiving community services divided by # of families served in both shelter and outside community | Actual | 0 |
| 1.21 | Number of trainings conducted muesured by the actual number of trainings conducted | Actual | 0 |
| 1.22 | Percentage of trainings actually conducted in relation to number of trainings requested by community measured by the number of trainings requested divided by number of trainings actually conducted | Actual | 0 |

| | | | |
|---|---|---|---|
| 1.23 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 2 |
| 1.24 | Percentage of staff who speak multiple languages measured by the number of staff who speak multiple languages divided by total number of staff | Actual | 0.25 |
| 1.3 | Number of families requesting shelter/sae home who are turned away due to lack of space measured by actual number of families turned away | Actual | 190 |
| 1.4 | Percentage of families requesting shelter/safe home who are turned away due to lack of space measured by the number of families turned away due to lack of space divided by number of families requesting shelter/safe home | Actual | 0.32 |
| 1.5 | Number of families receiving safety plans measured by actual number of families receiving safety plans | Actual | 67 |
| 1.6 | Percentage of families receiving safety plans measured by number of families receiving safety plans divided by the number of families in shelter/safe home | 100% | 1 |
| 1.7 | Number of families receiving advocacy services measured by actual number of families receiving advocacy services | Actual | 67 |
| 1.8 | Percentage of families receiving advocacy services measured by the number of families receiving advocacy services divided by number of families in shelter/safe home | 100% | 1 |
| 1.9 | Number of families receiving support services measured by actual number of families receiving support services | Actual | 67 |

**Contractor Comments:** Although there were only 67 family/single women in shelter during FY 02, each of them received advocacy case management and safety planning every month. Thus, the monthly statistic totals already submitted to DSS will reflect some month-to-month duplication. The ABOVE statistics are unduplicated numbers.

# *Residential Support Services, Inc. (043490827)*

## *3059* Community Rehabilitation Support

Contract Number 63202006089

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients remain in the community measured by percentage (total number of clients, unduplicated count, who are not hospitalized divided by total number of clients, unduplicated count, with serious mental illness serv | 85% | 0.85 |
| 1.2 | Clients are discharged from the program in accordance with discharge plans measured by percentage (total number of planned discharges divided by total number of discharges | 90% | 0 |
| 1.3 | Clients are satisfied with program services measured by percentage (number of clients who report overall satisfaction with the program divided by total number of clients who participated in the satisfaction survey | 100% | 1 |
| 2.1 | Program enrollment measured by unduplicated count of individuals who received community rehabilitative support services | 100% | 1 |
| 2.2a | Service utilization measured by total number of "Case Coordination" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 30000 | 30000 |
| 2.2b | Service utilization measured by total number of "General Support and Rehab" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 6000 | 6000 |
| 2.2c | Service utilization measured by total number of "Assistance with Medication" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 5000 | 5000 |
| 2.2d | Service utilization measured by total number of "Engaging Clients who are Resistant to Treatment" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 7000 | 7000 |

**Contractor Comments:** Question 1.2 actual performance is not applicable to this program.

# Resources for Human Development (231727133)

**Contractor Comments:** RESPOND experienced a number of staffing changes this fiscal year including the Executive Director position.

We also implemented a system to have the follow-up form completed when program participants exit. This has increased our ability to get in touch with women, however, women do not always fill out the forms. Our ability to follow up longer term is also impacted by individuals moving on from the contact information given to us.

## 2500 Secure Treatment

Contract Number 91512199605

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Juveniles are provided a safe and secure environment as measured by the percentage of escapes (total number of youths who escape while in the program divided by the total number of youths admitted to the program) | 0% | 0 |
| 1.2 | Juveniles complete the program as measured by the percentage of participants who complete the program | 100% | 0.52 |

**Contractor Comments:** Of the 122 clients served during FY'02 39 (or 32%)were discharged early as a result of either completing their treatment early or being moved in order free up a bed for a more needy client. In addition, 20 clients (or 16%) were extended beyond their initial time assignments as a result of either not completing their treatment goals or being a threat to public safety

Contract Number 92532199605

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Juveniles are provided a safe and secure environment as measured by the percentage of escapes (total number of youths who escape while in the program divided by the total number of youths admitted to the program) | 0% | 0 |
| 1.2 | Juveniles complete the program as measured by the percentage of participants who complete the program | 100% | 0.31 |

**Contractor Comments:** Of the 26 clients admitted during FY'02, 14 (or 54%) are still in residence. 4 clients (or 15%) received extensions to their original time assignments as a result of not having completed their treatment goals or being a continued threat to public safety. All extensions of time assignments are done in concert with DYS

Contract Number 92952199605

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Juveniles are provided a safe and secure environment as measured by the percentage of escapes (total number of youths who escape while in the program divided by the total number of youths admitted to the program) | 0% | 0 |

| | | | |
|---|---|---|---|
| 1.2 | Juveniles complete the program as measured by the percentage of participants who complete the program | 100% | 0.66 |

**Contractor Comments:** Of the 19 client admitted to the program in FY'02 10 are still in residence. Of the 9 who were discharged, 6 left in accordance with the original time asssignment contained in their treatment plan. 3 clients (or 33%) were extended as a result of not having met their treatment goals or were awaiting aftercare placments

## *2514* Community Supervision

Contract Number 92202063005

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients in the community are enrolled in school or employed measured by percentage (number of clients in school or work divided by number of clients served) | 80% | 0.74 |
| 1.1 | Clients in the community are enrolled in school or employed measured by percentage (number of clients in school or work divided by number of clients served) | 80% | 0.74 |
| 1.2 | Community residents are receiving groups(anger management, skillstreaming, substance abuse), Counseling (family, outreach) or Community Services measured by percentage (number of residents receiving these services divided by number of residents served) | 50% | 0.76 |
| 1.2 | Community residents are receiving groups(anger management, skillstreaming, substance abuse), Counseling (family, outreach) or Community Services measured by percentage (number of residents receiving these services divided by number of residents served) | 50% | 0.76 |

**Contractor Comments:**

Contract Number 92302063005

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients in the community are enrolled in school or employed measured by percentage (number of clients in school or work divided by number of clients served) | 80% | 0.6 |
| 1.1 | Clients in the community are enrolled in school or employed measured by percentage (number of clients in school or work divided by number of clients served) | 80% | 0.6 |
| 1.2 | Community residents are receiving groups(anger management, skillstreaming, substance abuse), Counseling (family, outreach) or Community Services measured by percentage (number of residents receiving these services divided by number of residents served) | 50% | 0.79 |

| | | | |
|---|---|---|---|
| 1.2 | Community residents are receiving groups(anger management, skillstreaming, substance abuse), Counseling (family, outreach) or Community Services measured by percentage (number of residents receiving these services divided by number of residents served) | 50% | 0.79 |

**Contractor Comments:** Goal one was not met since we have historically,
had a great deal of difficulty having DYS clients who have been reintegrated into the community after residential placements being readmitted into the Lowell Public Schools. DYS is aware of this situation.

# Roca, Inc. (223223641)

## 3343 HIV/AIDS Prevention & Education

Contract Number 49352802051

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Unduplicated # of clients belonging to the priority population (s) who receive an education session or discuss HIV risk with an outreach worker or health educator | actual | 1247 |
| 2.2 | # of skills trainings or other education sessions provided to clients belonging to the priority population (s) | actual | 250 |
| 2.3 | # of educational materials and/or risk reduction devices distributed to clients belonging to the priority population (s) | actual | 76431 |

**Contractor Comments:** Measure Number 2.3 was proposed incorrectly as 125,000 educational materials and/or risk reduction devices distributed to clients belonging to the priority population for FY02. This is a typographical error, and should have read 55,000. Roca, Inc. proposed 23,500 in FY00, 55,000 in FY01 and is proposing 55,000 in FY03. We have exceeded our goal of 55,000 educational materials and/or risk reduction devices distributed in FY02 by more than 20,000.

## 3414 Youth Programs

Contract Number 23212802033

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Percentage of youth engaged in community prevention programs (annual unduplicated count) | Actual | 100 |
| 2.2 | Percentage of youth referred to treatment services (annual unduplicated count) | Actual | 50 |
| 2.3 | Number of youths receiving risk reduction materials (annual unduplicated count) | actual | 400 |

**Contractor Comments:**

## 3438 Teen Challenge Fund

Contract Number 32142802016

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | # of grassroots, neighborhood based agencies, clubs and associations involved in the coalition | 120 | 138 |

| | | | |
|---|---|---|---|
| 2.2 | In the comprehensive action plan, % of community education events that address links between alcohol, tobacco, substance, sexual abuse, violence and teen pregnancy | Actual | 100 |
| 2.3 | In the comprehensive action plan , % of community media activities | Actual | 100 |
| 2.4 | In the comprehensive action plan, % of fact sheets distributed regarding teen pregnancy prevention effectiveness | Actual | 100 |
| 2.5 | In the comprehensive action plan, % of programs which have a parent education component involved | Actual | 71 |

**Contractor Comments:** All events have links to others prevention topics. This is part of the Coalition Model.

## *3454* FIRST Steps

Contract Number 85032807026

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Enrolled infants/children are appropriately immunized measured by the number of enrolled infants and children with complete immunizations at 2 years of age (unduplicated count) | Actual | 0 |
| 1.1 | Enrolled infants/children are appropriately immunized measured by the number of enrolled infants and children with complete immunizations at 2 years of age (unduplicated count) | Actual | 0 |
| 1.1 | Enrolled infants/children are appropriately immunized measured by the number of enrolled infants and children with complete immunizations at 2 years of age (unduplicated count) | Actual | 0 |
| 1.2 | Child abuse and neglect of enrolled infants/children are reduced measured by the number of supported allegations of child abuse and neglect. | Actual | 0 |
| 1.2 | Child abuse and neglect of enrolled infants/children are reduced measured by the number of supported allegations of child abuse and neglect. | Actual | 0 |
| 1.2 | Child abuse and neglect of enrolled infants/children are reduced measured by the number of supported allegations of child abuse and neglect. | Actual | 0 |
| 2.1 | Number of infants/children screened for developmental delay at specified screening times (unduplicated count) | Actual | 0 |
| 2.1 | Number of infants/children screened for developmental delay at specified screening times (unduplicated count) | Actual | 0 |
| 2.1 | Number of infants/children screened for developmental delay at specified screening times (unduplicated count) | Actual | 0 |

| | | | |
|---|---|---|---|
| 2.2 | Percentage of FIRSTSteps guidelines met in Year 2 | 75% | 0 |
| 2.2 | Percentage of FIRSTSteps guidelines met in Year 2 | 75% | 0 |
| 2.2 | Percentage of FIRSTSteps guidelines met in Year 2 | 75% | 0 |

**Contractor Comments:** Information is not available from the Children's Trust Fund at this time.

# Roxbury Comprehensive Community Health Center (042501921)

## 3340 Combined Primary Care

Contract Number SCDPH33102802012

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | PERINATAL: Women receive adequate (defined as meeting Kessner Index standards) prenatal care measured by percentage (number of women with single live births receiving adequate prenatal care divided by the total number of women with single live births re | 85% | 0.73 |
| 1.1 | PERINATAL: Women receive adequate (defined as meeting Kessner Index standards) prenatal care measured by percentage (number of women with single live births receiving adequate prenatal care divided by the total number of women with single live births re | 85% | 0.73 |
| 1.2 | PEDIATRIC: Registered pediatric patients receive screening, diagnosis and treatment services in accordance with AAP or EPSDT periodicity schedules measured by percentage (number of registered pediatric patients (ages 0-18 who receive well chi | 85% | 0.8 |
| 1.2 | PEDIATRIC: Registered pediatric patients receive screening, diagnosis and treatment services in accordance with AAP or EPSDT periodicity schedules measured by percentage (number of registered pediatric patients (ages 0-18 who receive well chi | 85% | 0.8 |
| 1.3 | Children (if pediatric care is provided through the contract) are appropriately immunized by age two measured by percentage (unduplicated # of children appropriately immunized by age 2 ( unduplicated # of 2 year olds in primary care) | actual | 0.92 |
| 1.3 | Children (if pediatric care is provided through the contract) are appropriately immunized by age two measured by percentage (unduplicated # of children appropriately immunized by age 2 ( unduplicated # of 2 year olds in primary care) | actual | 0.92 |
| 1.4 | ADOLESCENT: Registered adolescent patients (ages 11-18) receive screening, diagnosis and treatment services in accordance with GAPS or EPSDT periodicity schedules measured by percentage (registered adolescent patients, ages 11-18, who receive well child | 70% | 0.76 |
| 1.4 | ADOLESCENT: Registered adolescent patients (ages 11-18) receive screening, diagnosis and treatment services in accordance with GAPS or EPSDT periodicity schedules measured by percentage (registered adolescent patients, ages 11-18, who receive well child | 70% | 0.76 |

| | | | |
|---|---|---|---|
| 1.5 | Eligible pregnant women are enrolled in WIC (if prenatal care is provided through the contract) measured by percentage (unduplicated # of pregnant women enrolled in WIC within 30 days of entry into prenatal care ( unduplicated # of women who enter prenat | actual | 0.94 |
| 1.5 | Eligible pregnant women are enrolled in WIC (if prenatal care is provided through the contract) measured by percentage (unduplicated # of pregnant women enrolled in WIC within 30 days of entry into prenatal care ( unduplicated # of women who enter prenat | actual | 0.94 |
| 2.1 | Eligible pregnant women are enrolled in WIC measured by percentage (number of eligible pregnant women enrolled in WIC within 30 days of entry into prenatal care divided by total number of WIC eligible women who enter prenatal care at the site) | 90% | 0.94 |
| 2.1 | Eligible pregnant women are enrolled in WIC measured by percentage (number of eligible pregnant women enrolled in WIC within 30 days of entry into prenatal care divided by total number of WIC eligible women who enter prenatal care at the site) | 90% | 0.94 |

**Contractor Comments:**

## *3343* HIV/AIDS Prevention & Education

Contract Number SCDPH49352802099

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Unduplicated # of clients belonging to the priority population (s) who receive an education session or discuss HIV risk with an outreach worker or health educator | actual | 975 |
| 2.2 | # of skills trainings or other education sessions provided to clients belonging to the priority population (s) | actual | 91 |
| 2.3 | # of educational materials and/or risk reduction devices distributed to clients belonging to the priority population (s) | actual | 8500 |

**Contractor Comments:** Outreach numbers may not be unduplicated. Number of educational materials and condoms is estimated.

## *3381* Chronic Disease Prevention

Contract Number SCDPH41132802002

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | % of contacts with MDPH funded and community based education and outreach programs (as defined in the contract) | 100% | 1 |

| | | | |
|---|---|---|---|
| 2.2 | # of educational activities provided on chronic disease and related risk factors | actual | 35 |

**Contractor Comments:** Contract was terminated January 13, 2002

## *3385* Ambulatory Substance Abuse Treatment Services

Contract Number SCDPH23012802026

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete treatment at discharge (based on MIS discharge form) | Actual | 58.3 |
| 1.2 | Percentage of clients who report no alcohol use at discharge (based on MIS discharge form) | Actual | 37.14 |
| 1.3 | Percentage of clients who report no drug use at discharge (based on MIS discharge form) | actual | 37.14 |
| 1.4 | Percentage of clients who report overall program goals as “achieved” (on MIS discharge form) | Actual | 60 |
| 2.1 | Percentage of non-white clients receiving ambulatory services (based on MIS admission form) | Actual | 94.2 |
| 2.2 | Percentage of clients whose language "most often used" is other than English (based on MIS admission form) | actual | 8.7 |
| 2.3 | Percentage of clients who live in shelters/missions or on the street (based on MIS admission form) | Actual | 1.3 |
| 2.4 | Percentage of clients with prior mental health treatment (based on MIS admission form) | Actual | 20.3 |
| 2.5 | Percentage of injection drug users receiving ambulatory services (based on MIS admission form) | actual | 11.6 |
| 2.6 | Percentage of clients who receive compulsive gambling treatment (based on annual report) | Actual | 0 |

**Contractor Comments:**

## *3397* Narcotic Treatment Services

Contract Number SCDPH23192802005

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Programs submit 100% of all client data of all clients eligible to participate in MTQAS | 100% | 1 |

**Contractor Comments:**

## *3414* Youth Programs

Contract Number SCDPH23212802015

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Percentage of youth engaged in community prevention programs (annual unduplicated count) | Actual | 1 |
| 2.2 | Percentage of youth referred to treatment services (annual unduplicated count) | Actual | 30 |
| 2.3 | Number of youths receiving risk reduction materials (annual unduplicated count) | actual | 555 |

**Contractor Comments:** One position was laid off mid year due to budget cuts.

## *3430a* HIV/AIDS Client Services

Contract Number SCDPH49252802008

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | People with HIV have improved access to critical health and social services and will be able to live independently, as appropriate, over the course of their illness measured by the number of increased units offered this year as compared to the previous y | Actual | 31 |
| 2.1 | Number of clients receiving services as defined by unduplicated count of clients served during the year | Actual | 31 |
| 3.1 | Cost per client measured by number of clients receiving HIV client services divided by total program cost | 216 | 422 |

**Contractor Comments:** Contract was terminated December 31, 2001

## *3436* Breast Cancer Initiative

Contract Number SCDPH340721G7213

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Attendance at required MDPH meetings and trainings | 100% | 0.5 |

**Contractor Comments:** Contract was terminated on December 31, 2001.

## *3450* Tobacco Control: Targeted Community Smoking Intervention Programs: Innovative Outreach for Risk Taki

Contract Number SCDPH29052143068

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Enhanced knowledge and skill level of participants measured by the average % increase between pre and post tests | Actual | 0 |
| 2.1 | Number of target priority population individuals served through outreach activities (annual unduplicated count) | Actual | 1657 |
| 2.2 | Number of priority population smokers identified and counseled (annual unduplicated count) | Actual | 0 |
| 2.3 | Number of priority population smokers referred to smoking cessation services (annual unduplicated count) | Actual | 0 |
| 2.4 | Number of priority population smokers receiving smoking cessation services (annual unduplicated count) | Actual | 0 |

**Contractor Comments:** 1.1. Pre and post tests were not conducted.
2.2 - 2.4 Program did not provide direct cessation services.

## *3461* Tobacco Control: Targeted Community Smoking Intervention Programs: Tobacco Treatment Services

Contract Number SCDPH29092087999

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of target priority population participating in program activities measured by the total number of brief interventions conducted | N/A | 607 |
| 1.2 | Number of target priority population participating in program activities measured by the total number of referrals to Tobacco Treatment Services | N/A | 400 |
| 1.3 | Number of target priority population participating in program activities measured by the total number of smokers receiving TobaccoTreatment Services | N/A | 489 |
| 1.4 | Number of target priority population participating in program activities measured by the total hours of individual counseling conducted | N/A | 234 |
| 1.5 | Number of target priority population participating in program activities measured by the number of group counseling hours conducted | N/A | 44 |
| 2.1 | Delivery of smoking cessation services to target priority population measured by documentation of service delivery as prescribed by the department (1 = yes, 2 = no) | 1 (yes) | 1 |

**Contractor Comments:** 1.2 is estimated.

Contract Number SCDPH29252087020

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of target priority population participating in program activities measured by the total number of brief interventions conducted | N/A | 26 |
| 1.2 | Number of target priority population participating in program activities measured by the total number of referrals to Tobacco Treatment Services | N/A | 53 |
| 1.3 | Number of target priority population participating in program activities measured by the total number of smokers receiving TobaccoTreatment Services | N/A | 26 |
| 1.4 | Number of target priority population participating in program activities measured by the total hours of individual counseling conducted | N/A | 0 |
| 1.5 | Number of target priority population participating in program activities measured by the number of group counseling hours conducted | N/A | 0 |
| 2.1 | Delivery of smoking cessation services to target priority population measured by documentation of service delivery as prescribed by the department (1 = yes, 2 = no) | 1 (yes) | 1 |

**Contractor Comments:** 1.4-1.5 Program did not provide direct cessation services.

Outreach postition was vacant for 3 months. Contract was terminated 3/1/02.

## *3486* Batterer Intervention

Contract Number SCDPH34092025044

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Batterer intervention services are provided to eligible court referred batterers on a timely basis measured by the number of court referred batterers enrolled in intake group within three weeks of initial contact with the program | Actual | 61 |
| 1.2 | Batterer intervention services are effectively coordinated with criminal justice, law enforcement and victims' services measured by percentage participation in quarterly community roundtable and task force meetings on domestic violen | 75% | 0.88 |
| 2.1 | Increased utilization of batterer intervention services for perpetrators of domestic violence by courts measured by the number of perpetrators receiving services annually | Actual | 99 |

| | | | |
|---|---|---|---|
| 2.2 | Increase the number of referrals to victim's services by certified batterer intervention services measured by the annual number of referrals | Actual | 104 |
| 2.3 | Expansion of current services for victims and perpetrators for whom English is a second language measured by the number of batterer intervention groups offered in languages other than English | Actual | 0 |

**Contractor Comments:**

# *Roxbury Youthworks Inc. (042733854)*

## *2514* Community Supervision

Contract Number 941222063005

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients in the community are enrolled in school or employed measured by percentage (number of clients in school or work divided by number of clients served) | 80% | 0.89 |
| 1.1 | Clients in the community are enrolled in school or employed measured by percentage (number of clients in school or work divided by number of clients served) | 80% | 0.89 |
| 1.2 | Community residents are receiving groups(anger management, skillstreaming, substance abuse), Counseling (family, outreach) or Community Services measured by percentage (number of residents receiving these services divided by number of residents served) | 50% | 0.93 |

Contract Number 09950118591

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of emergency shelter/safe home beds occupied--# in bed days(bed days=actual # of beds occupied each day of the month totaled) measured by total number of bed days for the month | Actual | 2867 |
| 1.10 | Percentage of families receiving support services measured by the number of families receiving support services divided by the number of families in shelter/safe home | 100% | 1 |
| 1.11 | Number of children receiving children's services measured by the actual number of children receiving children's services | Actual | 60 |
| 1.12 | Percentage of children receiving children's services measured by the number of children receiving children's services divided by number of children in shelter/safe home | 100% | 1 |
| 1.13 | Number of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by actual number of families reporting that they were helped during their stay in the shelter/safe home | Actual | 17 |
| 1.14 | Percentage of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by the number of families reporting they were helped divided by number of families exiting shelter/safe home. | Actual | 96 |
| 1.15 | Number of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the actual number of families contacted | Actual | 14 |
| 1.16 | Percentage of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the # of families contacted in a given month (who left the shelter 3 months prior to the contact) divided by # of families who left the shelter/ | Actual | 94 |
| 1.17 | Number of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the actual # of families contacted | Actual | 6 |
| 1.18 | Percentage of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the # of families contacted in a given month (6 months prior) divided by # of families who left the shelter/safe home during the entire month 6 | Actual | 83 |
| 1.19 | Number of families receiving community (non-residential) services measured by the actual # of families receiving community services | Actual | 674 |

| | | | |
|---|---|---|---|
| 1.2 | Percentage of emergency shelter/safe home beds occupied measured by number of bed day divided by capacity for month (capacity = actual number of beds multiply by number of days in the month) | 100% | 0.98 |
| 1.20 | Percentage of families receiving community (non-residential) services measured by the # of families receiving community services divided by # of families served in both shelter and outside community | Actual | 96 |
| 1.21 | Number of trainings conducted muesured by the actual number of trainings conducted | Actual | 52 |
| 1.22 | Percentage of trainings actually conducted in relation to number of trainings requested by community measured by the number of trainings requested divided by number of trainings actually conducted | Actual | 99 |
| 1.23 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 28 |
| 1.24 | Percentage of staff who speak multiple languages measured by the number of staff who speak multiple languages divided by total number of staff | Actual | 30 |
| 1.3 | Number of families requesting shelter/sae home who are turned away due to lack of space measured by actual number of families turned away | Actual | 171 |
| 1.4 | Percentage of families requesting shelter/safe home who are turned away due to lack of space measured by the number of families turned away due to lack of space divided by number of families requesting shelter/safe home | Actual | 65 |
| 1.5 | Number of families receiving safety plans measured by actual number of families receiving safety plans | Actual | 26 |
| 1.6 | Percentage of families receiving safety plans measured by number of families receiving safety plans divided by the number of families in shelter/safe home | 100% | 1 |
| 1.7 | Number of families receiving advocacy services measured by actual number of families receiving advocacy services | Actual | 26 |
| 1.8 | Percentage of families receiving advocacy services measured by the number of families receiving advocacy services divided by number of families in shelter/safe home | 100% | 1 |
| 1.9 | Number of families receiving support services measured by actual number of families receiving support services | Actual | 26 |

| 2.3 | Transition in “next step” services is enhanced through collaboration and communication measured by percentage of children over 2½ with written transition plan developed with family | 75% | 1 |

**Contractor Comments:**

## *3415* EI Autistic

Contract Number DPH37011008999

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Intensive programs are available to all children with ASD in timely manner measured by the percentage of children beginning service in less than thirty days between referral to Intensive Home Visiting Program and initiation of service | 75% | 0.9 |
| 2.2 | Program collaborates with other service providers measured by the percentage of children with documentation of at least one monthly contact with collaborator in child’s record | 85% | 0.95 |

**Contractor Comments:**

## *RESGa* Bridge Home

Contract Number DSS09950219292

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of visitation services provided within twenty-four to forty-eight (24-48) hours as measured by number of visitation services within 24-48 hours ( total number of visitation services. | actual | 0 |
| 1.2 | Percentage of pediatric medical screenings within forty-eight (48) hours measured by number of pediatric screenings scheduled within forty-eight (48) hours ( total number of screenings. | actual | 0 |
| 1.3 | Percentage of cases that utilize community resources measured by number of cases involved with community resources ( by total number of cases. | actual | 1 |
| 1.4 | Percentage of students with more than 5 school absences per year measured by the number of students with more than 5 absences ( total number of students. | actual | 0 |
| 1.5 | Percentage of staffing that reflects ethnic/cultural/linguistic congruence with the client population measured by number of ethnic/cultural/linguistic competent staff ( total number of staff. | actual | 0.33 |
| 2.1 | Percentage of clients whose services were partially or fully paid by Medicaid measured by number of clients whose services were partially or fully paid by Medicaid ( total number of clients served. | actual | 0.5 |

| | | | |
|---|---|---|---|
| 2.2 | Number of hours of training received by each staff. | actual | 30 |

**Contractor Comments:** Measures 1.1, 1.2, and 1.4 do not apply to the particular client group we are serving under this contract.

## *RESS* Alternative Lockup Program

Contract Number DSS10200218245

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | To eliminate all instances of status offenders being detained in police lockups for any length of time measured by total number of violations (from information generated by police dockets and compiled by the Executive Office of Public Safety) | 0 Violations | 0 |
| 1.2 | To eliminate all instances of alleged non-violent offenders being detained in police lockup for longer than six hours measured by total number of youths detained for more than six hours (from information generated by police dockets and compiled by the ) | 0 Youths | 0 |
| 1.3 | All clients receiving alternative placement services are transported to court for arraignment on the next court day measured by percentage (total number of youths receiving ALP services transported to court the next day divided by total number of youth ) | 100% | 0 |
| 2.1 | Number of referrals to ALP services measured by the total annual number of calls received and reported in the Monthly Service Delivery Report | Actual | 0 |
| 2.2 | Percentage of clients mediated home by ALP measured by the total annual number of "non-placement" services reported in the Monthly Service Delivery report divided by total number of clients receiving ALP services | Actual | 0 |
| 2.3 | Number of clients placed in ALP measured by the total annual number reported in the Monthly Service Delivery Report | Actual | 0 |
| 2.4 | Number of clients transported to court measured by the total annual number reported in the Monthly Service Delivery Report | Actual | 0 |
| 2.5 | Number of trainings offered to both police departments and DSS measured by the total annual number or trainings reported to DSS | Actual | 0 |
| 3.1 | Cost per referral measured by the total actual program budget divided by total number of referrals | Actual | 0 |
| 3.2 | Cost per bed night measured by the total actual program budget divided by total number of bed nights | Actual | 251 |
| 3.3 | Cost per ALP day measured by the total actual program budget divided by 365 days | Actual | 0 |

| | | | |
|---|---|---|---|
| 4.1 | Decrease in the overall violations committed by the state and local police measured by the number of violations reported by EOPS report divided by total number of clients served x 100 to obtain a percentage | 0% | 0 |

**Contractor Comments:** Please note that "0's" were entered in many fields because, although the contract was given a MMARS code designated as "Alternative Lock-up" most of the clients served under this contract were actually in the program as an alternative to foster care, so most of the measures do not apply.

# *Serving People In Need, Inc. (043019658)*

## *2901c* Scattered Sites

Contract Number SCWEL409520SC010

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 100% | 0.4 |
| 2.2 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.89 |
| 2.3 | Develop and maintain an Individualized Service Plan for each family | 100% | 1 |

**Contractor Comments:** Decreased occupancy due to losing units to a city rehabilitation project.

## *RESGa* Bridge Home

Contract Number 00000000000000

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of visitation services provided within twenty-four to forty-eight (24-48) hours as measured by number of visitation services within 24-48 hours ( total number of visitation services. | actual | 0 |

**Contractor Comments:**

## *8042* Protective Services Care Management

Contract Number 03642206022

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers who become Protective Services clients (open cases) are evaluated in a timely manner (at least monthly) consistent with standards measured by percentage (total # of open cases that received all required monthly visits divided by total # ) | Actual | 93 |
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 100 |
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 99 |

| | | | |
|---|---|---|---|
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 100 |
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 99 |
| 2.3 | % of investigations completed within 30 days of receipt of the report (# of investigations completed within 30 days of receipt of the report divided by total # of investigations completed during the fiscal year) | Actual | 100 |
| 2.4 | Protective Services staff provide a minimum of 15 trainings annually to community persons and organizations | 15/yr | 15 |

**Contractor Comments:**

## *8043* Managed Care/Housing

Contract Number 03642206022

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers requiring assistance with ADLs are able to remain in the community measured by the total number of MCIH clients served during FY 02 minus the total number of closed MCIH Program clients for said FY divided by total number of MCIH clients | Actual | 87.2 |
| 2.1 | Monthly average number of intakes completed for the MCIH Program measured by total number of MCIH intakes conducted during FY 02 divided by 12 months | Actual | 1.25 |
| 2.2 | Monthly average number of clients enrolled in the MCIH program measured by the total number of MCIH program clients served during FY 02 divided by 12 months | Actual | 38.3 |
| 2.3 | Number of unmet ADL/IADL needs for new clients is reduced subsequent to receiving MCIH services as tracked and reported by HOMIS | 90% | 0.9 |
| 2.4 | Annual number of nursing home elders discharged through ASAP intervention measured by total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1.05 |
| 4.1 | Clients are satisfied with MCIH services measured by percentage (total number of MCIH program consumers responding to a client satisfaction survey who rated their overall satisfaction with MCIH services as positive, affirmative or satisfactory for FY02 | 90% | 0.9 |

| | | | |
|---|---|---|---|
| 4.2 | Percentage of peer reviewed records receiving an "agreement" rating measured by annual total # of agency-specific MCIH program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by total number of all agency specific MCIH I | 90% | 0.9 |

**Contractor Comments:**

## *8044* ECOP (Enhanced Community Options)

Contract Number 03642ECO022

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers at risk of nursing home placement and requiring assistance with ADLs are able to remain in the community measured by % (total # of ECOP clients served during FY 02 minus the total # of closed ECOP clients during said FY divided by total # | Actual | 88.4 |
| 2.1 | Monthly average number of intakes completed for the ECOP program measured by total number of ECOP Program intakes conducted during FY 02 divided by 12 months | Actual | 4 |
| 2.2 | Monthly average number of client served in the ECOP Program measured by the total number of ECOP Program clients served during FY 02 divided by 12 months | Actual | 62.3 |
| 2.3 | Number of unmet ADL/IADL needs for new clients is reduced subsequent to receiving ECOP services as tracked and reported to HOMIS | Actual | 90 |
| 2.4 | Annual number of nursing home elders discharged through ASAP intervention measured by total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1 |
| 4.1 | Clients are satisfied with ECOP services measured by percentage (total number of ECOP program consumers responding to a client satisfaction survey (s) who rate their overall satisfaction with ECOP services as positive, affirmative or satisfactory divided | 90% | 0.96 |
| 4.2 | Percentage of Peer Reviewed records receiving an agreement rating measured by annual total number of agency-specific ECOP Program intakes receiving an agreement rating during FY 02 Peer Review sessions divided by annual total number of all agency-specifi | 90% | 0.9 |

**Contractor Comments:** 2.3 is a percentage, as tracked in SHC.
2.4 Discharges under Medicare Benefits do not have an accurate tracking mechanism. Through the state system we only capture information about Medicaid. Expect that actual number is higher, but no way, except anecdotally, to verify.

# *Somerville Homeless Coalition, Inc (042897447)*

## *2901a* Family Shelters

Contract Number SCWEL509220045FS

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 3 | 1 |
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 3 | 1 |
| 2.2 | Provide up to three meals (3) per day per family measured by the actual number of meals served | 2444 | 2560 |
| 2.2 | Provide up to three meals (3) per day per family measured by the actual number of meals served | 2444 | 2560 |
| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.96 |
| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.96 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 1 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 1 |

**Contractor Comments:** placements of families have been affected with the high cost of apartments for 2 and 3 bedrooms as well as the availabilitiy of such apartments.

# Somerville Mental Health Association, Inc. (042347075)

## 3053 Social Club

Contract Number SCDMH63502006044

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers participate in program activities measured by the monthly average number of hours consumers participated in scheduled program activities | 700 | 783.95 |
| 1.1a | Consumers participate in program activities measured by the monthly average number of hours consumers participated in scheduled program activities | 700 | 783.95 |
| 1.1b | Consumers participate in program activities measured by percentage (the average daily attendance for the last month in the contract year minus average daily attendance for the first month in the contract year divided by average daily attendance for the f | 5% | 0.51 |
| 1.2 | Consumers participate in program activities measured by percentage (the average daily attendance for the last month in the contract year minus average daily attendance for the first month in the contract year ( average daily attendance for the first mont | 5% | 0.51 |
| 2.1 | Program measures consumer satisfaction measured by percentage (number of consumers who report being satisfied with the program ( number of consumers who participate in the survey | 90% | 1 |

**Contractor Comments:** The intention of items 1.1a and 1.2 is to measure growth in program enrollment. In fact, this measures only the seasonality of program participation, with low participation in the summer months, including July, the first month of the contract year. In any event, the program is currently operating at or near full capacity given budgeted staff levels. Hence, we do not agree that a five percent growth in program participation is an appropriate goal.

## 3064 Outpatient Services (ch)

Contract Number SCDMH62102006023

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Youth are able to be sustained in a family setting measured by percentage (number of youth who, on discharge are living in a family setting divided by the total number of youth discharged) | 85% | 0.95 |
| 1.2 | Parents/guardians report increased competence in managing their child's illness and related behaviors measured by percentage (number of families completing satisfactions surveys who report increased competence in managing their child's illness and relate | 85% | 0.89 |

| | | | |
|---|---|---|---|
| 2.1 | Utilization of outpatient services measured by unduplicated number of children who are the identified clients who had been served by the end of the reporting period. (this measure is applicable only if outpatient services (3064) were included in the RFR | 13 | 14 |

**Contractor Comments:**

## *3065* Community and School Support

Contract Number SCDMH62102006023

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Professionals who are recipients of technical assistance or support show increased understanding and ability to deal with children's mental health issues measured by percentage (number of recipients of technical assistance completing 3 month evaluation s | 85% | 0.93 |
| 1.2 | Parent Coordinator and CAP contracts only: Families are better able to cope with their child's mental health needs measured by percentage (number of families completing evaluation surveys who report an improved relationship with their child as a result o | NA | 0 |
| 1.3 | Parent Coordinator and CAP contracts only: Families with children who have mental health problems feel less isolated measured by percentage (number of families completing evaluation surveys who report feeling less isolated as a result of activities of th | NA | 0 |
| 2.1 | Parent Coordinator and CAP contracts only: Family Support Utilization measured by the total number of telephone support contacts. | NA | 0 |
| 2.1a | Parent Coordinator and CAP contracts only: Family Support Utilization measured by the total number of telephone support contacts. | NA | 0 |
| 2.1b | Parent Coordinator and CAP contracts only: Family Support Utilization measured by the total number of individual (unduplicated count) attending support groups | NA | 0 |

| 2.3 | Develop and maintain an Individualized Service Plan for each family | 100% | 1 |

**Contractor Comments:**

## *3015* Client and Community Empowerment

Contract Number 43202004044

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Clients meet their goals measured by percentage (number of clients who meet one or more self-identified objectives divided by the number of clients served) | 0 | 0 |
| 1.1 | Clients meet their goals measured by percentage (number of clients who meet one or more self-identified objectives divided by the number of clients served) | 0 | 0 |
| 1.2 | Program measures client satisfaction by percentage (number of clients who report being satisfied with program divided by number of clients who participate in satisfaction survey) | 0 | 0 |
| 1.2 | Program measures client satisfaction by percentage (number of clients who report being satisfied with program divided by number of clients who participate in satisfaction survey) | 0 | 0 |

**Contractor Comments:** n/a - a draft of performance indicators were recieved from Eileen Weber of DMH in April. They were returned to her with feedback. No finalized indicators have been received as of 6/30/02.

## *3036* Services for Education & Employment (SEE)

Contract Number 43202004043

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers are employed measured by the total # of consumers who secured employment during the contract year (unduplicated) | 105 | 101 |
| 1.2 | Consumers are employed measured by the total # of jobs secured by consumers during the contract year | 135 | 99 |
| 1.3 | Consumers are enrolled in education and/or job training measured by the total # of consumers enrolled in education and/or job training during the contract year (unduplicated) | 40 | 37 |
| 1.4 | Consumers are enrolled in education and/or job training measured by the total # of education and/or job training enrollments during the contract year | 40 | 97 |

**Contractor Comments:**

## *3049* Adult Residential Services

Contract Number 43102004085

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients meet PSTP objectives measured by the number of clients who achieve 75% of their objectives towards their PSTP goals divided by the total number of clients | actual | 96 |

| | | | |
|---|---|---|---|
| 1.2 | Clients experience a reduction in the rate of psychiatric hospitalizations measured by the number of days program clients are hospitalized in psychiatric facilities divided by the total number of clients | 20 | 15 |
| 1.3 | Clients experience a reduction in the rate of hospitalizations in substance abuse facilities measured by the number of days program clinets are hospitalized in substance abuse facilities divided by the total number of clients. | actual | 0 |
| 1.4 | Program measures client satisfaction by the number of clients who reprot satisfaction with the program divided by the number of clients who participated in the satisfaction survey | 80 | 100 |

**Contractor Comments:**

Contract Number 43202004091

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients meet PSTP objectives measured by the number of clients who achieve 75% of their objectives towards their PSTP goals divided by the total number of clients | actual | 44 |
| 1.2 | Clients experience a reduction in the rate of psychiatric hospitalizations measured by the number of days program clients are hospitalized in psychiatric facilities divided by the total number of clients | 20 | 25 |
| 1.3 | Clients experience a reduction in the rate of hospitalizations in substance abuse facilities measured by the number of days program clinets are hospitalized in substance abuse facilities divided by the total number of clients. | actual | 0 |
| 1.4 | Program measures client satisfaction by the number of clients who reprot satisfaction with the program divided by the number of clients who participated in the satisfaction survey | 80 | 95 |

**Contractor Comments:** Our Hudson House Program, which houses a very medically compromised population, showed PSTN success rates

## *3050* Outpatient

Contract Number 43202004044

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients remain in the community measured by percentage (total number of clients, unduplicated count, with serious mental illness as defined in DMH Policy 89-3 who are not hospitalized divided by total number of clients, unduplicated | 87 | 86 |
| 1.2 | Clients are discharged from the program in accordance with discharge plans measured by percentage (total number of planned discharges divided by total number of discharges | 100 | 100 |

| | | | |
|---|---|---|---|
| 1.3 | Clients are satisfied with program services defined by percentage (number of clients who report overall satisfaction with the program divided by total number of clients who participated in the satisfaction survey | 80 | 98 |
| 2.1a | program enrollment measured by an unduplicated count of the number of individuals who receive therapy services | na | 1319 |
| 2.1b | program enrollment measured by an unduplicated count of the number of individuals who receive medication services | na | 747 |
| 2.2a | Service utilization measured by total number of units (as defined in the RFR) of therapy services provided | na | 15997 |
| 2.2b | Service utilization measured by total number of units (as defined in the RFR) of medication services provided | na | 2339 |

**Contractor Comments:**

## *3059* Community Rehabilitation Support

Contract Number 43202004044

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients remain in the community measured by percentage (total number of clients, unduplicated count, who are not hospitalized divided by total number of clients, unduplicated count, with serious mental illness serv | na | 86 |
| 1.2 | Clients are discharged from the program in accordance with discharge plans measured by percentage (total number of planned discharges divided by total number of discharges | na | 83 |
| 1.3 | Clients are satisfied with program services measured by percentage (number of clients who report overall satisfaction with the program divided by total number of clients who participated in the satisfaction survey | na | 96 |
| 2.1 | Program enrollment measured by unduplicated count of individuals who received community rehabilitative support services | na | 141 |
| 2.2a | Service utilization measured by total number of "Case Coordination" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | na | 7973 |

| | | | |
|---|---|---|---|
| 2.2b | Service utilization measured by total number of "General Support and Rehab" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | na | 4616 |
| 2.2c | Service utilization measured by total number of "Assistance with Medication" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | na | 4204 |
| 2.2d | Service utilization measured by total number of "Engaging Clients who are Resistant to Treatment" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | na | 0 |

**Contractor Comments:**

## *3315* 1st Offender Driver Alcohol Education

Contract Number 23242802999

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete the 16 week program | actual | 90.4 |
| 2.1 | In the quarterly report, percentage of referrals to aftercare services, aggregated annually | actual | 20.5 |

**Contractor Comments:**

## *3361* Sexual Assault Prevention and Survivor Services

Contract Number 34012110025

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Survivors receive immediate medical and police advocacy measured by percentage of ED and police sexual assault accompaniment requests by survivors responded to within 2 hours (total # of requests for accompaniment responded to within 2 hours ( total num | 90% | 1 |
| 1.2 | Survivors receive timely sexual assault counseling measured by percentage of survivors in need of short term counseling offered appointments within 5 days of request ( total # of appointments scheduled within 5 days of request ( total # of appointments r | 100% | 1 |
| 2.1 | % of cities and towns (as defined in the contract) within service area for which educational services are provided | 100% | 1 |

| | | | |
|---|---|---|---|
| 2.2 | % of relevant organization types ( as defined in the contract) provided educational presentations | 100% | 0.85 |
| 2.3 | % of hotline calls responded to | 100% | 1 |

**Contractor Comments:** 2.2 Although we met with staff from Llamanos y Hablamos and the Asian Domestic Violence Task Force informally for networking, no formal presentations were done with those organizations.

## *3375* WIC Nutrition

Contract Number 35022101043

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Eligible persons receive WIC nutritional benefits measured by percentage of assigned caseload served by the end of the state fiscal year (unduplicated # of participants certified to WIC ( assigned caseload) | 98% | 0.9 |
| 1.1 | Eligible persons receive WIC nutritional benefits measured by percentage of assigned caseload served by the end of the state fiscal year (unduplicated # of participants certified to WIC ( assigned caseload) | 98% | 0.9 |

**Contractor Comments:**

Contract Number 35022802007

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Eligible persons receive WIC nutritional benefits measured by percentage of assigned caseload served by the end of the state fiscal year (unduplicated # of participants certified to WIC ( assigned caseload) | 98% | 0.959 |
| 1.1 | Eligible persons receive WIC nutritional benefits measured by percentage of assigned caseload served by the end of the state fiscal year (unduplicated # of participants certified to WIC ( assigned caseload) | 98% | 0.959 |

**Contractor Comments:** Our program was short staffed and without a Community Coordinator Outreach person for most of the year.

## *3385* Ambulatory Substance Abuse Treatment Services

Contract Number 23012802017

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete treatment at discharge (based on MIS discharge form) | Actual | 25 |

| | | | |
|---|---|---|---|
| 1.2 | Percentage of clients who report no alcohol use at discharge (based on MIS discharge form) | Actual | 55.7 |
| 1.3 | Percentage of clients who report no drug use at discharge (based on MIS discharge form) | actual | 57.4 |
| 1.4 | Percentage of clients who report overall program goals as “achieved” (on MIS discharge form) | Actual | 46.5 |
| 2.1 | Percentage of non-white clients receiving ambulatory services (based on MIS admission form) | Actual | 20.5 |
| 2.2 | Percentage of clients whose language "most often used" is other than English (based on MIS admission form) | actual | 0 |
| 2.3 | Percentage of clients who live in shelters/missions or on the street (based on MIS admission form) | Actual | 31.07 |
| 2.4 | Percentage of clients with prior mental health treatment (based on MIS admission form) | Actual | 17.3 |
| 2.5 | Percentage of injection drug users receiving ambulatory services (based on MIS admission form) | actual | 13.6 |
| 2.6 | Percentage of clients who receive compulsive gambling treatment (based on annual report) | Actual | 0 |

**Contractor Comments:**

## *3386* Residential Treatment and Rehabilitation

**Contractor Comments:**

## *3392* Supportive Housing

Contract Number 231121G6073

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who report sustained (more than six months) recovery (based on annual report) | Actual | 9 |
| 1.2 | Percentage of clients who are employed while in supportive housing (based on annual report) | Actual | 72 |
| 1.3 | Percentage of clients who receive referrals to other social/health services (based on annual report) | Actual | 100 |
| 2.1 | Percentage of clients who receive a shallow rent subsidy by the program (annual unduplicated count) | Actual | 44 |

**Contractor Comments:** Start-up Program

Contract Number 23112802005

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who report sustained (more than six months) recovery (based on annual report) | Actual | 48 |
| 1.2 | Percentage of clients who are employed while in supportive housing (based on annual report) | Actual | 38 |
| 1.3 | Percentage of clients who receive referrals to other social/health services (based on annual report) | Actual | 100 |
| 2.1 | Percentage of clients who receive a shallow rent subsidy by the program (annual unduplicated count) | Actual | 3 |

**Contractor Comments:**

## *3395b* Acute Treatment Services

Contract Number 23032802003

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete treatment at discharge (based on MIS discharge form) | Actual | 55 |
| 2.1 | Percentage of referrals to aftercare services (in the quarterly report) | Actual | 53 |

**Contractor Comments:**

## 3416 HIV/AIDS Support Housing

Contract Number 49292802006

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Available units/subsidies are utilized in a timely manner measured by the percentage of units/subsidies leased-up within 3 months of availability | 100% | 1 |
| 1.2 | Program maintains high utilization rate measured by the percentage of units/subsidies leased up at all times | 75% | 0.95 |
| 1.3 | Program coordinates residents supportive services measured by percentage of residents who have ISPs established within one month of program entry | 100% | 0.7 |
| 1.4 | Program coordinates residents supportive services measured by percentage of residents who have ISPs established within one month of program entry | 100% | 1 |
| 1.5 | Program enhances/maintains residents quality of life measured by percentage of residents reporting that their quality of life has improved or been maintained as a result of living in the program | 75% | 0.95 |

**Contractor Comments:** Program has maintained full occupancy with new residents moving in with in 2 weeks of a vacancy. All residents have an ISP established within 2 weeks of their entrance. Staff keeps an interactive waiting list so there is ongoing communication between clients, housing advocates and New Beginnings. This enables the transition to happen more efficiently. We have regular agencies who send referrals on a consistant basis. Ongoing needs assessments are done through individual meetings and weekly community meetings so that the residents have a forum to address their neeeds. Services provided reflect these assessments.

## 3455 Special Residential Services for Women (includes Family Shelters)

Contract Number 23352802001

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete the program | Actual | 100 |
| 1.2 | Percentage of clients who receive housing services (based on MIS discharge form) | Actual | 100 |
| 2.1 | Number of clients admitted to the program (annual unduplicated count) | Actual | 64 |

**Contractor Comments:**

Contract Number 09950219279

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of beds occupied - give # in bed days (bed days = actual number of beds occupied each day of th emonth totaled) measured by the actual number of bed days for the month | Actual | 0 |
| 1.2 | Percentage of beds occupied measured by the number of bed days for the month divided by capacity for the month(capacity = actual number of beds times number of days in the month) | 100% | 0 |
| 1.3 | Number of families requesting admittance to Program who are turned away due to lack of space measured by the actual number of families turned away due to lack of space | Actual | 0 |
| 1.4 | Percentage of families requesting admittance to Program who are turned away due to lack of space measured by actual # of families turned away due to lack of space divided by total # of families requesting admittance to the program | Actual | 0 |
| 2.1 | Number of substance abusing battered women achieving and sustaining sobriety for length of stay measured by actual number of substance abusing battered women achieving and sustaining sobriety for length of stay | Actual | 0 |
| 2.2 | Percentage of substance abusing battered women achieving and sustaining sobriety for length of stay measured by actual number of substance abusing battered women achieving and sustaining sobriety for length of stay divided by total # of women participati | Actual | 0 |
| 2.3 | Number of substance abusing battered women who are safe for length of stay measured by the actual number of substance abusing battered women who are safe for length of stay | Actual | 0 |
| 2.4 | Percentage of substance abusing battered women who are safe for length of stay measured by number of substance abusing battered women who are safe for length of stay divided by total number of women participating in the program | Actual | 0 |
| 2.5 | Number of mothers who attended parenting classes during the length of their stay measured by the actual number of mothers who attended classes during the length of their stay | Actual | 0 |
| 2.6 | Percentage of mothers who attended parenting classes during the length of their stay measured by the actual number of mothers who attended classes during the length of their stay divided by total number of mothers participating in the program | Actual | 0 |
| 3.1 | Number of children who are safe for length of stay measure by the actual number of children who are safe for length of stay | Actual | 0 |

| | | | |
|---|---|---|---|
| 3.2 | Percentage of children who are safe for length of stay measure by the actual number of children who are safe for length of stay divided by total number of children participating in the program | Actual | 0 |
| 3.3 | Number of women sho receive individual or group support during their stay measured by the actual number of women who receive individual or group support during their stay | Actual | 0 |
| 3.4 | Percentage of women who receive individual or group support during their stay measured by the actual number of women who receive individual or group support during their stay divided by total number of women participating in the program | 100% | 0 |
| 4.1 | Number of mothers who entered program without physical custody of their children measured by the actual number of mothers who entered the program without physical custody of their children | Actual | 0 |
| 4.2 | Percentage of mothers who entered program without physical custody of their children measured by the actual number of mothers who entering the program without physical custody of their children dibvided by total number of mothers entering in the program | 0 | 0 |
| 4.3 | Number of mothers who were reunified with their children during their program stay measured by actual number of mothers who were reunified with their children during their program stay | Actual | 0 |
| 4.4 | Percentage of mothers who were reunified with their children during their program stay measured by actual number of mothers who were reunified with their children divided by total number of mothers in program without physical custody | Actual | 0 |
| 5.1 | Number of families who are referred to community agencies for additional services measured by the actual number of families who are referred to community agencies for additional services | Actual | 0 |
| 5.2 | Percentage of families who are referred to community agencies for additional services measured by the actual number of families who are referred to community agencies for additional services divided by total number of families participating in the progra | 100% | 0 |
| 5.3 | Number of children receiving support services while in program measured by actual number of children who receive support services while in the program | Actual | 0 |
| 5.4 | Percentage of children receiving support services while in program measured by actual number of children who receive support services while in the program divided by total number of children participating in the program | 100% | 0 |

**Contractor Comments:** This program is for emergency safe beds and is not a substane abuse shelter. It was reported under BWCSa.

## *BWCSa* Battered Women & Children: Comprehensive Program

Contract Number 00040219252

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of emergency shelter/safe home beds occupied--# in bed days(bed days=actual # of beds occupied each day of the month totaled) measured by total number of bed days for the month | Actual | 4176 |
| 1.10 | Percentage of families receiving support services measured by the number of families receiving support services divided by the number of families in shelter/safe home | 100% | 1 |
| 1.11 | Number of children receiving children's services measured by the actual number of children receiving children's services | Actual | 265 |
| 1.12 | Percentage of children receiving children's services measured by the number of children receiving children's services divided by number of children in shelter/safe home | 100% | 1 |
| 1.13 | Number of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by actual number of families reporting that they were helped during their stay in the shelter/safe home | Actual | 183 |
| 1.14 | Percentage of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by the number of families reporting they were helped divided by number of families exiting shelter/safe home. | Actual | 100 |
| 1.15 | Number of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the actual number of families contacted | Actual | 0 |
| 1.16 | Percentage of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the # of families contacted in a given month (who left the shelter 3 months prior to the contact) divided by # of families who left the shelter/ | Actual | 0 |
| 1.17 | Number of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the actual # of families contacted | Actual | 0 |
| 1.18 | Percentage of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the # of families contacted in a given month (6 months prior) divided by # of families who left the shelter/safe home during the entire month 6 | Actual | 0 |
| 1.19 | Number of families receiving community (non-residential) services measured by the actual # of families receiving community services | Actual | 654 |
| 1.2 | Percentage of emergency shelter/safe home beds occupied measured by number of bed day divided by capacity for month (capacity = actual number of beds multiply by number of days in the month) | 100% | 0.83 |

| | | | |
|---|---|---|---|
| 1.20 | Percentage of families receiving community (non-residential) services measured by the # of families receiving community services divided by # of families served in both shelter and outside community | Actual | 78 |
| 1.21 | Number of trainings conducted muesured by the actual number of trainings conducted | Actual | 240 |
| 1.22 | Percentage of trainings actually conducted in relation to number of trainings requested by community measured by the number of trainings requested divided by number of trainings actually conducted | Actual | 100 |
| 1.23 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 4 |
| 1.24 | Percentage of staff who speak multiple languages measured by the number of staff who speak multiple languages divided by total number of staff | Actual | 50 |
| 1.3 | Number of families requesting shelter/sae home who are turned away due to lack of space measured by actual number of families turned away | Actual | 338 |
| 1.4 | Percentage of families requesting shelter/safe home who are turned away due to lack of space measured by the number of families turned away due to lack of space divided by number of families requesting shelter/safe home | Actual | 0 |
| 1.5 | Number of families receiving safety plans measured by actual number of families receiving safety plans | Actual | 183 |
| 1.6 | Percentage of families receiving safety plans measured by number of families receiving safety plans divided by the number of families in shelter/safe home | 100% | 1 |
| 1.7 | Number of families receiving advocacy services measured by actual number of families receiving advocacy services | Actual | 183 |
| 1.8 | Percentage of families receiving advocacy services measured by the number of families receiving advocacy services divided by number of families in shelter/safe home | 100% | 1 |
| 1.9 | Number of families receiving support services measured by actual number of families receiving support services | Actual | 183 |

**Contractor Comments:** 1.15 - 1.18: Our method of capturing data pertaining to certain measures was insufficient for a portion of the year. Changes have been implemented and improvement made to more accurately reflect the reporting requirements.

1.3: Statistical data for shelter and safe home program were co-mingled, therefore it is impossible to differentiate who was truned away due to lack of space from a particular service. We do know that the occupancy rate for safe home tends to be lower than for shelter, so one could speculate that the percentage turned away due to lack of space was higher for shelter requests.

Contract Number 09950219279

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of emergency shelter/safe home beds occupied--# in bed days(bed days=actual # of beds occupied each day of the month totaled) measured by total number of bed days for the month | Actual | 553 |
| 1.10 | Percentage of families receiving support services measured by the number of families receiving support services divided by the number of families in shelter/safe home | 100% | 1 |
| 1.11 | Number of children receiving children's services measured by the actual number of children receiving children's services | Actual | 0 |
| 1.12 | Percentage of children receiving children's services measured by the number of children receiving children's services divided by number of children in shelter/safe home | 100% | 0 |
| 1.13 | Number of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by actual number of families reporting that they were helped during their stay in the shelter/safe home | Actual | 73 |
| 1.14 | Percentage of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by the number of families reporting they were helped divided by number of families exiting shelter/safe home. | Actual | 100 |
| 1.15 | Number of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the actual number of families contacted | Actual | 0 |
| 1.16 | Percentage of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the # of families contacted in a given month (who left the shelter 3 months prior to the contact) divided by # of families who left the shelter/ | Actual | 0 |
| 1.17 | Number of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the actual # of families contacted | Actual | 0 |

| | | | |
|---|---|---|---|
| 1.18 | Percentage of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the # of families contacted in a given month (6 months prior) divided by # of families who left the shelter/safe home during the entire month 6 | Actual | 0 |
| 1.19 | Number of families receiving community (non-residential) services measured by the actual # of families receiving community services | Actual | 654 |
| 1.2 | Percentage of emergency shelter/safe home beds occupied measured by number of bed day divided by capacity for month (capacity = actual number of beds multiply by number of days in the month) | 100% | 0.21 |
| 1.20 | Percentage of families receiving community (non-residential) services measured by the # of families receiving community services divided by # of families served in both shelter and outside community | Actual | 11 |
| 1.21 | Number of trainings conducted muesured by the actual number of trainings conducted | Actual | 0 |
| 1.22 | Percentage of trainings actually conducted in relation to number of trainings requested by community measured by the number of trainings requested divided by number of trainings actually conducted | Actual | 0 |
| 1.23 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 3 |
| 1.24 | Percentage of staff who speak multiple languages measured by the number of staff who speak multiple languages divided by total number of staff | Actual | 100 |
| 1.3 | Number of families requesting shelter/sae home who are turned away due to lack of space measured by actual number of families turned away | Actual | 0 |
| 1.4 | Percentage of families requesting shelter/safe home who are turned away due to lack of space measured by the number of families turned away due to lack of space divided by number of families requesting shelter/safe home | Actual | 0 |
| 1.5 | Number of families receiving safety plans measured by actual number of families receiving safety plans | Actual | 73 |
| 1.6 | Percentage of families receiving safety plans measured by number of families receiving safety plans divided by the number of families in shelter/safe home | 100% | 1 |
| 1.7 | Number of families receiving advocacy services measured by actual number of families receiving advocacy services | Actual | 73 |
| 1.8 | Percentage of families receiving advocacy services measured by the number of families receiving advocacy services divided by number of families in shelter/safe home | 100% | 1 |

| | | | |
|---|---|---|---|
| 1.9 | Number of families receiving support services measured by actual number of families receiving support services | Actual | 73 |

**Contractor Comments:**

1.15-1.18: Our method of capturing data pertaining to certain measures was insufficient for a portion of the year. Changes have been implemented and improvement made to more accurately reflect the reporting requirements.

1.3: Statistical data for shelter for safe home program were co-mingled, therefore it is impossible to differentiatewho was turned away due to lack of space from a particular service. We do know that the occupancy rate for safe home tends to be lower than for shelter, so one could speculate that the percentage turned away due to lack of space was higher for shelter requests.

## *BWCSc* Battered Women & Children: Transition to Independent Living

Contract Number 09950219132

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of TIL housing beds occupied--given # in bed days (bed days = actual # of beds occupied each day of the month totaled) measured by the actual # of bed days for the month | Actual | 0 |
| 1.2 | Percentage of TIL housing beds occupied measured by the # of bed days divided by the capacity for month (capacity = actual # of beds times # of days in the month) | 100% | 0 |
| 2.1 | Number of families requesting TIL services who are turned away due to lack of space measured by the actual number of families turned away | Actual | 0 |
| 2.2 | Percentage of familes requesting TIL services who are turned away due to lack of space measured by the number of families turned away due to lack of space divided by the number of families requesting TIL services | Actual | 0 |
| 3.1 | Number of families receiving educational/vocational services measured by the actual number of families receiving deucational/vacational services | Actual | 0 |

| 2.3 | Number of unmet ADL/ADL needs for new clients is reduced subsequent to receiving case management services measured by percentage (annual average number of unmet needs for new clients at the time of initial assessment divided by annual average number of unmet needs for the same number of clients after reassessment | 90 % | 0.995 |
| 2.4 | Monthly average number of clients served by the Home Care Program, i.e. provided case management services measured by total number of Home Care clients receiving case management services during FY 02 divided by 12 months | actual | 1348 |
| 2.5 | Monthly average number of CICLE linkages achieved measured by the total number of actual CICLE linkages for FY 02 divided by 12 months | actual | 6 |
| 2.6 | Monthly minimum number of clients enrolled in the 2176 Waiver Program measured by total number of 2176 MA Waiver clients served in FY 02 divided by 12 months. Average not to be lower that contract specific goal. | 96 | 96 |
| 2.7 | Annual number of nursing home elders discharged through ASAP intervention measured by percentage (total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1.05 |
| 3.1 | Percentage of collection of eligible cost-sharing co-payments from eligible clients | 90% | 0.93 |

| | | | |
|---|---|---|---|
| 4.1 | Consumers are satisfied with Case Management Services measured by percentage (total number of HC program consumers responding to a clients satisfaction survey(s) who rated their overall satisfaction with case management services as positive/affirmative or satisfactory divided by total number of HC program consumers responding to the client satisfaction survey(s) | 90% | 0.98 |
| 4.2 | Percentage of peer reviewed records receiving an "agreement" rating measured by annual total number of agency-specific HC Program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by total number of all agency-specific HC Program intakes reviewed during FY 02 Peer Review sessions | 90% | 1 |

**Contractor Comments:**

## *8017* Congregate Housing

Contract Number eld03641f35016

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Occupancy level measured by percentage (numerator: add together the number of occupied congregate units @ the end of each month. Divide by 12 months. denominator: total number of all congregate units, occupied and vacant) | 90% | 0.78 |
| 2.2 | Conduct a minimum of eight community presentations per year measured by the actual number of community presentations conducted by ASAP personnel during this FY | 8 | 9 |
| 4.1 | Achieve a “Satisfactory” rating or above on resident satisfaction surveys measured by percentage(numerator: # of Congregate tenants responding to a client satisfaction survey who rated their services as positive, affirmative or satisfactory. denominator: | 90% | 1 |

**Contractor Comments:** There was a change of staff in March 2002, after the long time coordinator choose to leave. Prior to her departure, the coordinator was working half-time, thus timeing in the areas of marketing and placement of tenants was compromised.

## *8025* Coordination of Care

Contract Number 03642225023

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Maximize the annual number of diversions of elders seeking nursing home placements back to the community measured by total annual number of Medicaid pre-admission and Medicaid post-approval diversions | 9 | 9 |

| | | | |
|---|---|---|---|
| 1.2 | Maximize the annual number of nursing facility residents discharged to a community setting measured by total annual number of Nursing Home discharges (i.e. assist with placement of Medicaid nursing facility residents into community settings) | 41 | 41 |
| 2.1 | Monthly average number of CoC clients screened measured by number tracked and reported by HOMIS | Actual | 157.25 |
| 2.10 | Annual number of nursing home elders discharged through ASAP intervention measured by the total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to ASAP | Actual | 0.82 |
| 2.2 | Monthly average number of CoC clients determined eligible for Adult Day Health (ADH) measured by the total number of CoC clients determined eligible for ADH during FY 02 divided by 12 (months) | Actual | 2.83 |
| 2.3 | Monthly average number of CoC clients determined eligible for Adult Foster Care (AFC) measured by the total number of CoC clients determined eligible for AFC during FY 02 divided by 12 (months) | Actual | 0 |
| 2.4 | Monthly average number of CoC clients determined eligible for Group Adult Foster Care (GAFC) measured by the total number of CoC clients determined eligible for GAFC during FY 02 divided by 12 (months) | Actual | 0 |
| 2.5 | Monthly average number of CoC clients determined eligible for Pre Pace measured by the total number of CoC clients determined eligible for Pre Pace during FY 02 divided by 12 (months) | Actual | 0 |
| 2.6 | Monthly average number of CoC clients determined eligible for 2176 Home and Community Based Waiver measured by the total number of CoC clients determined eligible for 2176 Home and Community Based Waiver during FY 02 divided by 12 (months) | Actual | 12.8 |
| 2.7 | Monthly average number of CoC clients determined eligible for Personal Emergency Response Services (PERS) measured by the total number of CoC clients determined eligible for PERS during FY 02 divided by 12 (months) | Actual | 23.9 |
| 2.8 | Monthly average number of CoC clients determined eligible for Home Health (HH) services measured by the total number of CoC clients determined eligible for HH services during FY 02 divided by 12 (months) | Actual | 3.9 |
| 2.9 | Monthly average number of Home Health Initiative alternative service plans measured by the total number of Home Health Initiative alternative plans implemented for FY 02 divided by 12 (months) | Actual | 0.08 |
| 4.1 | Percentage of peer review records receiving an agreement rating measured by the annual total number of agency-specific CoC client records receiving an agreement rating during FY02 Peer Review sessions divided by annual total number of all agency-specific | 90% | 1 |

**Contractor Comments:**

## 8042 Protective Services Care Management

Contract Number 03641206023

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers who become Protective Services clients (open cases) are evaluated in a timely manner (at least monthly) consistent with standards measured by percentage (total # of open cases that received all required monthly visits divided by total # ) | Actual | 0.95 |
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 1 |
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 1 |
| 2.1 | % of cases screened as "routine" in which the investigation was initiated, face to face contact, within 5 days of receipt of the report (# of intakes screened as routine in which the investigation was initiated (face to face contact) within 5 days of | Actual | 1 |
| 2.1 | % of intakes designed as "routine" that receive a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 1 |
| 2.3 | % of investigations completed within 30 days of receipt of the report (# of investigations completed within 30 days of receipt of the report divided by total # of investigations completed during the fiscal year) | Actual | 0.92 |
| 2.4 | Protective Services staff provide a minimum of 15 trainings annually to community persons and organizations | 15/yr | 12 |

**Contractor Comments:**

## 8043 Managed Care/Housing

Contract Number 03641206023

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Elder consumers requiring assistance with ADLs are able to remain in the community measured by the total number of MCIH clients served during FY 02 minus the total number of closed MCIH Program clients for said FY divided by total number of MCIH clients | Actual | 0.95 |
| 2.1 | Monthly average number of intakes completed for the MCIH Program measured by total number of MCIH intakes conducted during FY 02 divided by 12 months | Actual | 0.58 |
| 2.2 | Monthly average number of clients enrolled in the MCIH program measured by the total number of MCIH program clients served during FY 02 divided by 12 months | Actual | 40 |
| 2.3 | Number of unmet ADL/IADL needs for new clients is reduced subsequent to receiving MCIH services as tracked and reported by HOMIS | 90% | 1 |
| 2.4 | Annual number of nursing home elders discharged through ASAP intervention measured by total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1.05 |
| 4.1 | Clients are satisfied with MCIH services measured by percentage (total number of MCIH program consumers responding to a client satisfaction survey who rated their overall satisfaction with MCIH services as positive, affirmative or satisfactory for FY02 | 90% | 1 |
| 4.2 | Percentage of peer reviewed records receiving an "agreement" rating measured by annual total # of agency-specific MCIH program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by total number of all agency specific MCIH I | 90% | 0 |

**Contractor Comments:**

## *8044* ECOP (Enhanced Community Options)

Contract Number sceld03642eco023

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers at risk of nursing home placement and requiring assistance with ADLs are able to remain in the community measured by % (total # of ECOP clients served during FY 02 minus the total # of closed ECOP clients during said FY divided by total # | Actual | 92 |
| 2.1 | Monthly average number of intakes completed for the ECOP program measured by total number of ECOP Program intakes conducted during FY 02 divided by 12 months | Actual | 2 |
| 2.2 | Monthly average number of client served in the ECOP Program measured by the total number of ECOP Program clients served during FY 02 divided by 12 months | Actual | 50 |

| | | | |
|---|---|---|---|
| 2.3 | Number of unmet ADL/IADL needs for new clients is reduced subsequent to receiving ECOP services as tracked and reported to HOMIS | Actual | 99.5 |
| 2.4 | Annual number of nursing home elders discharged through ASAP intervention measured by total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1.05 |
| 4.1 | Clients are satisfied with ECOP services measured by percentage (total number of ECOP program consumers responding to a client satisfaction survey (s) who rate their overall satisfaction with ECOP services as positive, affirmative or satisfactory divided | 90% | 1 |
| 4.2 | Percentage of Peer Reviewed records receiving an agreement rating measured by annual total number of agency-specific ECOP Program intakes receiving an agreement rating during FY 02 Peer Review sessions divided by annual total number of all agency-specifi | 90% | 0 |

**Contractor Comments:**

4.2 As EA is only conducting one uniform intade peer review per year, and as all clients selected for that review were SHCP, there are no data to report RE ECOP Please note also that most clients are transferred into traditional ECOP subsequent to opening in SHCP d/t eligibility factors e.g loss of support, etc.

2.3 Fugure applies to all clients, report used for this measure does not identify program adjustment will be requested

# South Shore Mental Health Center, Inc. (042677185)

## 2143 Residential/Day (3 providers only)

Contract Number SCMCB41002123112

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers have increased opportunities for community based experiences measured by the percentage of consumers that participate in at least four community based outings each month | 70% | 0.75 |
| 1.2 | Consumers gain skills in Activities of Daily Living measured by the percentage of consumers that demonstrate skill competency or mastery in a priority ADL area | 33% | 0.33 |
| 2.1 | Percentage of consumers receiving a comprehensive annual assessment to determine personal interest for community based activities | 100% | 1 |
| 2.2 | Percentage of consumers receiving a comprehensive annual assessment to identify each consumer's priority ADL needs | 100% | 1 |

**Contractor Comments:** 1.1 - 36 community based experiences, not including routine banking, grocery shopping, etc.

## 2226a SHIP Residential Services

Contract Number SCMRC20072007156

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Following October 1, 2001, consumers will maintain stable and integrated living situations measured by the percentage of individuals remaining in the community and/or their own homes | 100% | 0 |
| 1.1 | Following October 1, 2001, consumers will maintain stable and integrated living situations measured by the percentage of individuals remaining in the community and/or their own homes | 100% | 0 |
| 1.2 | Following October 1, 2001, consumers will decrease behaviors that impede community integration measured by the number of incidents reports | Actual | 0 |
| 1.2 | Following October 1, 2001, consumers will decrease behaviors that impede community integration measured by the number of incidents reports | Actual | 0 |
| 4.1 | Consumers ae satisfied with the provider's services as measured by a positive rating using SHIP's consumer satisfaction survey | 80% | 0 |

| | | | |
|---|---|---|---|
| 4.1 | Consumers ae satisfied with the provider's services as measured by a positive rating using SHIP's consumer satisfaction survey | 80% | 0 |

**Contractor Comments:** The contract was pulled in early 2002. Sufficient time is not available to collect data on the above measurables and observables.

## *3048* Respite Care Services

Contract Number SCDMH43402004068

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers meet respite plan goals measured by percentage (Number of consumer who achieve one or more respite plan goals divided by the total number of program consumers). | 85% | 0.77 |
| 1.2 | Consumers are discharged from the program in accordance with discharge plan measured by the percentage (Number of planned discharges divided by the total number of discharges) | 90% | 0.9 |

**Contractor Comments:**

## *3049* Adult Residential Services

Contract Number SCDMH43402004101

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients meet PSTP objectives measured by the number of clients who achieve 75% of their objectives towards their PSTP goals divided by the total number of clients | 56% | 0.72 |
| 1.2 | Clients experience a reduction in the rate of psychiatric hospitalizations measured by the number of days program clients are hospitalized in psychiatric facilities divided by the total number of clients | 490% | 4.15 |
| 1.3 | Clients experience a reduction in the rate of hospitalizations in substance abuse facilities measured by the number of days program clinets are hospitalized in substance abuse facilities divided by the total number of clients. | 102% | 0 |
| 1.4 | Program measures client satisfaction by the number of clients who reprot satisfaction with the program divided by the number of clients who participated in the satisfaction survey | 51% | 0.82 |

**Contractor Comments:**

## *3050* Outpatient

Contract Number SCDMH43402004069

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients remain in the community measured by percentage (total number of clients, unduplicated count, with serious mental illness as defined in DMH Policy 89-3 who are not hospitalized divided by total number of clients, unduplicated | 0% | 0.85 |
| 1.2 | Clients are discharged from the program in accordance with discharge plans measured by percentage (total number of planned discharges divided by total number of discharges | 0% | 0.68 |
| 1.3 | Clients are satisfied with program services defined by percentage (number of clients who report overall satisfaction with the program divided by total number of clients who participated in the satisfaction survey | 0% | 0.95 |
| 2.1a | program enrollment measured by an unduplicated count of the number of individuals who receive therapy services | 0 | 97 |
| 2.1b | program enrollment measured by an unduplicated count of the number of individuals who receive medication services | 0 | 125 |
| 2.2a | Service utilization measured by total number of units (as defined in the RFR) of therapy services provided | 0 | 831 |
| 2.2b | Service utilization measured by total number of units (as defined in the RFR) of medication services provided | 0 | 464 |

**Contractor Comments:** budgeted information not available.

# South Worcester County Rehabilitation Center, Inc. (042483176)

## 2201a Evaluation

Contract Number 20072004220

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Evaluation reports are completed measured by the number of completed evaluation reports that answer referral questions and submitted within ten (10) working days. | 10 | 6 |
| 2.1 | Number of people served measured by unduplicated count | 10 | 6 |

**Contractor Comments:**

## 2201b Work Adjustment Training

Contract Number 20072004220

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Individuals develop vocational skills, work attitudes, work habits, work tolerance and job seeking skills through Work Adjustment Training measured by percentage (total number of individuals who complete the Work Adjustment Training Program divided by th | 8 | 3 |
| 1.2 | Reports reviewing consumers progress in attaining the goals of their Work Adjustment Training program are completed measured by the total number of completed reports submitted within ten (10) working days of the completion of Work Adjustment | 10 | 3 |
| 2.1 | Number of individuals served measured by unduplicated count | 10 | 3 |
| 4.1 | Total number of clients who complete the Work Adjustment Training Program and are in jobs corresponding to their identified vocational goal within a year | 7 | 1 |
| 4.2 | Total number of individuals maintaining employment for more than a minimum of ninety (90) days | 6 | 1 |

**Contractor Comments:** Referrals were practically non-existant for work adjustment. The thrust for MRC is to place individuals on the job and provide support for them there, as opposed to having them work in sheltered or protected sites and then move to a competitive site.

## 2201c Skills Training

Contract Number 20072004220

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Individuals develop job skills, work behaviors and work habits in a specific vocational area through Skills Training that prepares for competitive employment in their community measured by the total number of individuals who successfully complete the ski | 0 | 0 |
| 1.2 | Total number of completed reports submitted within ten (10) working days of the completion of the Skills Training Program. | 0 | 0 |
| 2.1 | Total number of individuals served measured by unduplicated count | 0 | 0 |
| 4.1 | Individuals will be placed in competitive jobs reflective of their skills training program measured by percentage (total number of individuals placed in competitive jobs reflective of their skills divided by total number of individuals trained) | 0 | 0 |
| 4.2 | Individuals maintain employment for more than ninety (90) days measured by the number of individuals maintaining employment for more than a minimum of ninety (90) days | 0 | 0 |

**Contractor Comments:** This was not a component of the contract where services were provided or contracted for. There were no performance objectives formulated for this program code and no referrals were made to the program for this purpose.

## *2201d* Job Support Services

Contract Number 20072004220

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Individuals are placed and/or retained at integrated competitive jobs in the community through Job Support Services measured by the total number of individuals who are placed and/or retained at integrated competitive jobs. | 8 | 12 |
| 1.2 | Placements are consistent with individual work choices, functional capacities and vocational qualifications measured by the total number of placements consistent with the individuals work choices, functional capacities and vocational | 100 | 100 |
| 2.1 | Number of individuals accepted for services measured by unduplicated count | 10 | 26 |
| 4.1 | Individuals maintain employment for more than ninety (90) days measured by the number of individuals maintaining employment for more than a minimum of ninety (90) days | 70 | 42 |

**Contractor Comments:**

## 2205 Employment Services

Contract Number 20072031074

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers work a minimum of 4 hrs/day; 5 days/wk with an average production of 25% measured by the total # of individuals on monthly reports divided by total number who met the goal | 100 | 100 |
| 1.2 | Consumers work a minimum of 4 hrs/day; 5 days/wk with an average attendance rate of 75% measured by the total # of individuals on monthly reports divided by total number who met goal | 100 | 100 |
| 1.3 | Consumers have a diversity of sub-contract work measured by the total number of individuals who can choose their desired work | 100 | 100 |
| 1.4 | Individuals will maintain work skills, attitudes and habits that prepare them for community based work measured by the total # of individuals who are identified for community based employment | 17 | 63 |
| 2.1 | Number of individuals served (unduplicated count) | 19 | 19 |
| 2.2 | Number of sub-contract jobs within the year (unduplicated count) | 50 | 50 |
| 2.3 | Number of individuals served who are referred for Community Based Employment (unduplicated count) | 5 | 0 |
| 4.1 | Number of individuals maintaining attendance eligibility for the year | 100 | 100 |
| 4.2 | Number of individuals maintaining production eligibility for the year | 100 | 100 |
| 4.3 | Number of individuals given the opportunity to choose sub-contract work measured by the number of individuals who respond through consumer evaluations that they have been given options for sub-contract work | 100 | 100 |
| 4.4 | Number of individuals that are referred out for placement services | 3 | 1 |

| 2.5 | # of referrals of clients to primary care and related health and social services | actual | 35 |

**Contractor Comments:**

### *3447* Tobacco Control: Comm. Mobilization Networks

Contract Number 29022079032

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Change in community attitudes toward tobacco use measured by the number of studies of community attitudes | Actual | 1 |
| 1.2 | Change in community attitudes toward tobacco use measured by the number of regulations passed in member communities | Actual | 1 |
| 2.1 | Development and implementation of a community action plan based on best practices measured by submission of a quality annual Community Action Plan | Yes | 1 |
| 2.2 | Development and implementation of a community action plan based on best practices measured by documented participation of MTCP funded programs in the development and implementation of the Community Action Plan | Yes | 1 |

**Contractor Comments:**

## *3450* Tobacco Control: Targeted Community Smoking Intervention Programs: Innovative Outreach for Risk Taki

Contract Number 29052143081

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Enhanced knowledge and skill level of participants measured by the average % increase between pre and post tests | Actual | 7 |
| 2.1 | Number of target priority population individuals served through outreach activities (annual unduplicated count) | Actual | 462 |
| 2.2 | Number of priority population smokers identified and counseled (annual unduplicated count) | Actual | 0 |
| 2.3 | Number of priority population smokers referred to smoking cessation services (annual unduplicated count) | Actual | 0 |
| 2.4 | Number of priority population smokers receiving smoking cessation services (annual unduplicated count) | Actual | 0 |

**Contractor Comments:** The primary focus of this Tobacco-Control youth group, during fiscal year 2002, was advocacy. Our activities revolved around letter writing, surveys, and compliance checks in Hampden County.

## *3461* Tobacco Control: Targeted Community Smoking Intervention Programs: Tobacco Treatment Services

Contract Number 29022079032

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of target priority population participating in program activities measured by the total number of brief interventions conducted | 0 | 0 |
| 1.2 | Number of target priority population participating in program activities measured by the total number of referrals to Tobacco Treatment Services | 0 | 0 |
| 1.3 | Number of target priority population participating in program activities measured by the total number of smokers receiving TobaccoTreatment Services | 0 | 0 |
| 1.4 | Number of target priority population participating in program activities measured by the total hours of individual counseling conducted | 0 | 0 |
| 1.5 | Number of target priority population participating in program activities measured by the number of group counseling hours conducted | 0 | 0 |
| 2.1 | Delivery of smoking cessation services to target priority population measured by documentation of service delivery as prescribed by the department (1 = yes, 2 = no) | 1 (yes) | 1 |

**Contractor Comments:** In conversation with David Gallagher(DPH)& Suzzanne Pierre(OSD)a number of Tobacco Control Programs were shown in MMARS with the wrong program codes and program texts. Corrections were made 7/1/02. Please see MMARS code 3447 for the filing of the Tobacco Control Community Mobilization Network D-1 filing. Any questions, please contact Suzzanne Pierre and or Ellen Bickelman.

Note: All above information was filled in to allow for this schedule to be filed with OSD.

Contract Number 29252087002

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of target priority population participating in program activities measured by the total number of brief interventions conducted | 500 | 125 |
| 1.2 | Number of target priority population participating in program activities measured by the total number of referrals to Tobacco Treatment Services | 200 | 55 |
| 1.3 | Number of target priority population participating in program activities measured by the total number of smokers receiving TobaccoTreatment Services | 100 | 15 |

| | | | |
|---|---|---|---|
| 1.4 | Number of target priority population participating in program activities measured by the total hours of individual counseling conducted | 0 | 0 |
| 1.5 | Number of target priority population participating in program activities measured by the number of group counseling hours conducted | 0 | 0 |
| 2.1 | Delivery of smoking cessation services to target priority population measured by documentation of service delivery as prescribed by the department (1 = yes, 2 = no) | 1 (yes) | 2 |

**Contractor Comments:** we were not a tobacco treatment program. innovative outreach was our focus.

## *3463* Men's Health Partnership

Contract Number 41142123034

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Men from priority populations are reached and educated measured by the percentage of men from priority populations served | Actual | 209 |
| 2.2 | Men are linked to screening and/or are screened measured by the number of unduplicated program eligible men linked to screening or screened | Actual | 0 |
| 2.3 | Men from priority populations are linked to screening and/or screened measured by the percentage of men linked to screening and/or screened from priority populations | Actual | 0 |

**Contractor Comments:**

## *8009* Elder at Risk

Contract Number 03642233230

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers who become Elder At Risk clients (open cases) are evaluated in a timely manner (at least monthly) consistent with standards measured by percentage (total # of open cases that received all required montly visits divided by total # of cases | Actual | 1 |
| 2.1 | % of EAR intakes designated as "routine" that receiv a complete screening within 48 hours of reprot receipt (total # of "routine" intakes screened within 48 hours divided by the total # of "routine" intakes) | Actual | 1 |

| | | | |
|---|---|---|---|
| 2.2 | % of cases screened as "routine" in which the assessment was initiated, face to face contact, within 5 days of receipt of the reprot (# of intakes screened as routine where face to face contact was initiated within 5 days of receipt of the reprot divided | Actual | 1 |
| 2.3 | % of assessments completed within 30 days of receipt of reprot (# of assessments completed within 30 days of receipt of reprot divided by total # of assessments completed) | Actual | 1 |
| 2.4 | EAR staff provide a minimum of 15 trainings annually to community persons and organizations measured by actual number | 15/yr | 1 |

## *3395a* Acute Treatment Services (Blanket for Pregnant Women)

Contract Number DPH23032802005

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who receive prenatal medical care (based on MIS discharge form) | Actual | 0.11 |
| 2.1 | Number of clients admitted to the program (annual unduplicated count) | Actual | 48 |

**Contractor Comments:**

## *3395b* Acute Treatment Services

Contract Number DPH23032802100

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete treatment at discharge (based on MIS discharge form) | Actual | 0.692 |
| 2.1 | Percentage of referrals to aftercare services (in the quarterly report) | Actual | 0.799 |

**Contractor Comments:**

## *3397* Narcotic Treatment Services

Contract Number DPH23182802004

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Programs submit 100% of all client data of all clients eligible to participate in MTQAS | 100% | 1 |

**Contractor Comments:**

## *3434* Transitional Support Services

Contract Number DPH23482937005

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Referred clients complete the program measured by the percentage of clients that complete treatment at discharge according to MIS data | Actual | 0.649 |
| 1.2 | Clients follow their aftercare plan measured by the percentage of clients that follow their aftercare plan | Actual | 0.67 |
| 2.1 | Clients are successfully referred measured by the percentage of clients linked to the next step in their service plan | Actual | 0.897 |
| 2.2 | Clients are appropriate for services measured by the percentage of clients living in shelters, missions or on the streets | Actual | 0.372 |

**Contractor Comments:**

## 3455 Special Residential Services for Women (includes Family Shelters)

Contract Number DPH23352113037

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete the program | Actual | 0.864 |
| 1.2 | Percentage of clients who receive housing services (based on MIS discharge form) | Actual | 0.42 |
| 2.1 | Number of clients admitted to the program (annual unduplicated count) | Actual | 24 |

**Contractor Comments:**

## 3459 Child Care

Contract Number DPH23362802005

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Monthly average number of hours of care provided (annual number of hours of care provided ( twelve) | > 35 | 40 |
| 2.2 | Percentage of referrals to specialized services for children (in the quarterly report) | Actual | 0.2 |

**Contractor Comments:**

## 3461 Tobacco Control: Targeted Community Smoking Intervention Programs: Tobacco Treatment Services

Contract Number DPH29022079034

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of target priority population participating in program activities measured by the total number of brief interventions conducted | 2000 | 2158 |
| 1.2 | Number of target priority population participating in program activities measured by the total number of referrals to Tobacco Treatment Services | 2000 | 2158 |
| 1.3 | Number of target priority population participating in program activities measured by the total number of smokers receiving TobaccoTreatment Services | 1500 | 1531 |

| | | | |
|---|---|---|---|
| 1.4 | Number of target priority population participating in program activities measured by the total hours of individual counseling conducted | 300 | 319 |
| 1.5 | Number of target priority population participating in program activities measured by the number of group counseling hours conducted | 175 | 183 |
| 2.1 | Delivery of smoking cessation services to target priority population measured by documentation of service delivery as prescribed by the department (1 = yes, 2 = no) | 1 (yes) | 1 |

**Contractor Comments:**

Contract Number DPH29092087999

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of target priority population participating in program activities measured by the total number of brief interventions conducted | 0 | 0 |
| 1.2 | Number of target priority population participating in program activities measured by the total number of referrals to Tobacco Treatment Services | 0 | 0 |
| 1.3 | Number of target priority population participating in program activities measured by the total number of smokers receiving TobaccoTreatment Services | 0 | 0 |
| 1.4 | Number of target priority population participating in program activities measured by the total hours of individual counseling conducted | 0 | 0 |
| 1.5 | Number of target priority population participating in program activities measured by the number of group counseling hours conducted | 0 | 0 |
| 2.1 | Delivery of smoking cessation services to target priority population measured by documentation of service delivery as prescribed by the department (1 = yes, 2 = no) | 1 (yes) | 2 |

**Contractor Comments:** This contract does not provide smoking cessation services. This is a community mobilization contract, and therefore these performance measures do not apply.

## *3486* Batterer Intervention

Contract Number DPH34092025053

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Batterer intervention services are provided to eligible court referred batterers on a timely basis measured by the number of court referred batterers enrolled in intake group within three weeks of initial contact with the program | Actual | 336 |
| 1.2 | Batterer intervention services are effectively coordinated with criminal justice, law enforcement and victims' services measured by percentage participation in quarterly community roundtable and task force meetings on domestic violen | 75% | 1 |
| 2.1 | Increased utilization of batterer intervention services for perpetrators of domestic violence by courts measured by the number of perpetrators receiving services annually | Actual | 336 |
| 2.2 | Increase the number of referrals to victim's services by certified batterer intervention services measured by the annual number of referrals | Actual | 336 |
| 2.3 | Expansion of current services for victims and perpetrators for whom English is a second language measured by the number of batterer intervention groups offered in languages other than English | Actual | 18 |

**Contractor Comments:**

## *7405a* Substance Abuse - (Spectrum Health Systems only)

Contract Number DOC10002SPEC01

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Recidivism rate of offenders receiving treatment measured by percentage | Actual | 0 |
| 2.1 | Percentage of compliance with contract specifications including record audit | 90% | 0.995 |
| 2.2 | Percentage of recidivism/needs assessments conducted and risk reduction plans implemented (total number of risk reduction plans established divided by total number of inmates meeting assessment criteria) | 100% | 1 |
| 2.3 | Percentage of aftercare participants tracked (total number of aftercare participants tracked divided by total number of aftercare participants who sign a consent form for tracking) | 100% | 1 |
| 2.4 | Quality of Instruction Inventory is administered to all required staff in accordance with contract specifications (administered a minimum of twice per year on each staff person employed by the contractor for six to eighteen months) measured by percentage | 100% | 1 |
| 2.5 | Percentage of First Step Program Discharge Plans developed (total number of discharge plans developed divided by total number of program participants) | 100% | 1 |
| 3.1 | Percentage of surplus revenue retention as reported in the UFR | Actual | 0 |

| | | | |
|---|---|---|---|
| 4.1 | Quality of Instruction Inventory measured by the aggregate data gathered by contractor regarding the level of competency achieved for all quality of instruction inventory completed | Actual | 0.956 |
| 4.2 | Percentage of improvement measured by the Criminal Sentiment Scale (total number of inmates who positively shift at least one range in two out of the three subscales divided by total number of inmates tested) | 70% | 0.633 |
| 4.3 | Percentage of improvement measured by the Coping Behavior Inventory (total number of inmates whose post test score is at least 10 points lower than their pre test score divided by total number of inmates tested) | 70% | 0.763 |

**Contractor Comments:** 1.1 Plans to integrate DOC data (currently not available) with program data for comparison have not been developed as of yet.

## *7405c* Substance Abuse - (Social Justice for Women only)

Contract Number DOC90032SJW002

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Inmates attain drug-free births of all infants measured by percentage (total number of drug free births divided by total number of participants) | Actual | 1 |
| 1.2 | Inmates demonstrate increased parenting skills measured by the average percentage change between pre and post test scores of skill level | actual | 0 |
| 2.1 | Provide individual treatment plans, including discharge/transition plans for all inmates measured by percentage (total number of individual transition plans divided by total number of participants) | 100% | 1 |
| 2.2 | Provide service delivery of all program components as scheduled measured by percentage (total number of scheduled services divided by total number of components delivered) | Actual | 1 |
| 2.3 | Develop relapse prevention skills measured by the average percentage increase between pre-test scores and post-test scores | 95% | 1 |
| 2.4 | Provide resettlement services to program graduates for reintegration with a comprehensive discharge plans measured by percentage (total number of participants receiving discharge plans divided by total number of participants who follow through with plan) | actual | 1 |
| 2.5 | Provide one year of outpatient services for all graduates measured by percentage (total number of graduates provided one year outpatient services divided by total number of graduates) | Actual | 1 |
| 2.6 | Percentage of compliance with contract specifications regarding frequency and content including record audit | Actual | 1 |

| | | | |
|---|---|---|---|
| 3.1 | Maintain maximum program capacity measured by percentage utilization | actual | 1 |

**Contractor Comments:** 1.2 Quantitative measurements for pre and post testing scores have not been identified to adequately present stats through the contract.

## *RESS* Alternative Lockup Program

Contract Number DSS00040219289

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | To eliminate all instances of status offenders being detained in police lockups for any length of time measured by total number of violations (from information generated by police dockets and compiled by the Executive Office of Public Safety) | 0 Violations | 0 |
| 1.2 | To eliminate all instances of alleged non-violent offenders being detained in police lockup for longer than six hours measured by total number of youths detained for more than six hours (from information generated by police dockets and compiled by the ) | 0 Youths | 0 |
| 1.3 | All clients receiving alternative placement services are transported to court for arraignment on the next court day measured by percentage (total number of youths receiving ALP services transported to court the next day divided by total number of youth ) | 100% | 0 |
| 2.1 | Number of referrals to ALP services measured by the total annual number of calls received and reported in the Monthly Service Delivery Report | Actual | 256 |
| 2.2 | Percentage of clients mediated home by ALP measured by the total annual number of "non-placement" services reported in the Monthly Service Delivery report divided by total number of clients receiving ALP services | Actual | 0 |
| 2.3 | Number of clients placed in ALP measured by the total annual number reported in the Monthly Service Delivery Report | Actual | 256 |
| 2.4 | Number of clients transported to court measured by the total annual number reported in the Monthly Service Delivery Report | Actual | 0 |
| 2.5 | Number of trainings offered to both police departments and DSS measured by the total annual number or trainings reported to DSS | Actual | 7 |
| 3.1 | Cost per referral measured by the total actual program budget divided by total number of referrals | Actual | 3209.63 |
| 3.2 | Cost per bed night measured by the total actual program budget divided by total number of bed nights | Actual | 4698.13 |

| | | | |
|---|---|---|---|
| 3.3 | Cost per ALP day measured by the total actual program budget divided by 365 days | Actual | 247.27 |
| 4.1 | Decrease in the overall violations committed by the state and local police measured by the number of violations reported by EOPS report divided by total number of clients served x 100 to obtain a percentage | 0% | 0 |

**Contractor Comments:** 1.1, 1.2, 1.3, & 4.1 - The shelter contract is different than the ALP contracts as the clients are not transported to court by shelter staff (DSS does the transporting directly), the clients ar not detained by the police, nor are they placed due to violations of the law. All clients placed at the shelter are referred through DSS, who also maintains client records.

Contract Number DSS09950218039

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | To eliminate all instances of status offenders being detained in police lockups for any length of time measured by total number of violations (from information generated by police dockets and compiled by the Executive Office of Public Safety) | 0 Violations | 0 |

| 1.9 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 1 |

**Contractor Comments:** Of the 104 vacancies reported to DSS, 42% of the referrals received (44) were turned back to the Department. Among the reasons for returning referrals were:

- No response from social worker
- No response from caretaking adult
- No-show for appointments by social worker
- No-show for appointments by caretaking adult
- Inability to access required documentation
- Referral days expired before process was completed
- Failure of social worker to contact/assist client in completing the process
- Case was reassigned or closed
- Out of home placement

Parent surveys were sent out in June, 2002, to 26 parents of children who had been enrolled for 30 days or longer. No surveys were returned to the provider.

Reporting vacancies in a timely fashion does not ensure that referrals will be received within a reasonable length of time. Provider is dependent on the DSS wait list.

Having the flexibility to enroll and bill for the prototype determined by the age of the child referred has made a dramatic improvement in our ability to fill slots and provide the service needed by the families referred.

All three Area Offices of DSS that have slots with this provider were impacted by the layoffs and early retirement program implemented earlier in the year. Open cases were transferred to new units and workers but service providers often were not notified. Cases were closed but we were not notified. Families moved out of the area but we were not informed until we reported excessive absence.

It has become increasingly difficult to get the social worker to attend a pre-enrollment conference, partly because of increased case-load and partly because they don’t see why they should have to. More often, the worker tells the client there is a slot available and that the client needs to make their own arrangements to get the services.

We have never received information from a Family Service Plan for ANY child from ANY social worker. We have been refused based on confidentiality issues and on the fact that the plan did not have any child centered goals.

Parent conferences were held for 60 children from 50 families to discuss issues and concerns as well as placement and progress. This is in addition to conferences held by center-based staff and Family Child Care Providers.

We have volunteered to participate in planning and providing training to DSS social workers regarding child care requirements and expectations. We do not know what plans, if any, are in place for such training.

**Contractor Comments:**

## *3430a* HIV/AIDS Client Services

Contract Number 49252802013

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | People with HIV have improved access to critical health and social services and will be able to live independently, as appropriate, over the course of their illness measured by the number of increased units offered this year as compared to the previous y | Actual | 12613 |
| 2.1 | Number of clients receiving services as defined by unduplicated count of clients served during the year | Actual | 135 |
| 3.1 | Cost per client measured by number of clients receiving HIV client services divided by total program cost | 1241.37 | 1241.37 |

**Contractor Comments:** 1.1 Allowing for a n addtion error in the software, this represents almost riple the units delivered last year. This is due in part to our increased efforts to capture all service delivery units.

3.1 $20,000 of the contract underwrites the CAB and Consortium. IF this is subtracted the actual per client per year cost is $1095.22

## *3450* Tobacco Control: Targeted Community Smoking Intervention Programs: Innovative Outreach for Risk Taki

Contract Number 290521E7114

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Enhanced knowledge and skill level of participants measured by the average % increase between pre and post tests | Actual | 0 |
| 2.1 | Number of target priority population individuals served through outreach activities (annual unduplicated count) | Actual | 900 |
| 2.2 | Number of priority population smokers identified and counseled (annual unduplicated count) | Actual | 80 |
| 2.3 | Number of priority population smokers referred to smoking cessation services (annual unduplicated count) | Actual | 130 |
| 2.4 | Number of priority population smokers receiving smoking cessation services (annual unduplicated count) | Actual | 90 |

**Contractor Comments:** 1.1 not applicable to this contract.

## *3455* Special Residential Services for Women (includes Family Shelters)

Contract Number 23352029032

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete the program | Actual | 96 |
| 1.2 | Percentage of clients who receive housing services (based on MIS discharge form) | Actual | 25 |
| 2.1 | Number of clients admitted to the program (annual unduplicated count) | Actual | 118 |

**Contractor Comments:**

**Contractor Comments:**

## 3168 Employment Services

Contract Number 25502550320

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers earn pay through facility based work programs measured by percentage (# of consumers in category divided by # in program) | 31% | 0.2 |
| 1.2 | Consumers work in congregate settings in business as measured by the percentage of consumers in this category | 0 | 0 |

| | | | |
|---|---|---|---|
| 1.3 | Consumers work in group supported employment measured by percentage (# of consumers in category divided by # in program) | 0 | 0 |
| 1.4 | Consumers participate in unpaid work or are in transition measured by percentage (# of consumers in category divided by # in program) | 69% | 0.68 |
| 1.5 | Consumers work in provider paid supported employment as measured by the percentage of consumers in this category | 11% | 0.12 |
| 1.6 | Consumers work in employer paid supported employment as measured by the percentage of consumers in this category | 0 | 0 |

**Contractor Comments:** Much of the program was in transition in FY 2002. It was determined that 20 of 29 individuals would be better served by a Community Based Day Supports model and the year was spent in transitioning these individuals into that model. This was sucessfully accomplished and the contract was seperated into two contracts for 2003, a day supports and employment support contract.

| | | | |
|---|---|---|---|
| 4.2 | Percentage of staff who speak multiple languages measured by actual number of staff who speak multiple languages divided by total number of staff | Actual | 0.59 |
| 4.3 | Number of community-based initiatives participated in measured by actual number of community-based initiatives participated in | Actual | 10 |

**Contractor Comments:** To ensure cultural competence, we subcontract services to clinicians who speak Spanish, Haitian Creole, Portuguese who bill toward the contract

## *BWCPd* Battered Women and Children: Visitation Services

Contract Number 09950200111

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of referrals received from court personnel measured by actual number of referrals received from court personnel | Actual | 237 |
| 1.2 | Percentage of referrals received from court personnel measured by actual number of referrals received from court personnel divided by total number of referrals to the program | Actual | 95 |
| 1.3 | Number of referrals received from other domestic violence service providers measured by actual number of referrals received from other domestic violence service providers | Actual | 5 |
| 1.4 | Percentage of referrals received from other domestic violence service providers measured by actual number of referrals from domestic violence service providers divided by total number of referrals to the program | Actual | 2 |
| 1.5 | Number of referrals received from DSS measured by actual numbers of referrals received from DSS | Actual | 8 |
| 1.6 | Percentage of referrals received from DSS measured by actual number of referrals from domestic violence service providers divided by the total number of referrals to the program | Actual | 390 |
| 1.7 | Number of referrals received from others measured by actual number of referrals received from others | Actual | 0 |
| 1.8 | Percentage of referrals received from others measured by actual number of referrals received from others divided by the total number of referrals to the program | Actual | 0 |
| 2.1 | Number of safe supervised visits measured by actual number of safe supervised visits | Actual | 417 |
| 2.2 | Number of safe unsupervised visits measured by actual number of safe unsupervised visits | Actual | 0 |
| 2.3 | Percentage of safe unsupervised visits measured by total number of safe unsupervised visits at the program divided by total number of safe supervised visits | Actual | 0 |

| | | | |
|---|---|---|---|
| 2.4 | Number of safe neutral exchanges measured by actual number of safe neutral exchanges | Actual | 61 |
| 3.1 | Number of participants in parenting groups for non-offending parents measured by actual number of participants in parenting groups for non-offending parents | Actual | 2 |
| 3.2 | Percentage of participants in parenting groups for non-offending parents measured by number of non-offending parents in the parenting groups divided by the number of non-offending parents in the program | Actual | 6 |
| 3.3 | Number of participants in parenting groups for offending parents measured by actual number of participants in groups for offending parents | Actual | 4 |
| 3.4 | Percentage of participants in parenting groups for offending parents measurd by actual number of participants in parenting groups for offending parents divided by the number of offending parents in the program | Actual | 13 |
| 4.1 | Number of families referred to court due to dangerous behavior measured by actual number of families referred back to court due to dangerous behavior | Actual | 2 |
| 4.2 | Percentage of families referred to court due to dangerous behavior measured by actual number of families referred back to court due to dangerous behavior dividedby total number of families in program | Actual | 5 |
| 4.3 | Number of families reveiving case management services measured by actual number of families receiving case management services | Actual | 35 |
| 4.4 | Percentage of families reveiving case management services measured by actual number of families receiving case management services divided by total number of families in program | Actual | 100 |
| 5.1 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 1 |
| 5.2 | Percentage of staff who speak multiple languages measured by actual number of staff who speak multiple languages divided by total number of staff | Actual | 10 |
| 5.3 | Number of non-English speaking families served measured by actual number of non-English speaking families served. | Actual | 0 |
| 5.4 | Percentage of non-English speaking families served measured by actual number of non-English speaking families served divided by total number of families served | Actual | 0 |
| 5.5 | Number of families served from diverse ethnic backgrounds measured by actual number of families from diverse ethnic backgrounds reveiving services | Actual | 13 |

| | | | |
|---|---|---|---|
| 5.6 | Percentage of families served from diverse ethnic backgrounds measured by actual number of families from diverse ethnic backgrounds reveiving services divided by total number of families served | Actual | 32 |
| 5.7 | Number of community-based initiatives participated in measured by actual number of community-based initiatives participated in | 19 | 19 |

**Contractor Comments:** Funding limitations have impacted our ability to serve more clients and to have bi-lingual staff

## *CHCY* Supportive Child Care

Contract Number 41400044024

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Children promptly access contracted slots that have been vacated measured by the number of vacancies reported to DSS and OCCS within 5 days of having occurred | Actual | 5 |
| 1.1 | Children promptly access contracted slots that have been vacated measured by the number of vacancies reported to DSS and OCCS within 5 days of having occurred | Actual | 5 |
| 1.1 | Children promptly access contracted slots that have been vacated measured by the number of vacancies reported to DSS and OCCS within 5 days of having occurred | Actual | 5 |
| 1.10 | Parents are satisfied with the services provided to them and their children measured by the number of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received. | Actual | 5 |
| 1.10 | Parents are satisfied with the services provided to them and their children measured by the number of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received. | Actual | 5 |
| 1.10 | Parents are satisfied with the services provided to them and their children measured by the number of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received. | Actual | 5 |
| 1.11 | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received | Actual | 5 |
| 1.11 | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received | Actual | 5 |

| | | | |
|---|---|---|---|
| 1.11 | Parents are satisfied with the services provided to them and their children measured by the percentage of families who, when provided with a semi annual consumer satisfaction questionnaire, report that they are satisfied with the services received | Actual | 5 |

**Contractor Comments:**

# The Home for Little Wanderers (042104764)

## 3064 Outpatient Services (ch)

Contract Number 62102006017

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Youth are able to be sustained in a family setting measured by percentage (number of youth who, on discharge are living in a family setting divided by the total number of youth discharged) | 95% | 0.98 |
| 1.2 | Parents/guardians report increased competence in managing their child's illness and related behaviors measured by percentage (number of families completing satisfactions surveys who report increased competence in managing their child's illness and relate | 85% | 1 |
| 2.1 | Utilization of outpatient services measured by unduplicated number of children who are the identified clients who had been served by the end of the reporting period. (this measure is applicable only if outpatient services (3064) were included in the RFR | 11 | 16 |

**Contractor Comments:**

## 3065 Community and School Support

Contract Number 62102006017

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Professionals who are recipients of technical assistance or support show increased understanding and ability to deal with children's mental health issues measured by percentage (number of recipients of technical assistance completing 3 month evaluation s | 85% | 1 |
| 1.2 | Parent Coordinator and CAP contracts only: Families are better able to cope with their child's mental health needs measured by percentage (number of families completing evaluation surveys who report an improved relationship with their child as a result o | 0 | 0 |
| 1.3 | Parent Coordinator and CAP contracts only: Families with children who have mental health problems feel less isolated measured by percentage (number of families completing evaluation surveys who report feeling less isolated as a result of activities of th | 0 | 0 |
| 2.1 | Parent Coordinator and CAP contracts only: Family Support Utilization measured by the total number of telephone support contacts. | 0 | 0 |

| | | | |
|---|---|---|---|
| 2.1a | Parent Coordinator and CAP contracts only: Family Support Utilization measured by the total number of telephone support contacts. | 0 | 0 |
| 2.1b | Parent Coordinator and CAP contracts only: Family Support Utilization measured by the total number of individual (unduplicated count) attending support groups | 0 | 0 |
| 2.2 | Technical assistance and support utilization measured by total number of individuals attending professional activities | 1500 | 2901 |
| 2.3 | Services to schools and community agencies measured by total number of schools and community agencies served (unduplicated count) | 15 | 15 |

**Contractor Comments:**

## *3066* Individual & Family Flexible Support Srvs

Contract Number 62102006017

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Youth are able to be sustained in a family setting measured by percentage (number of youth who, on discharge are living in a family setting divided by the total number of youth discharged) | 95% | 0.98 |
| 1.2 | Parents/guardians report increased competence in managing their child's illness and related behaviors measured by percentage (number of families completing satisfactions surveys who report increased competence in managing their child's illness and relate | 85% | 1 |
| 2.1 | Utilization of Individual and Family Flexible Support Services measured by unduplicated number of families served by the end of the reporting period | 145 | 215 |

**Contractor Comments:**

## *3068* Day Services (children & adolescents)

Contract Number 62102006007

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Families and clients are satisfied with services measured by percentage (number of families and clients who report overall satisfaction with the program divided by total number of satisfaction surveys completed and returned by clients/families | 85% | 0.88 |

| | | | |
|---|---|---|---|
| 1.1a | Families and clients are satisfied with services measured by percentage (number of families and clients who report overall satisfaction with the program divided by total number of satisfaction surveys completed and return | 0 | 0 |
| 1.1b | Families and clients are satisfied with services measured by percentage (number of families and clients who report overall satisfaction with the program divided by total number of satisfaction surveys completed and r | 0 | 0 |
| 1.2 | Clients increase their level of functioning within a family measured by percentage (number of families who, at the time of discharge, report improvement in their child's level of functioning within the family divided by total number of clients discharged | 85% | 0.5 |
| 1.2a | Clients increase their level of functioning within a family measured by percentage (number of families who, at the time of discharge, report improvement in their child's level of functioning within the family divided by | 0 | 0 |
| 1.2b | measured by percentage (number of families who, at the time of discharge, report improvement in their childs level of functioning within the family divided by total number of clients discharged from the program in the second (2nd)) two quarters | 0 | 0 |
| 1.3a | Clients who can participate in childhood activities without day services supports measured by percentage (number of clients who are discharged from the program to less intensive interventions or programs divided by total number of clients discharged | 60% | 0.79 |
| 1.3b | Clients who can participate in childhood activities without day services supports measured by percentage (number of clients who are discharged from the program to less intensive interventions or programs divided by total number of clients di | 0 | 0 |
| 2.1a | Program enrollment measured by unduplicated count of clients served during the contract year | 24 | 22 |
| 2.2 | Program enrollment measured by average daily census reported on a monthly basis | 10 | 8.5 |

**Contractor Comments:** The main factor causing the variance between goals and actual performance is the acuity level of the population being served by the program.

## *3079* Child/Adolescent Residential Services

Contract Number 62102006123

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients meet their PSTP objectives measured by the number of clients who meet one or more PSTP objectives divided by the number of clients served. | 90% | 0.944 |

| | | | |
|---|---|---|---|
| 1.2 | Clients are discharged from the program in accordance with discharge plan measured by the number of clients discharged from the program having met criteria for discharge as identified in their PSTP divided by the total number of discharged clients. | 80% | 0.792 |
| 1.3 | Clients are better able to manage their mental health problems measured by the percentage of clients who report they are better able to manage their mental health problems. | 70% | 0.716 |
| 1.4 | Families or Legal Authorized Representatives believe that their child is better able to manage their mental health problems measured by the percentage of families who report that their child is better able to manage their mental health problems. | 85% | 0.933 |

**Contractor Comments:**

## *3080* Intensive Residential Treatment Program (ch)

Contract Number 82102008033

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers meet PSTP goals measured by percentage (number of consumers who meet or exceed fifty percent of PSTP goals during reporting period divided by total number of consumers served | 90% | 0.79 |
| 2.1 | Program measures consumer satisfaction by percentage (number of consumers who report they are satisfied with the program divided by the total number of consumers surveyed | 90% | 0.7 |
| 2.2 | Program measures family/guardian satisfaction measured by percentage (number of family members/guardians who report they are satisfied with the program divided by the total number of family members/guardians surveyed | 95% | 0.76 |

**Contractor Comments:** FY '02 was a year of change for the program. The program director left the aagency, census was increased, and the resident population changed significantly.

## *3081* Clinically Intensive Residential Treatment

Contract Number 82102008026

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers meet PSTP goals measured by percentage (number of consumers who meet or exceed fifty percent of PSTP goals during reporting period divided by total number of consumers served | 85% | 0.55 |
| 2.1 | Program measures consumer satisfaction by percentage (number of consumers who report they are satisfied with the program divided by the total number of consumers surveyed | 85% | 0.74 |

| | | | |
|---|---|---|---|
| 2.2 | Program measures family/guardian satisfaction measured by percentage (number of family members/guardians who report they are satisfied with the program divided by the total number of family members/guardians surveyed | 85% | 1 |

**Contractor Comments:** 1.1 11 out of 20 consumers served met at 50% of treatment goals. In reviewing this data, we have determined that we have not designed objectives at a small enough increment for the residents to be achieving objectives with sufficient frequency. Thus while a resident may be making progress, this progress does not reflect in goal achievement. We will be redesigning our goals and objectives so that residents and their families can experience more success.
2.1 14 out of 19 surveyed were overall satisfied with the program.
2.2 11 out of 11 families who responded to the survey were satisfied with the program.

## *3089* Child/Adolescent Inpatient Services

Contract Number 82102008072

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers meet their treatment plan goals measured by percentage (number of consumers who meet or exceed fifty percent of treatment plan goals during the reporting period divided by the total number of consumers served). | 85% | 0.92 |
| 2.1 | Program measures consumer satisfaction measured by percentage (number of consumers who reported they are satisfied with program divided by the number of consumers who participated in the consumer satisfaction survey). | 90% | 0.76 |
| 2.2 | Program measures family/guardian satisfaction measured by percentage (number of families/guardians who reported they are satisfied with the program divided by the number of families/guardians who participated in the satisfaction survey | 90% | 0.86 |

**Contractor Comments:** Consumer satisfaction is highly variable on a day to day basis, reflecting consumer's ambivalence about treatment. The current measure may not accurately reflect the true "average" satisfaction of the consumers at TAFTP.

Family satisfaction is skewed by low return rates, perhaps reflecting that familys return surveys when very satisfied or very unsatisfied. Future efforts will be made to get a higher return rate of family surveys.

## *3153* Residential Supports

Contract Number 26002600384

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Provider maintains at least a one year certification by the DMR Office of Quality Enhancement ( Please Enter 1 for "Yes" and 2 for "No") | Yes | 2 |
| 1.2 | Individuals and their families are invited to participate in an annual satisfaction survey/process conducted by the provider agency measured by percentage (number of individuals and families invited to participate in satisfaction survey divided by number | 100% | 1 |
| 1.3 | ISP assessments and support strategies are completed within 15 days of request per compliance with DMR regulations measured by percentage (number of assessments and strategies completed within 15 days divided by number of assessments and strategies compl | 100% | 1 |

**Contractor Comments:** Measure 1.1 we have a 2 year license by OCCS, no certification by DMR due to agreement by state agencies to have one licensing review.

## *3176* Family Support

Contract Number 26002600354

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1a | Families are offered the opportunity to participate in family directed organizational activities measured by the percentage offered (# offered divided by the # in program) | 100% | 1 |
| 1.1b | Of those families offered opportunities, the percentage (# involved divided by the # offered opportunity) involved in family directed organizational activities such as family council, family leadership training and/or advisory boards. | 50% | 0.4 |
| 1.2 | Families avail themselves of flexible service options measured by percentage (# of families that avail themselves divided by # in the program) | 80% | 0.9 |
| 1.3 | Families take advantage of inclusive community based activities measured by percentage (# or families that take advantage of inclusive activities divided by # in the program) | 50% | 0.8 |
| 1.4a | Family support agencies review on a semi-annual basis the number of individuals under age 22 served during the year and the number of individuals who sought and received out of home placement as measured by the percentage of individuals reviewed | 100% | 1 |
| 1.4b | Individuals who receive family support services remain in their homes and community as measured by the percentage decreas from FY 01 to FY 02 in the number of families whose children under age 22 are placed out of home | 90% | 0.95 |

| | | | |
|---|---|---|---|
| 1.5 | Families are surveyed to determine satisfaction/dissatisfaction with family support services measured by percentage of families offered the opportunity to express their satisfaction/dissatisfaction (# of families offered the opportunity divided by # of ) | 100% | 1 |

**Contractor Comments:**

## *3177* Individual Support

Contract Number 26202620383

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1 | Provider to participate in evaluations conducted by the Office of Quality Management and use evaluation results to improve the supports provided to involved individuals. | 100% | 0 |
| 1 | Provider to participate in evaluations conducted by the Office of Quality Management and use evaluation results to improve the supports provided to involved individuals. | 100% | 0 |
| 2 | Assessment and support plans will be developed, submitted on a timely basis per DMR regulation and maintained by the provided for each person. | 100% | 1 |
| 2 | Assessment and support plans will be developed, submitted on a timely basis per DMR regulation and maintained by the provided for each person. | 100% | 1 |
| 3 | Supports will be provided according to each individual's support plan. | 100% | 1 |
| 3 | Supports will be provided according to each individual's support plan. | 100% | 1 |
| 4 | Individuals and their involved families wil be invited to participate in an annual satisfaction survey/process conducted by the provider agency. A summary of the results will be completed by the provider agency and forwarded to the area office. | 100% | 1 |
| 4 | Individuals and their involved families wil be invited to participate in an annual satisfaction survey/process conducted by the provider agency. A summary of the results will be completed by the provider agency and forwarded to the area office. | 100% | 1 |

**Contractor Comments:** Measure 1 There were no evaluations conducted by the Office of Quality Management

## *3317* Early Intervention

Contract Number 36012005191

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 2.1 | Needs of enrolled children are addressed in a timely manner measured by the percentage of enrolled children with signed IFSPs within 45 days of referral | 100% | 1 |
| 2.1 | Needs of enrolled children are addressed in a timely manner measured by the percentage of enrolled children with signed IFSPs within 45 days of referral | 100% | 1 |
| 2.2 | Services are provided in natural settings measured by percentage of services provided in natural, non-segregated environments | 50% | 0.75 |
| 2.2 | Services are provided in natural settings measured by percentage of services provided in natural, non-segregated environments | 50% | 0.75 |
| 2.3 | Transition in “next step” services is enhanced through collaboration and communication measured by percentage of children over 2½ with written transition plan developed with family | 75% | 1 |
| 2.3 | Transition in “next step” services is enhanced through collaboration and communication measured by percentage of children over 2½ with written transition plan developed with family | 75% | 1 |

**Contractor Comments:**

## *3343* HIV/AIDS Prevention & Education

Contract Number 49352802131

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Unduplicated # of clients belonging to the priority population (s) who receive an education session or discuss HIV risk with an outreach worker or health educator | actual | 910 |
| 2.2 | # of skills trainings or other education sessions provided to clients belonging to the priority population (s) | actual | 109 |
| 2.3 | # of educational materials and/or risk reduction devices distributed to clients belonging to the priority population (s) | actual | 1211 |

**Contractor Comments:**

## *3438* Teen Challenge Fund

Contract Number 32142202034

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | # of grassroots, neighborhood based agencies, clubs and associations involved in the coalition | 0 | 44 |

| | | | |
|---|---|---|---|
| 2.2 | In the comprehensive action plan, % of community education events that address links between alcohol, tobacco, substance, sexual abuse, violence and teen pregnancy | Actual | 5 |
| 2.3 | In the comprehensive action plan , % of community media activities | Actual | 4 |
| 2.4 | In the comprehensive action plan, % of fact sheets distributed regarding teen pregnancy prevention effectiveness | Actual | 215 |
| 2.5 | In the comprehensive action plan, % of programs which have a parent education component involved | Actual | 0.75 |

**Contractor Comments:**

## *3450* Tobacco Control: Targeted Community Smoking Intervention Programs: Innovative Outreach for Risk Taki

Contract Number 29052143074

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Enhanced knowledge and skill level of participants measured by the average % increase between pre and post tests | Actual | 0.9 |
| 2.1 | Number of target priority population individuals served through outreach activities (annual unduplicated count) | Actual | 500 |
| 2.2 | Number of priority population smokers identified and counseled (annual unduplicated count) | Actual | 50 |
| 2.3 | Number of priority population smokers referred to smoking cessation services (annual unduplicated count) | Actual | 65 |
| 2.4 | Number of priority population smokers receiving smoking cessation services (annual unduplicated count) | Actual | 12 |

**Contractor Comments:** This program was not meant to actually counsel smokers, mainly supply tobacco/health education to the target population of economically disadvantaged Latino and other youth of East Boston. In this realm the program achieved its goal. Also, the program's main goal was changed from one of purely educational to one of legislative activism. Lastly, the program experienced a change in program coordinator as well as a time without a coordinator. All of these factors contributed to lower numbers than expected.

## *AMSSa* Adoption Management/Product Based Adoption

Contract Number 0990028850

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Case Management: Secure permanent homes for children as defined by the percentage of accepted referrals resulting in permanent adoptions | Actual | 0.8 |
| 1.2 | Single Service Assessment: percentage of child care adoption assessments completed within 55 days | Actual | 0.97 |
| 1.3 | Single Service Foster Family Homestudies: percentage of foster family homestudies completed within 55 days | Actual | 0.98 |
| 1.4 | Single Service Relative Homestudies: percentage of relative homestudies completed within 55 days | Actual | 0.98 |
| 1.5 | Single Service Person/Couple Homestudies: percentage of referred person/couple homestudies completed within 30 days of MAPP (Massachusetts Approach to Partnership in Parenting) session completion | Actual | 0 |
| 2.1 | Number of children accepted for case management | Actual | 1 |
| 2.2 | Average length of time from case acceptance to adoption completion as defined by the number of days | Actual | 878 |

**Contractor Comments:**

## *CHCX* Income Eligible Child Care

Contract Number 60002136165

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.4a | Parents are knowledgeable of child care options available to them, including types of child care subsidy and of health and safety requirements for child care measured by the number of parents given information about subsidized child care (in their own | Actual # | 25 |
| 1.4a | Parents are knowledgeable of child care options available to them, including types of child care subsidy and of health and safety requirements for child care measured by the number of parents given information about subsidized child care (in their own | Actual # | 25 |

## *FOSC* Contracted Foster Care/Family Residence

Contract Number 09950200089

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Youth will meet child/family specific Treatment Planning Goals within specified time frames measured by percentage (number of youth who meet child/family specific Treatment Planning Goals divided by the total number of youths in the program | Actual | 0.92 |
| 1.2 | Youth will demonstrate regular school attendance (depending on local district's policy) and progress measured by percentage (number of youth demonstrating regular school attendance and progress divided by total number of youth in the program) | Actual | 0.95 |
| 1.3 | Youth will achieve educational/vocational goals as identified in regular and special education plans measured by percentage (number of youth achieving educational/vocational goals as identified in regular and special education plans divided by total num | Actual | 0.95 |
| 1.4 | Youth will exhibit increased competency in life skills based on independent life skills assessments measured by percentage (number of youth who exhibit increased competency in life skills based on pre-and-post-test of independent living skills divided | Actual | 0.95 |
| 2.1 | Program will conduct a comprehensive assessment of every youth entering the program measured by percentage (number of youth who receive a comprehensive assessment within 30 days of entering the program divided by total number of youth entering the progra | Actual | 1 |

| | | | |
|---|---|---|---|
| 2.10 | Youth are actively involved in his/her own discharge planning measured by percentage (number of youths attending treatment and discharge planning conferences divided by total number of youths discharged from the program | Actual | 0.85 |
| 2.11 | Youth experience a safe living environment measured by the number of DSS supported 51A's against the program | Actual | 1 |
| 2.2 | Program will provide weekly PAYA sessions in each family residence foster home measured by the number of weeks PAYA sessions are conducted in the residence foster home divided by 52 | Actual | 0 |
| 2.3 | Program will provide monthly meetings for foster family for support and training measured by the number of months that meetings are held divided by 12 | Actual | 12 |
| 2.4 | Program will develop treatment plan and assessment for every youth entering the program measured by percentage (number of treatment plans and assessments developed for a youth in the program within 6 weeks divided by the total number of treatment plans | Actual | 1 |
| 2.5 | Program staff will attend DSS Foster Care Reviews measured by percentage (total number of reviews attended by program staff divided by total number of reviews held by DSS for youth in the program) | Actual | 1 |
| 2.6 | Discharge plans are written and a Discharge Planning conference takes place for each youth 3 months prior to the scheduled discharge date measured by percentage (total number of Discharge Plans and conferences conducted within 3 months of scheduled disch | Actual | 0.98 |
| 2.7 | Program ensures third party billing for all eligible clinical services measured by percentage (number of youths receiving clinical services with third party billing completed divided by total number of youths receiving clinical services who are eligible | Actual | 1 |
| 2.8 | Program recruits volunteers to provide support to each foster home measured by number of volunteers recruited | Actual | 4 |
| 2.9 | Program staff and family have regular contact as identified in the treatment plan measured by percentage (number of actual contacts/visits divided by total number of contacts identified in the treatment plan) | Actual | 1 |

**Contractor Comments:**

Measure 1.1 Some of our foster children have acute medical needs and it is foreseeable that they may never meet their specific treatment goals. However, the majority of youths in the therapeutic foster care program are meeting their goals.

Measure 1.2/1.3 Some youth are too young to attend school.

Measure 2.10 Some of our youth are to young (infants & toddlers) to attend discharge-planning meetings. The ones that are of age and have the capacity to understand the treatment meetings do attend, at the percentage of 100.

Measure 2.2 Our Family Residence program provides foster care for children with acute medical needs, from the age of newborn to 6 years old. Our therapeutic foster care program provides weekly PAYA to all of our foster children that are of age 100% of the time.

Measure 2.8 Our program provides 24 hour 7 days a week support to our foster parents. We currently have 4 volunteers and several interns along with social workers and other foster parents that help support each other on an ongoing basis.

## *RESC* Commonworks

Contract Number 09950200025

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of youth placed in Commonworks Program who attain a moderate or better rating on overall progress toward treatment plan goals will be maintained at a rating of 70% or better | 70% | 0.71 |
| 1.2 | Percentage of youths served by Commonworks program with family involvement in treatment as measured by the total # of youth for whom there was family involvement divided by the total # of youth for whom family involvement is not clinically contraindicate | 80% | 0.89 |
| 1.3 | Percentage of youths served by Commonworks Program who achieve a moderate or better rating on academic progress on educational goals in treatment plan will be maintained at a rating of 70% or better | 70% | 0.74 |
| 1.4 | Compliance relative to development of quarterly treatment progress reviews for youth within the Commonworks Program will be maintained at a rating of 90% or better as measured by the # of youth for whom treatment progress reviews are completed divided by | 90% | 0.86 |
| 2.1 | Percentage of youth served by the Commonworks Program who experienced an interruption in service due to AWOL will be maintained at a rating of 5% or less as measured by the # of youth experiencing an interruption in service of more than 30 days divided b | 5% | 0 |

| | | | |
|---|---|---|---|
| 2.2 | Percentage of youth discharged from Commonworks Program who do not re-enter residential network care will be maintained at a rating of 7% or less as measured by the # of youth discharged in accordance with a treatment planning decision who do not re-ente | 7% | 0.08 |
| 2.3 | Overall average length of stay of youth in Commonworks Program (placement only) will be maintained at 360 Days or less. Note: Lengths of stay are based on duration of time youth are in Commonworks residential care | 360 Days | 404.25 |
| 2.4 | Percentage of moves to less restrictive levels of care for yout served in the Commonworks Program will not be less than 90% as measured by the number of youth moving to less restrivctive levels of care divided by the total number of youth moving to a new | 90% | 0.91 |

**Contractor Comments:** Measure 2.1 was not calculated because of inconsistent SDR2 reporting. Consistency in reporting will be addressed with the adoption of the Commonworks ABSolute reporting system in January 2003.

Measure 2.2 was answered as if the Text Description read: “Percentage of youth discharged from Commonworks Program who re-enter residential network care will be maintained at a rating of 7% or less as measured by the number of youth discharged in accordance with a treatment planning decision who re-enter divided by the total number of youths discharged in accordance with a treatment planning decision. (Does not include youths with an interruption in service of more than 30 days as a result of AWOL.)

| 2.2 | Percentage of youth discharged from Commonworks Program who do not re-enter residential network care will be maintained at a rating of 7% or less as measured by the # of youth discharged in accordance with a treatment planning decision who do not re-ente | 7% | 0.07 |
| 2.3 | Overall average length of stay of youth in Commonworks Program (placement only) will be maintained at 360 Days or less. Note: Lengths of stay are based on duration of time youth are in Commonworks residential care | 360 Days | 385 |
| 2.4 | Percentage of moves to less restrictive levels of care for yout served in the Commonworks Program will not be less than 90% as measured by the number of youth moving to less restrivctive levels of care divided by the total number of youth moving to a new | 90% | 0.91 |

**Contractor Comments:**

Measure 2.1 was not calculated because of inconsistent SDR2 reporting. Cinsistency in reporting will be addressed with the adoption of the Commonworks ABSolute reporting system in January 2003.

Measure 2.2 was answered as if the Text Description read "% of youth discharged from CW who re-enter residential network care will be maintained at a rating of 7% or less as measured by the number of yout discharged in accordance with a treatment planning decsion who re-enter divided by the total number of youths discharged in acordance with a treatment planning decision. (Does not include youths with an iterruption in service of more than 30 days as a result of AWOL.)

# *The Life Experience School, Inc. (042509041)*

## *3168* Employment Services

Contract Number 26702670377

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers earn pay through facility based work programs measured by percentage (# of consumers in category divided by # in program) | 0 | 0 |
| 1.2 | Consumers work in congregate settings in business as measured by the percentage of consumers in this category | 0 | 0 |
| 1.3 | Consumers work in group supported employment measured by percentage (# of consumers in category divided by # in program) | 7 | 1 |
| 1.4 | Consumers participate in unpaid work or are in transition measured by percentage (# of consumers in category divided by # in program) | 7 | 1 |
| 1.5 | Consumers work in provider paid supported employment as measured by the percentage of consumers in this category | 0 | 0 |

## *The Professional Center for Handicapped Children, Inc. (042800853)*

### *3317* Early Intervention

Contract Number SCDPH36012005184

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Needs of enrolled children are addressed in a timely manner measured by the percentage of enrolled children with signed IFSPs within 45 days of referral | 100% | 0.62 |
| 2.1 | Needs of enrolled children are addressed in a timely manner measured by the percentage of enrolled children with signed IFSPs within 45 days of referral | 100% | 0.62 |
| 2.2 | Services are provided in natural settings measured by percentage of services provided in natural, non-segregated environments | 50% | 0.99 |
| 2.2 | Services are provided in natural settings measured by percentage of services provided in natural, non-segregated environments | 50% | 0.99 |
| 2.3 | Transition in “next step” services is enhanced through collaboration and communication measured by percentage of children over 2½ with written transition plan developed with family | 75% | 0.75 |
| 2.3 | Transition in “next step” services is enhanced through collaboration and communication measured by percentage of children over 2½ with written transition plan developed with family | 75% | 0.75 |

**Contractor Comments:** 2.1 Screening, Evaluation, and IFSP development are typically a 3 visit process with the screening and evaluation occurring within the 45 day time frame. The development and signing of the IFSP happens when the Intake worker and the newly assigned service coordinator can jointly visit the family. Due to work hours of some parents, coordinating staff schedules with parent availability often takes more than 45 days. We have improved our performance over the last year and work toward the 100% goal.

| 2.1 | Increased utilization of batterer intervention services for perpetrators of domestic violence by courts measured by the number of perpetrators receiving services annually | Actual | 21 |
| 2.2 | Increase the number of referrals to victim's services by certified batterer intervention services measured by the annual number of referrals | Actual | 21 |
| 2.3 | Expansion of current services for victims and perpetrators for whom English is a second language measured by the number of batterer intervention groups offered in languages other than English | Actual | 21 |

**Contractor Comments:** 1.1 We enroll %100 of our batterers on a timely basis.

2.1 & 2.2 & 2.3 are all at 100% because aour group is very small.

## *BWCPb* Battered Women and Children:Substance Abuse Shelter (McKinney ESG)

Contract Number 09950218586

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of emergency shelter beds occupied--give # in bed days (bed days = actual # of beds occupied each day of the month totaled) measured by the actual number of days for the month | Actual | 378 |
| 1.10 | Percentage of families receiving support services measured by number of families receiving support services (divided number of families in shelter) | 100% | 1 |
| 1.11 | Number of children receiving children's services measured by actual number of children receiving children's services | Actual | 0 |

| | | | |
|---|---|---|---|
| 1.12 | Percentage of children receiving children's services measured by number of children receiving children's services divide number of children in shelter/safe home | 100% | 0 |
| 1.2 | Percentage of emergency shelter beds occupied measured by the number of bed days divided by capacity for month (capacity = actual # of beds times # of days in the month) | 100% | 1 |
| 1.3 | Number of families requesting shelter who are turned away due to lack of space measured by actual number of families turned away | Actual | 10 |
| 1.4 | Percentage of families requesting shelter who are turned away due to lack of space measured by actual number of families turned away divided by # of families requesting shelter/safe home | Actual | 50 |
| 1.5 | Number of families receiving safety plans measured by actual number of families receiving safety plans | Actual | 4 |
| 1.6 | Percentage of families receiving safety plans measured by number of families receiving safety plans divided by number of families in shelter | 100% | 1 |
| 1.7 | Number of families receiving advocacy services measured by actual number of families receiving advocacy services | Actual | 4 |
| 1.8 | Percentage of families receiving advocacy services measured by the number of families receiving advocacy services divided by number of families in shelter | 100% | 1 |
| 1.9 | Number of families receiving support services measured by actual number of families receiving support services | Actual | 4 |
| 2.1 | Number of families reporting at time of exit that they were helped during their stay in the shelter measured by actual number of families reproting that they were helped during their stay in the shelter/safe home | Actual | 100 |
| 2.2 | Percentage of families reporting at time of exit that they were helped during their stay in the shelter measured by number of families reproting they were helped divided by the number of families exiting shelter | Actual | 0 |
| 2.3 | Number of families who receive follow-up contact 3 months after leaving the shelter measured by the actual number of families contacted | Actual | 0 |
| 2.4 | Percentage of families who receive follow-up contact 3 months after leaving the shelter measured by number of families contacted ina given month (who left 3 months prior) divided by # of families who left the shelter during the entire month 3 months prio | Actual | 0 |
| 2.5 | Number of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the actual number of families contacted | Actual | 0 |

| | | | |
|---|---|---|---|
| 2.6 | Percentage of families who receive follow-up contact 6 months after leaving the shelter measured by number of families contacted in a given month (who left 6months prior) divided by # of families who left the shelter during the entire month 6 months prio | Actual | 0 |
| 3.1 | Number of families receiving community (non-residential) services measured by actual number of families receiving community services | Actual | 4 |
| 3.2 | Percentage of families receiving community (non-residential) services measured by number of families receiving community services divided by the number of families seerved in both shelter and outside community | Actual | 100 |
| 3.3 | Number of trainings conducted measured by actual number of trainings conducted | Actual | 12 |
| 3.4 | Percentage of trainings actually conducted in relation to number of trainings requested by community measured by number of trainings requested divided by number of trainings actually conducted | Actual | 100 |
| 4.1 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 2 |
| 4.2 | Percentage of staff who speak multiple languages measured by number of staff who speak multiple languages divided by total number of staff | Actual | 2 |

**Contractor Comments:** Our TLP program is a new program that was planned to house 4 single women and 5 families. The 4 single units were available for occupancy the last week of March and were fully occupied after that. The 5 family rooms were not available for occupancy due to lead issues and other physical barriers. Therefore no children were housed. (1.11, 1.12) During the contract year, improvements and corrections to the 5 family rooms were done. During this time we provided outreach, interviews, waitlist management, and safety planning and counseling to families. Our TLP program is a nine month program, so that the women who began in MArch were not ready to complete the program during this contract year. Therefore the statistics concerning follow-up contacts is not applicable. The above statistics are based on our capacity for 4 single units and not the family units.

## *BWCSa* Battered Women & Children: Comprehensive Program

Contract Number 0004021925001

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of emergency shelter/safe home beds occupied--# in bed days(bed days=actual # of beds occupied each day of the month totaled) measured by total number of bed days for the month | Actual | 4124 |

| | | | |
|---|---|---|---|
| 1.11 | Number of children receiving children's services measured by the actual number of children receiving children's services | Actual | 62 |
| 1.12 | Percentage of children receiving children's services measured by the number of children receiving children's services divided by number of children in shelter/safe home | 100% | 1 |
| 1.13 | Number of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by actual number of families reporting that they were helped during their stay in the shelter/safe home | Actual | 41 |
| 1.14 | Percentage of families reporting at time of exit that they were helped during their stay in the shelter/safe home measured by the number of families reporting they were helped divided by number of families exiting shelter/safe home. | Actual | 0.83 |
| 1.15 | Number of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the actual number of families contacted | Actual | 14 |
| 1.16 | Percentage of families who receive follow-up contact 3 months after leaving the shelter/safe home measured by the # of families contacted in a given month (who left the shelter 3 months prior to the contact) divided by # of families who left the shelter/ | Actual | 0.55 |
| 1.17 | Number of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the actual # of families contacted | Actual | 10 |
| 1.18 | Percentage of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the # of families contacted in a given month (6 months prior) divided by # of families who left the shelter/safe home during the entire month 6 | Actual | 0.67 |
| 1.19 | Number of families receiving community (non-residential) services measured by the actual # of families receiving community services | Actual | 54 |
| 1.2 | Percentage of emergency shelter/safe home beds occupied measured by number of bed day divided by capacity for month (capacity = actual number of beds multiply by number of days in the month) | 100% | 0.91 |
| 1.20 | Percentage of families receiving community (non-residential) services measured by the # of families receiving community services divided by # of families served in both shelter and outside community | Actual | 1 |
| 1.21 | Number of trainings conducted muesured by the actual number of trainings conducted | Actual | 32 |
| 1.22 | Percentage of trainings actually conducted in relation to number of trainings requested by community measured by the number of trainings requested divided by number of trainings actually conducted | Actual | 1 |

| | | | |
|---|---|---|---|
| 1.23 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 11 |
| 1.24 | Percentage of staff who speak multiple languages measured by the number of staff who speak multiple languages divided by total number of staff | Actual | 0.5 |
| 1.3 | Number of families requesting shelter/sae home who are turned away due to lack of space measured by actual number of families turned away | Actual | 356 |
| 1.4 | Percentage of families requesting shelter/safe home who are turned away due to lack of space measured by the number of families turned away due to lack of space divided by number of families requesting shelter/safe home | Actual | 0.82 |
| 1.5 | Number of families receiving safety plans measured by actual number of families receiving safety plans | Actual | 53 |
| 1.6 | Percentage of families receiving safety plans measured by number of families receiving safety plans divided by the number of families in shelter/safe home | 100% | 0.99 |
| 1.7 | Number of families receiving advocacy services measured by actual number of families receiving advocacy services | Actual | 54 |
| 1.8 | Percentage of families receiving advocacy services measured by the number of families receiving advocacy services divided by number of families in shelter/safe home | 100% | 1 |
| 1.9 | Number of families receiving support services measured by actual number of families receiving support services | Actual | 1 |

**Contractor Comments:**

# *Travelers Aid Society of Boston, Inc. (042105756)*

## *2891* Transportation Assistance Program

Contract Number SCWEL30722TAP01

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Relocation of appropriate cases | 170 | 207 |
| 4.1 | Recipient contact with all cases following relocation | 170 | 207 |

**Contractor Comments:**

## *2901c* Scattered Sites

Contract Number SCWEL409520SC007

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Families are placed into permanent housing each month measured by the annual total number of placements reported on the Placement Data Report | 75% | 0.55 |
| 2.2 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.7 |
| 2.3 | Develop and maintain an Individualized Service Plan for each family | 100% | 1 |

**Contractor Comments:** Due to the extraordinarily expensive housing market and paucity of Section 8 available units, these "hard to place" families had few options. The Housing Search Worker and SCAT team explored every possible vacancy to house the number they did. Given these economic and housing factors in the City of Boston, the goal was approached, but not reached. The occupancy goal could not be reached due to the limited number of units available.

## *BWCPa* Battered Women & Children: Substance Abuse Shelter

Contract Number SCDSS09950218593

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of beds occupied - give # in bed days (bed days = actual number of beds occupied each day of th emonth totaled) measured by the actual number of bed days for the month | Actual | 0 |

| | | | |
|---|---|---|---|
| 1.2 | Percentage of beds occupied measured by the number of bed days for the month divided by capacity for the month(capacity = actual number of beds times number of days in the month) | 100% | 0 |
| 1.3 | Number of families requesting admittance to Program who are turned away due to lack of space measured by the actual number of families turned away due to lack of space | Actual | 0 |
| 1.4 | Percentage of families requesting admittance to Program who are turned away due to lack of space measured by actual # of families turned away due to lack of space divided by total # of families requesting admittance to the program | Actual | 0 |
| 2.1 | Number of substance abusing battered women achieving and sustaining sobriety for length of stay measured by actual number of substance abusing battered women achieving and sustaining sobriety for length of stay | Actual | 0 |
| 2.2 | Percentage of substance abusing battered women achieving and sustaining sobriety for length of stay measured by actual number of substance abusing battered women achieving and sustaining sobriety for length of stay divided by total # of women participati | Actual | 0 |
| 2.3 | Number of substance abusing battered women who are safe for length of stay measured by the actual number of substance abusing battered women who are safe for length of stay | Actual | 0 |
| 2.4 | Percentage of substance abusing battered women who are safe for length of stay measured by number of substance abusing battered women who are safe for length of stay divided by total number of women participating in the program | Actual | 0 |
| 2.5 | Number of mothers who attended parenting classes during the length of their stay measured by the actual number of mothers who attended classes during the length of their stay | Actual | 0 |
| 2.6 | Percentage of mothers who attended parenting classes during the length of their stay measured by the actual number of mothers who attended classes during the length of their stay divided by total number of mothers participating in the program | Actual | 0 |
| 3.1 | Number of children who are safe for length of stay measure by the actual number of children who are safe for length of stay | Actual | 0 |
| 3.2 | Percentage of children who are safe for length of stay measure by the actual number of children who are safe for length of stay divided by total number of children participating in the program | Actual | 0 |
| 3.3 | Number of women sho receive individual or group support during their stay measured by the actual number of women who receive individual or group support during their stay | Actual | 0 |

| | | | |
|---|---|---|---|
| 3.4 | Percentage of women who receive individual or group support during their stay measured by the actual number of women who receive individual or group support during their stay divided by total number of women participating in the program | 100% | 0 |
| 4.1 | Number of mothers who entered program without physical custody of their children measured by the actual number of mothers who entered the program without physical custody of their children | Actual | 0 |
| 4.2 | Percentage of mothers who entered program without physical custody of their children measured by the actual number of mothers who entering the program without physical custody of their children dibvided by total number of mothers entering in the program | 0 | 0 |
| 4.3 | Number of mothers who were reunified with their children during their program stay measured by actual number of mothers who were reunified with their children during their program stay | Actual | 0 |
| 4.4 | Percentage of mothers who were reunified with their children during their program stay measured by actual number of mothers who were reunified with their children divided by total number of mothers in program without physical custody | Actual | 0 |
| 5.1 | Number of families who are referred to community agencies for additional services measured by the actual number of families who are referred to community agencies for additional services | Actual | 0 |
| 5.2 | Percentage of families who are referred to community agencies for additional services measured by the actual number of families who are referred to community agencies for additional services divided by total number of families participating in the progra | 100% | 0 |
| 5.3 | Number of children receiving support services while in program measured by actual number of children who receive support services while in the program | Actual | 0 |
| 5.4 | Percentage of children receiving support services while in program measured by actual number of children who receive support services while in the program divided by total number of children participating in the program | 100% | 0 |

**Contractor Comments:** This is not the correct Schdule D-1 for this contract. A D-1 for MMARS program Code BWCPb, which is more applicable, was completed, however in order for the auditors to upload the UFR, this code was required.

## *BWCPb* Battered Women and Children:Substance Abuse Shelter (McKinney ESG)

Contract Number SCDSS09950218593

| 2.5 | Percentage of injection drug users receiving residential services (based on MIS admission form) | Actual | 57.8 |

**Contractor Comments:** Victory House & New Victories
In the MIS reports, these programs are listed individually, but they are considered one program in the contract. Performance percentages for each program site were averaged for the actual performance percentages listed above.

## *3392* Supportive Housing

Contract Number 23113802010

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who report sustained (more than six months) recovery (based on annual report) | Actual | 89 |

| | | | |
|---|---|---|---|
| 1.2 | Percentage of clients who are employed while in supportive housing (based on annual report) | Actual | 100 |
| 1.3 | Percentage of clients who receive referrals to other social/health services (based on annual report) | Actual | 100 |
| 2.1 | Percentage of clients who receive a shallow rent subsidy by the program (annual unduplicated count) | Actual | 100 |

**Contractor Comments:** Yetman House

As per the MIS discharge forms, 0% of clients were unemployed with 27.3% not in the labor force.

## *3400* Houses of Correction

Contract Number 23193907012

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete the program (based on MIS discharge form) | Actual | 54 |
| 1.2 | Percentage of clients who participate in the HIV/AIDS Bureau prevention and education program (based on annual report) | actual | 100 |
| 1.3 | Number of urinalyses performed per client (based on MIS discharge form) | Actual | 53.1 |
| 1.4 | Percentage of clients receiving referrals to community-based Residential or Outpatient programs (based on MIS discharge form) | Actual | 54 |

**Contractor Comments:** Victory Programs at MCI

## *3416* HIV/AIDS Support Housing

Contract Number 49293802010

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Available units/subsidies are utilized in a timely manner measured by the percentage of units/subsidies leased-up within 3 months of availability | 100% | 1 |
| 1.2 | Program maintains high utilization rate measured by the percentage of units/subsidies leased up at all times | 75% | 0.952 |
| 1.3 | Program coordinates residents supportive services measured by percentage of residents who have ISPs established within one month of program entry | 100% | 1 |
| 1.4 | Program coordinates residents supportive services measured by percentage of residents who have ISPs established within one month of program entry | 100% | 1 |

| | | | |
|---|---|---|---|
| 1.5 | Program enhances/maintains residents quality of life measured by percentage of residents reporting that their quality of life has improved or been maintained as a result of living in the program | 75% | 1 |

**Contractor Comments:** The Bobbie White House

VPI is the service provider only and has no control over the admission process.

Contract Number 49293802023

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Available units/subsidies are utilized in a timely manner measured by the percentage of units/subsidies leased-up within 3 months of availability | 100% | 1 |
| 1.2 | Program maintains high utilization rate measured by the percentage of units/subsidies leased up at all times | 75% | 0.93 |
| 1.3 | Program coordinates residents supportive services measured by percentage of residents who have ISPs established within one month of program entry | 100% | 1 |
| 1.4 | Program coordinates residents supportive services measured by percentage of residents who have ISPs established within one month of program entry | 100% | 1 |
| 1.5 | Program enhances/maintains residents quality of life measured by percentage of residents reporting that their quality of life has improved or been maintained as a result of living in the program | 75% | 1 |

**Contractor Comments:** LARC - The Living and Recovering Community

## *3455* Special Residential Services for Women (includes Family Shelters)

Contract Number 23353028035

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of clients who complete the program | Actual | 43.8 |
| 1.2 | Percentage of clients who receive housing services (based on MIS discharge form) | Actual | 39.4 |
| 2.1 | Number of clients admitted to the program (annual unduplicated count) | Actual | 416 |

**Contractor Comments:** Women's Hope

Contract Number 23353925028

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Percentage of clients who complete the program | Actual | 36.8 |
| 1.2 | Percentage of clients who receive housing services (based on MIS discharge form) | Actual | 100 |
| 2.1 | Number of clients admitted to the program (annual unduplicated count) | Actual | 31 |

**Contractor Comments:** Portis Family House

For item 2.1, the unduplicated count includes both primary and collateral client admissions.

## *3461* Tobacco Control: Targeted Community Smoking Intervention Programs: Tobacco Treatment Services

Contract Number 29093087999

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of target priority population participating in program activities measured by the total number of brief interventions conducted | 0 | 1131 |
| 1.2 | Number of target priority population participating in program activities measured by the total number of referrals to Tobacco Treatment Services | 0 | 207 |
| 1.3 | Number of target priority population participating in program activities measured by the total number of smokers receiving TobaccoTreatment Services | 0 | 207 |
| 1.4 | Number of target priority population participating in program activities measured by the total hours of individual counseling conducted | 0 | 93 |
| 1.5 | Number of target priority population participating in program activities measured by the number of group counseling hours conducted | 0 | 591 |
| 2.1 | Delivery of smoking cessation services to target priority population measured by documentation of service delivery as prescribed by the department (1 = yes, 2 = no) | 1 (yes) | 1 |

**Contractor Comments:** For 1.3, this figure does not include participants in tobacco education lectures.

## *Vietnamese Amercian Civic Association, Inc. (042844165)*

### *3328* AIDS Minority Capacity Development

Contract Number 49332802008

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Prevention & Education: Number of clients belonging to priority populations provided high risk reduction information from outreach workers or other health educators | Actual | 937 |

| 2.2 | Number of sub-contract jobs within the year (unduplicated count) | 0 | 0 |
| 2.3 | Number of individuals served who are referred for Community Based Employment (unduplicated count) | 0 | 0 |
| 4.1 | Number of individuals maintaining attendance eligibility for the year | 1 | 1 |
| 4.2 | Number of individuals maintaining production eligibility for the year | 1 | 1 |
| 4.3 | Number of individuals given the opportunity to choose sub-contract work measured by the number of individuals who respond through consumer evaluations that they have been given options for sub-contract work | 0 | 0 |
| 4.4 | Number of individuals that are referred out for placement services | 0 | 0 |

**Contractor Comments:**

## 3015 Client and Community Empowerment

Contract Number 82102008077

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients meet their goals measured by percentage (number of clients who meet one or more self-identified objectives divided by the number of clients served) | 0 | 0 |

| | | | |
|---|---|---|---|
| 1.1 | Clients meet their goals measured by percentage (number of clients who meet one or more self-identified objectives divided by the number of clients served) | 0 | 0 |
| 1.2 | Program measures client satisfaction by percentage (number of clients who report being satisfied with program divided by number of clients who participate in satisfaction survey) | 0 | 0 |
| 1.2 | Program measures client satisfaction by percentage (number of clients who report being satisfied with program divided by number of clients who participate in satisfaction survey) | 0 | 0 |

**Contractor Comments:** The above Performance Measures do not match those negotiated for this specific contract.

## *3034* Community Support Clubhouse

Contract Number 63302006108

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers become clubhouse members measured by the total number of new referrals who become "active members" | 45 | 30 |
| 1.2 | Consumers are employed in transitional employment measured by the total number of clubhouse members who are employed in transitional employment during the contract year (unduplicated) | 29 | 30 |
| 1.3 | Consumers are employed in supported employment measured by the total number of clubhouse members employed in supported employment during the contract year (unduplicated) | 32 | 27 |
| 1.4 | Consumers are employed in independent employment measured by the total number of clubhouse members employed in independent employment during the contract year (unduplicated) | 21 | 18 |
| 2.1 | Clubhouse developed employment opportunities for members measured by total # of supported employment placements | 36 | 27 |

**Contractor Comments:** 1.1 was not met due to the fact that 62 referrals were received and 32/62 of the referrals did not following through with the placement or went to other programs.
1.3 and 2.1 refer to supported employment placements, and this benchmark was not met due to a loss of a number of supported employment placements over the course of the year. 1.4 was slightly under the benchmark this year, and this occurred due to the fact that members were placed in both supported or transitional employment placements rather than independent employment due to the need to address work readiness.

## *3037* Day Rehabilitation

Contract Number 43102004029

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers participate in program activities measured by the monthly average number of hours consumers participated in scheduled program activities | 0 | 0 |
| 1.2 | Consumers achieve goals as identified in service plans measured by percentage (number of consumers who achieve one or more service plan goals ( total number of program consumers) | 0 | 0 |
| 1.3 | Consumers move to more employment focused services measured by percentage (number of consumers who participated in an assessment for more employment focused services within the contract year ( total number of program consumers) | 0 | 0 |
| 1.4 | Consumers move to more employment focused services measured by percentage (number of consumers who were referred to more employment focused services within the contract year ( total number of program consumers) | 0 | 0 |
| 1.5 | Consumers move to more employment focused services measured by percentage (number of consumers who moved to more employment-focused services within the contract year ( total number of program consumers) | 0 | 0 |

**Contractor Comments:** DMH buys one slot in a DMR program, results for the entire program are reported under DMR MMARS code 3168

Contract Number 63302006116

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Consumers participate in program activities measured by the monthly average number of hours consumers participated in scheduled program activities | 5200 | 3787 |
| 1.2 | Consumers achieve goals as identified in service plans measured by percentage (number of consumers who achieve one or more service plan goals ( total number of program consumers) | 85% | 0.86 |
| 1.3 | Consumers move to more employment focused services measured by percentage (number of consumers who participated in an assessment for more employment focused services within the contract year ( total number of program consumers) | 100% | 1 |
| 1.4 | Consumers move to more employment focused services measured by percentage (number of consumers who were referred to more employment focused services within the contract year ( total number of program consumers) | 15% | 0.21 |

| | | | |
|---|---|---|---|
| 1.5 | Consumers move to more employment focused services measured by percentage (number of consumers who moved to more employment-focused services within the contract year ( total number of program consumers) | 10% | 0.13 |

**Contractor Comments:**

## *3049* Adult Residential Services

Contract Number 32102003174

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients meet PSTP objectives measured by the number of clients who achieve 75% of their objectives towards their PSTP goals divided by the total number of clients | 80% | 0.33 |
| 1.2 | Clients experience a reduction in the rate of psychiatric hospitalizations measured by the number of days program clients are hospitalized in psychiatric facilities divided by the total number of clients | 30% | 0.5 |
| 1.3 | Clients experience a reduction in the rate of hospitalizations in substance abuse facilities measured by the number of days program clinets are hospitalized in substance abuse facilities divided by the total number of clients. | 10% | 0.03 |
| 1.4 | Program measures client satisfaction by the number of clients who reprot satisfaction with the program divided by the number of clients who participated in the satisfaction survey | 100% | 1 |

**Contractor Comments:** 1.4 Low score is due to 2 admissions in May 2002, this increased the program capaicity to six beds.

Contract Number 33202003171

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients meet PSTP objectives measured by the number of clients who achieve 75% of their objectives towards their PSTP goals divided by the total number of clients | 80% | 1 |
| 1.2 | Clients experience a reduction in the rate of psychiatric hospitalizations measured by the number of days program clients are hospitalized in psychiatric facilities divided by the total number of clients | 30% | 0.1 |
| 1.3 | Clients experience a reduction in the rate of hospitalizations in substance abuse facilities measured by the number of days program clinets are hospitalized in substance abuse facilities divided by the total number of clients. | 10% | 0.09 |
| 1.4 | Program measures client satisfaction by the number of clients who reprot satisfaction with the program divided by the number of clients who participated in the satisfaction survey | 75% | 0.77 |

**Contractor Comments:**

| 1.4 | Program measures client satisfaction by the number of clients who reprot satisfaction with the program divided by the number of clients who participated in the satisfaction survey | 80% | 0.91 |

**Contractor Comments:** 1.1 Clients are beginning to work on more difficult goals that are harder for them to achieve.

## *3059* Community Rehabilitation Support

Contract Number 33502003117

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients remain in the community measured by percentage (total number of clients, unduplicated count, who are not hospitalized divided by total number of clients, unduplicated count, with serious mental illness serv | 80% | 0.49 |

| | | | |
|---|---|---|---|
| 1.2 | Clients are discharged from the program in accordance with discharge plans measured by percentage (total number of planned discharges divided by total number of discharges | 90% | 0.64 |
| 1.3 | Clients are satisfied with program services measured by percentage (number of clients who report overall satisfaction with the program divided by total number of clients who participated in the satisfaction survey | 75% | 1 |
| 2.1 | Program enrollment measured by unduplicated count of individuals who received community rehabilitative support services | 100% | 1 |
| 2.2a | Service utilization measured by total number of "Case Coordination" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 22092 | 22549 |
| 2.2b | Service utilization measured by total number of "General Support and Rehab" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 0 | 18059 |
| 2.2c | Service utilization measured by total number of "Assistance with Medication" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 0 | 4490 |
| 2.2d | Service utilization measured by total number of "Engaging Clients who are Resistant to Treatment" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | 0 | 0 |

**Contractor Comments:**

1.2 The program had 11 discharges, 7 planned and 4 were due to deaths.
2.1 Program served 68 unduplicated.
2.2a Goal represents the program capacity from the contract. Actual represent the total of 2.2b plus 2.2c.
2.2b-d there were no target goals stipulated in the contract.

Contract Number 53402005042

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Clients remain in the community measured by percentage (total number of clients, unduplicated count, who are not hospitalized divided by total number of clients, unduplicated count, with serious mental illness serv | 85% | 0.9 |
| 1.2 | Clients are discharged from the program in accordance with discharge plans measured by percentage (total number of planned discharges divided by total number of discharges | 90% | 1 |

| | | | |
|---|---|---|---|
| 1.3 | Clients are satisfied with program services measured by percentage (number of clients who report overall satisfaction with the program divided by total number of clients who participated in the satisfaction survey | 90% | 1 |
| 2.1 | Program enrollment measured by unduplicated count of individuals who received community rehabilitative support services | TBD | 200 |
| 2.2a | Service utilization measured by total number of "Case Coordination" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | TBD | 5452.5 |
| 2.2b | Service utilization measured by total number of "General Support and Rehab" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | TBD | 4806 |
| 2.2c | Service utilization measured by total number of "Assistance with Medication" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | TBD | 0 |
| 2.2d | Service utilization measured by total number of "Engaging Clients who are Resistant to Treatment" contacts (one contact is either a face to face contact with a client or an activity performed on behalf of the client regardless of time interval) provided | TBD | 0 |

**Contractor Comments:**

| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.93 |
| 2.3 | Maintain a minimum occupancy of 90%(contingent upon receiving sufficient referrals from the Department) measured by average annual occupancy | 90% | 0.93 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 0 |
| 2.4 | Develop and maintain a Family Life Advocacy Plan for each family | 100% | 0 |

**Contractor Comments:**

2.1 Wellspring House no longer uses placement reports
but submits monthly shelter logs instead.

2.2 Wellspring House provides three meals a day for the 3 families at the Essex Ave location, the other families use their food stamps and cook in their units. Total meals served 6104. Breakfast 2650, lunch 1333, and dinner 2121.

2.3 Wellspring House has had 6 families and one
family in common room with the exception of May 15th - June 1st, 2002 due to the fire at Washington St.

2.4 The Family Life Advocacy Plan has been changed by the DTA to self sufficiency plans that are driven by the DTA and we lend support to them when they send one with a family, which DTA have not done with Wellspring House as yet.

## *8014* Home Care Case Management

Contract Number 03642206013

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers requiring assistance with Activities of Daily Living (ADLs) have information, opportunities, choices and assistance in accessing services to assist them in remaining in the community measured by percentage (total number of HC clients receiving case management services during FY 02 minus the total of all closed HC cases divided by total number of HC clients receiving CM services during the FY) | actual | 0.96 |
| 1.2 | Caregivers and family members are supported and encouraged to continue their involvement in caring for the needs of elder consumers measured by percentage of caregivers responding favorably on Client Satisfaction Survey(s) regarding Respite Care services | actual | 0.99 |
| 2.1 | Monthly average number of intakes completed for the Home Care Program measured by total number of Home Care intakes conducted during FY 02 divided by 12 months | actual | 105 |
| 2.2 | Monthly average number of clients receiving case management services measured by total number of Home Care clients receiving both case management and purchased services during FY 02 divided by 12 months | actual | 1034 |
| 2.3 | Number of unmet ADL/ADL needs for new clients is reduced subsequent to receiving case management services measured by percentage (annual average number of unmet needs for new clients at the time of initial assessment divided by annual average number of unmet needs for the same number of clients after reassessment | 90 % | 0.87 |

| | | | |
|---|---|---|---|
| 2.4 | Monthly average number of clients served by the Home Care Program, i.e. provided case management services measured by total number of Home Care clients receiving case management services during FY 02 divided by 12 months | actual | 1037 |
| 2.5 | Monthly average number of CICLE linkages achieved measured by the total number of actual CICLE linkages for FY 02 divided by 12 months | actual | 0.92 |
| 2.6 | Monthly minimum number of clients enrolled in the 2176 Waiver Program measured by total number of 2176 MA Waiver clients served in FY 02 divided by 12 months. Average not to be lower that contract specific goal. | actual | 142 |
| 2.7 | Annual number of nursing home elders discharged through ASAP intervention measured by percentage (total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1 |
| 3.1 | Percentage of collection of eligible cost-sharing co-payments from eligible clients | 90% | 0.98 |
| 4.1 | Consumers are satisfied with Case Management Services measured by percentage (total number of HC program consumers responding to a clients satisfaction survey(s) who rated their overall satisfaction with case management services as positive/affirmative or satisfactory divided by total number of HC program consumers responding to the client satisfaction survey(s) | 90% | 1 |
| 4.2 | Percentage of peer reviewed records receiving an "agreement" rating measured by annual total number of agency-specific HC Program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by total number of all agency-specific HC Program intakes reviewed during FY 02 Peer Review sessions | 90% | 1 |

**Contractor Comments:**

## *8017* Congregate Housing

Contract Number 03642517035

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Occupancy level measured by percentage (numerator: add together the number of occupied congregate units @ the end of each month. Divide by 12 months. denominator: total number of all congregate units, occupied and vacant) | 90% | 0.82 |
| 2.2 | Conduct a minimum of eight community presentations per year measured by the actual number of community presentations conducted by ASAP personnel during this FY | 8 | 16 |

| | | | |
|---|---|---|---|
| 4.1 | Achieve a “Satisfactory” rating or above on resident satisfaction surveys measured by percentage(numerator: # of Congregate tenants responding to a client satisfaction survey who rated their services as positive, affirmative or satisfactory. denominator: | 90% | 1 |

**Contractor Comments:** Ludlow congregates have shared baths, no kitchen in individual apts.

Holyoke - aging in place of original residents when house opened 7+ years ago resulting in several to nursing homes in recent months. Strong competition from subsidized assisted livings which provide more care.

## *8025* Coordination of Care

Contract Number 03642225013

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Maximize the annual number of diversions of elders seeking nursing home placements back to the community measured by total annual number of Medicaid pre-admission and Medicaid post-approval diversions | actual | 12 |
| 1.2 | Maximize the annual number of nursing facility residents discharged to a community setting measured by total annual number of Nursing Home discharges (i.e. assist with placement of Medicaid nursing facility residents into community settings) | actual | 16 |
| 2.1 | Monthly average number of CoC clients screened measured by number tracked and reported by HOMIS | Actual | 108.5 |
| 2.10 | Annual number of nursing home elders discharged through ASAP intervention measured by the total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to ASAP | Actual | 16 |
| 2.2 | Monthly average number of CoC clients determined eligible for Adult Day Health (ADH) measured by the total number of CoC clients determined eligible for ADH during FY 02 divided by 12 (months) | Actual | 3 |
| 2.3 | Monthly average number of CoC clients determined eligible for Adult Foster Care (AFC) measured by the total number of CoC clients determined eligible for AFC during FY 02 divided by 12 (months) | Actual | 0 |
| 2.4 | Monthly average number of CoC clients determined eligible for Group Adult Foster Care (GAFC) measured by the total number of CoC clients determined eligible for GAFC during FY 02 divided by 12 (months) | Actual | 0 |
| 2.5 | Monthly average number of CoC clients determined eligible for Pre Pace measured by the total number of CoC clients determined eligible for Pre Pace during FY 02 divided by 12 (months) | Actual | 0 |

| | | | |
|---|---|---|---|
| 2.6 | Monthly average number of CoC clients determined eligible for 2176 Home and Community Based Waiver measured by the total number of CoC clients determined eligible for 2176 Home and Community Based Waiver during FY 02 divided by 12 (months) | Actual | 14.6 |
| 2.7 | Monthly average number of CoC clients determined eligible for Personal Emergency Response Services (PERS) measured by the total number of CoC clients determined eligible for PERS during FY 02 divided by 12 (months) | Actual | 34 |
| 2.8 | Monthly average number of CoC clients determined eligible for Home Health (HH) services measured by the total number of CoC clients determined eligible for HH services during FY 02 divided by 12 (months) | Actual | 6 |
| 2.9 | Monthly average number of Home Health Initiative alternative service plans measured by the total number of Home Health Initiative alternative plans implemented for FY 02 divided by 12 (months) | Actual | 3 |
| 4.1 | Percentage of peer review records receiving an agreement rating measured by the annual total number of agency-specific CoC client records receiving an agreement rating during FY02 Peer Review sessions divided by annual total number of all agency-specific | 90% | 1 |

**Contractor Comments:**

## *8043* Managed Care/Housing

Contract Number 03642206013

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers requiring assistance with ADLs are able to remain in the community measured by the total number of MCIH clients served during FY 02 minus the total number of closed MCIH Program clients for said FY divided by total number of MCIH clients | Actual | 0.97 |
| 2.1 | Monthly average number of intakes completed for the MCIH Program measured by total number of MCIH intakes conducted during FY 02 divided by 12 months | Actual | 1 |
| 2.2 | Monthly average number of clients enrolled in the MCIH program measured by the total number of MCIH program clients served during FY 02 divided by 12 months | Actual | 34 |
| 2.3 | Number of unmet ADL/IADL needs for new clients is reduced subsequent to receiving MCIH services as tracked and reported by HOMIS | 90% | 0.87 |
| 2.4 | Annual number of nursing home elders discharged through ASAP intervention measured by total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1 |

| | | | |
|---|---|---|---|
| 4.1 | Clients are satisfied with MCIH services measured by percentage (total number of MCIH program consumers responding to a client satisfaction survey who rated their overall satisfaction with MCIH services as positive, affirmative or satisfactory for FY02 | 90% | 0.99 |
| 4.2 | Percentage of peer reviewed records receiving an "agreement" rating measured by annual total # of agency-specific MCIH program intakes receiving an "agreement" rating during FY 02 Peer Review sessions divided by total number of all agency specific MCIH I | 90% | 1 |

**Contractor Comments:** 2.1 Intakes are assessed for State Home Care Program. If appropriate for Managed Care in Housing the client is transferred into that program.

## *8044* ECOP (Enhanced Community Options)

Contract Number 03642EC0013

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Elder consumers at risk of nursing home placement and requiring assistance with ADLs are able to remain in the community measured by % (total # of ECOP clients served during FY 02 minus the total # of closed ECOP clients during said FY divided by total # | Actual | 0.94 |
| 2.1 | Monthly average number of intakes completed for the ECOP program measured by total number of ECOP Program intakes conducted during FY 02 divided by 12 months | Actual | 3.58 |
| 2.2 | Monthly average number of client served in the ECOP Program measured by the total number of ECOP Program clients served during FY 02 divided by 12 months | Actual | 51 |
| 2.3 | Number of unmet ADL/IADL needs for new clients is reduced subsequent to receiving ECOP services as tracked and reported to HOMIS | Actual | 0.87 |
| 2.4 | Annual number of nursing home elders discharged through ASAP intervention measured by total number of FY 02 nursing home discharges to the ASAP divided by total number of FY 01 nursing home discharges to the ASAP | 105% | 1 |
| 4.1 | Clients are satisfied with ECOP services measured by percentage (total number of ECOP program consumers responding to a client satisfaction survey (s) who rate their overall satisfaction with ECOP services as positive, affirmative or satisfactory divided | 90% | 0.99 |
| 4.2 | Percentage of Peer Reviewed records receiving an agreement rating measured by annual total number of agency-specific ECOP Program intakes receiving an agreement rating during FY 02 Peer Review sessions divided by annual total number of all agency-specifi | 90% | 1 |

**Contractor Comments:** 2.1 Intakes are assessed for State Home Care Program. If appropriate for Enhanced Community Options the client is transfered to that program.

## *westport associates, inc. (042707815)*

### *3153* Residential Supports

Contract Number 25502550305

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Provider maintains at least a one year certification by the DMR Office of Quality Enhancement ( Please Enter 1 for "Yes" and 2 for "No") | Yes | 1 |
| 1.2 | Individuals and their families are invited to participate in an annual satisfaction survey/process conducted by the provider agency measured by percentage (number of individuals and families invited to participate in satisfaction survey divided by number | 100% | 0.01 |
| 1.3 | ISP assessments and support strategies are completed within 15 days of request per compliance with DMR regulations measured by percentage (number of assessments and strategies completed within 15 days divided by number of assessments and strategies compl | 100% | 0.01 |

**Contractor Comments:**

# *Whittier Street Health Center Committee, Inc. (042619517)*

## *3343* HIV/AIDS Prevention & Education

Contract Number 49352802026

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Unduplicated # of clients belonging to the priority population (s) who receive an education session or discuss HIV risk with an outreach worker or health educator | actual | 1278 |
| 2.2 | # of skills trainings or other education sessions provided to clients belonging to the priority population (s) | actual | 18 |
| 2.3 | # of educational materials and/or risk reduction devices distributed to clients belonging to the priority population (s) | actual | 7474 |

**Contractor Comments:**

## *3375* WIC Nutrition

Contract Number 35022802022

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Eligible persons receive WIC nutritional benefits measured by percentage of assigned caseload served by the end of the state fiscal year (unduplicated # of participants certified to WIC ( assigned caseload) | 98% | 0.98 |
| 1.1 | Eligible persons receive WIC nutritional benefits measured by percentage of assigned caseload served by the end of the state fiscal year (unduplicated # of participants certified to WIC ( assigned caseload) | 98% | 0.98 |

**Contractor Comments:**

## *3416* HIV/AIDS Support Housing

Contract Number 49292802011

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Available units/subsidies are utilized in a timely manner measured by the percentage of units/subsidies leased-up within 3 months of availability | 100% | 1 |

| | | | |
|---|---|---|---|
| 1.2 | Program maintains high utilization rate measured by the percentage of units/subsidies leased up at all times | 75% | 1 |
| 1.3 | Program coordinates residents supportive services measured by percentage of residents who have ISPs established within one month of program entry | 100% | 1 |
| 1.4 | Program coordinates residents supportive services measured by percentage of residents who have ISPs established within one month of program entry | 100% | 1 |
| 1.5 | Program enhances/maintains residents quality of life measured by percentage of residents reporting that their quality of life has improved or been maintained as a result of living in the program | 75% | 1 |

**Contractor Comments:**

## *3430a* HIV/AIDS Client Services

Contract Number 49252802014

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | People with HIV have improved access to critical health and social services and will be able to live independently, as appropriate, over the course of their illness measured by the number of increased units offered this year as compared to the previous y | Actual | 64 |
| 2.1 | Number of clients receiving services as defined by unduplicated count of clients served during the year | Actual | 64 |
| 3.1 | Cost per client measured by number of clients receiving HIV client services divided by total program cost | 64 | 309.62 |

**Contractor Comments:**

## *3450* Tobacco Control: Targeted Community Smoking Intervention Programs: Innovative Outreach for Risk Taki

Contract Number 29052143070

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Enhanced knowledge and skill level of participants measured by the average % increase between pre and post tests | Actual | 0.18 |

| | | | |
|---|---|---|---|
| 2.1 | Number of target priority population individuals served through outreach activities (annual unduplicated count) | Actual | 7671 |
| 2.2 | Number of priority population smokers identified and counseled (annual unduplicated count) | Actual | 0 |
| 2.3 | Number of priority population smokers referred to smoking cessation services (annual unduplicated count) | Actual | 0 |
| 2.4 | Number of priority population smokers receiving smoking cessation services (annual unduplicated count) | Actual | 0 |

**Contractor Comments:**

## *3461* Tobacco Control: Targeted Community Smoking Intervention Programs: Tobacco Treatment Services

Contract Number 29042087058

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of target priority population participating in program activities measured by the total number of brief interventions conducted | Actual | 0 |
| 1.2 | Number of target priority population participating in program activities measured by the total number of referrals to Tobacco Treatment Services | Actual | 144 |
| 1.3 | Number of target priority population participating in program activities measured by the total number of smokers receiving TobaccoTreatment Services | Actual | 42 |
| 1.4 | Number of target priority population participating in program activities measured by the total hours of individual counseling conducted | Actual | 845 |
| 1.5 | Number of target priority population participating in program activities measured by the number of group counseling hours conducted | Actual | 0 |
| 2.1 | Delivery of smoking cessation services to target priority population measured by documentation of service delivery as prescribed by the department (1 = yes, 2 = no) | 1 (yes) | 1 |

**Contractor Comments:** 5,082 is the number of the target population served through outreach.

## *3463* Men's Health Partnership

Contract Number 41142053027

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Men from priority populations are reached and educated measured by the percentage of men from priority populations served | Actual | 0 |
| 2.2 | Men are linked to screening and/or are screened measured by the number of unduplicated program eligible men linked to screening or screened | Actual | 0 |
| 2.3 | Men from priority populations are linked to screening and/or screened measured by the percentage of men linked to screening and/or screened from priority populations | Actual | 0 |

**Contractor Comments:**

## *3467* Refgee Health

Contract Number 51892083999-011

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Services are provided according to DPH protocol measured by the percentage of clients served according to protocol | 95% | 0.95 |
| 2.1 | Refugee Health services are appropriately billed soley to DPH | 100% | 1 |
| 2.2 | Services are language and culture appropriate and responsive measured by the percentage of cases where documentation of a medical interpreter or bilingual staff are available | 100% | 1 |
| 3.1 | Percentage of cases where services are provided within 60 days of refugee entry into the United State | 90% | 0.9 |

**Contractor Comments:**

# Youth Opportunities Upheld, Inc. & YOU Inc. (237112665)

## 3404 Projects for Health Care Access

Contract Number 22222149056

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Implement effective and creative outreach and/or marketing activities measured by the number of outreach and/or marketing activities | 1/mo. | 6 |
| 2.1 | An increase in the number of families/individuals actually spoken to directly about MassHealth and CMSP measured by the number | 120 | 163 |

**Contractor Comments:** Limited number of working hours resulted in limited outreach and marketing. Coordinator position was vacated for several months being covered by an assistant who monitored the project.

## 3414 Youth Programs

Contract Number 23212802034

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 2.1 | Percentage of youth engaged in community prevention programs (annual unduplicated count) | Actual | 1386 |
| 2.2 | Percentage of youth referred to treatment services (annual unduplicated count) | Actual | 21 |
| 2.3 | Number of youths receiving risk reduction materials (annual unduplicated count) | actual | 1101 |

**Contractor Comments:** Overall, Peer Leadership was very successful in community outreach this year. The Peer Leadership Program sponsored and organized a school-wide Health Fair, with the entire school in attendance. The Youth Program also participated in a Youth Development Fair at one of the local high schools. The Peer Leaders visited a local elementary school on a national reading day. Attendance was low towards the end of the year at Quaboag High School due to after-school activities and sports practice.

## RESC Commonworks

Contract Number 09950218494

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Percentage of youth placed in Commonworks Program who attain a moderate or better rating on overall progress toward treatment plan goals will be maintained at a rating of 70% or better | 70% | 0.84 |

| | | | |
|---|---|---|---|
| 1.2 | Percentage of youths served by Commonworks program with family involvement in treatment as measured by the total # of youth for whom there was family involvement divided by the total # of youth for whom family involvement is not clinically contraindicate | 80% | 0.94 |
| 1.3 | Percentage of youths served by Commonworks Program who achieve a moderate or better rating on academic progress on educational goals in treatment plan will be maintained at a rating of 70% or better | 70% | 0.85 |
| 1.4 | Compliance relative to development of quarterly treatment progress reviews for youth within the Commonworks Program will be maintained at a rating of 90% or better as measured by the # of youth for whom treatment progress reviews are completed divided by | 90% | 0.97 |
| 2.1 | Percentage of youth served by the Commonworks Program who experienced an interruption in service due to AWOL will be maintained at a rating of 5% or less as measured by the # of youth experiencing an interruption in service of more than 30 days divided b | 5% | 0 |
| 2.2 | Percentage of youth discharged from Commonworks Program who do not re-enter residential network care will be maintained at a rating of 7% or less as measured by the # of youth discharged in accordance with a treatment planning decision who do not re-ente | 7% | 0.05 |
| 2.3 | Overall average length of stay of youth in Commonworks Program (placement only) will be maintained at 360 Days or less. Note: Lengths of stay are based on duration of time youth are in Commonworks residential care | 360 Days | 508.47 |
| 2.4 | Percentage of moves to less restrictive levels of care for yout served in the Commonworks Program will not be less than 90% as measured by the number of youth moving to less restrivctive levels of care divided by the total number of youth moving to a new | 90% | 0.91 |

**Contractor Comments:**

*Measure 2.1 was not calculated because of inconsistent SDR2 reporting. Consistency in reporting will be addressed with the adoption of the Commonworks ABSolute reporting system in January 2003.

**Measure 2.2 was answered as if the Text Description read: "Percentage of youth discharged from Commonworks Program who re-enter residential network care will be maintained at a rating of 7% or less as measured by the number of youth discharged in accordance with a treatment planning decision who re-enter divided by the total number of youths discharged in accordance with a treatment planning decision. (Does not include youths with an interruption in service of more than 30 days as a result of AWOL.)"

## *RESGa* Bridge Home

Contract Number 00020218929

| Measure Number | Goal | Actual Performance |
|---|---|---|

| | | | |
|---|---|---|---|
| 1.1 | Percentage of visitation services provided within twenty-four to forty-eight (24-48) hours as measured by number of visitation services within 24-48 hours ( total number of visitation services. | actual | 0.7 |
| 1.2 | Percentage of pediatric medical screenings within forty-eight (48) hours measured by number of pediatric screenings scheduled within forty-eight (48) hours ( total number of screenings. | actual | 0.85 |
| 1.3 | Percentage of cases that utilize community resources measured by number of cases involved with community resources ( by total number of cases. | actual | 0.9 |
| 1.4 | Percentage of students with more than 5 school absences per year measured by the number of students with more than 5 absences ( total number of students. | actual | 0.3 |
| 1.5 | Percentage of staffing that reflects ethnic/cultural/linguistic congruence with the client population measured by number of ethnic/cultural/linguistic competent staff ( total number of staff. | actual | 0.8 |
| 2.1 | Percentage of clients whose services were partially or fully paid by Medicaid measured by number of clients whose services were partially or fully paid by Medicaid ( total number of clients served. | actual | 1 |
| 2.2 | Number of hours of training received by each staff. | actual | 24 |

**Contractor Comments:**

## *RESGb* Group Home Teen Pregnancy Program

Contract Number 09950218220

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Teens complete high school or a high school equivalency program (GED) measured by % (total # of teens getting diplomas or GEDs ( total # of teen residents served in non-emergency beds | > 10% | 0.85 |
| 1.2 | Teens experience increased parenting skills and nurturing with their children leading to a minimization in the number of supported reports of child abuse and neglect measured by % (total # of teen residents served (in non-emergency beds) who had 51A repo | < 5% | 0.05 |
| 1.3 | Teens experience a reduction in repeat pregnancies measured by % (total # of teens who become pregnant while in residence ( total # of teens served in the TLP program (in non-emergency beds) | < 5% | 0 |
| 2.1 | # of teen residents served (in non-emergency beds) measured by total annual unduplicated count | actual | 6 |
| 2.2 | # of babies served (in non-emergency beds) measured by total annual unduplicated count | actual | 6 |
| 2.3 | # of teens served in emergency beds (if emergency beds are specified in the contract) measured by the total annual unduplicated number of teens | actual | 0 |

| | | | |
|---|---|---|---|
| 2.4 | % of terminated residents measured by the total # of terminated residents ( total # of residents served (in non-emergency beds) | < 25% | 0.25 |
| 2.5 | % of graduated teens measured by total # of graduated teens ( total # of residents served (in non-emergency beds) | > 10% | 0.5 |
| 2.6 | # of hours of staff training measured by total annual hours of staff training offered during the year | > 30% | 1 |
| 2.7 | % of teens contacted, telephone or face-to-face, for follow-up services measured by the total # of terminated and graduated teens contacted for follow-up ( total # of terminated and graduated residents (from non-emergency beds) | > 50% | 0.6 |
| 3.1 | DSS total program costs measured by the total amount billed to DSS | actual | 165144 |
| 3.2 | DSS cost per slot measured by the total amount billed to DSS ( the number of slots in the program | actual | 125.68 |
| 3.3 | Total program cost measured by the total annual cost from all sources of revenue | actual | 165144 |
| 3.4 | Total cost per slot measured by the total annual program cost from all sources of revenue ( the number of slots | actual | 125.68 |
| 3.5 | TLP maximizes DSS purchase measured by total amount billed to DSS for the TLP program ( total annual program cost | < 1.00 | 85872 |

**Contractor Comments:**

## *RESS* Alternative Lockup Program

Contract Number 09950217804

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | To eliminate all instances of status offenders being detained in police lockups for any length of time measured by total number of violations (from information generated by police dockets and compiled by the Executive Office of Public Safety) | 0 Violations | 0 |
| 1.2 | To eliminate all instances of alleged non-violent offenders being detained in police lockup for longer than six hours measured by total number of youths detained for more than six hours (from information generated by police dockets and compiled by the ) | 0 Youths | 0 |
| 1.3 | All clients receiving alternative placement services are transported to court for arraignment on the next court day measured by percentage (total number of youths receiving ALP services transported to court the next day divided by total number of youth ) | 100% | 0.96 |

| | | | |
|---|---|---|---|
| 2.1 | Number of referrals to ALP services measured by the total annual number of calls received and reported in the Monthly Service Delivery Report | Actual | 682 |
| 2.2 | Percentage of clients mediated home by ALP measured by the total annual number of "non-placement" services reported in the Monthly Service Delivery report divided by total number of clients receiving ALP services | Actual | 0.09 |
| 2.3 | Number of clients placed in ALP measured by the total annual number reported in the Monthly Service Delivery Report | Actual | 620 |
| 2.4 | Number of clients transported to court measured by the total annual number reported in the Monthly Service Delivery Report | Actual | 598 |
| 2.5 | Number of trainings offered to both police departments and DSS measured by the total annual number or trainings reported to DSS | Actual | 36 |
| 3.1 | Cost per referral measured by the total actual program budget divided by total number of referrals | Actual | 403 |
| 3.2 | Cost per bed night measured by the total actual program budget divided by total number of bed nights | Actual | 294 |
| 3.3 | Cost per ALP day measured by the total actual program budget divided by 365 days | Actual | 852 |
| 4.1 | Decrease in the overall violations committed by the state and local police measured by the number of violations reported by EOPS report divided by total number of clients served x 100 to obtain a percentage | 0% | 0 |

| 1.5 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of individual child plans prepared by the provider with input from the DSS social worker) given to parents at a meeting or | Actual | 1 |
| 1.5 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of individual child plans prepared by the provider with input from the DSS social worker) given to parents at a meeting or | Actual | 1 |

| | | | |
|---|---|---|---|
| 1.6 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 11 |
| 1.6 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 11 |
| 1.6 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 11 |
| 1.7 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 1 |
| 1.7 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 1 |
| 1.7 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of individual child plans given to the DSS social worker at a face to face meeting, through the mail or through email | Actual | 1 |
| 1.8 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 2 |
| 1.8 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 2 |
| 1.8 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the number of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 2 |
| 1.9 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 1 |

| | | | |
|---|---|---|---|
| 1.9 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 1 |
| 1.9 | All parties communicate information necessary to achieve a successful supportive child care placement measured by the percentage of OCCS/DSS/Provider quarterly meetings that the contracted provider attends | Actual | 1 |

**Contractor Comments:**

## *YWCA of Western Massachusetts, Inc. (042103858)*

### *3450* Tobacco Control: Targeted Community Smoking Intervention Programs: Innovative Outreach for Risk Taki

Contract Number 29052143092-03

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Enhanced knowledge and skill level of participants measured by the average % increase between pre and post tests | Actual | 1 |
| 2.1 | Number of target priority population individuals served through outreach activities (annual unduplicated count) | Actual | 78 |
| 2.2 | Number of priority population smokers identified and counseled (annual unduplicated count) | Actual | 5 |
| 2.3 | Number of priority population smokers referred to smoking cessation services (annual unduplicated count) | Actual | 3 |
| 2.4 | Number of priority population smokers receiving smoking cessation services (annual unduplicated count) | Actual | 0 |

**Contractor Comments:** Measure Number 2.4 (smoking cessation) is not applicable to this program design. The YWCA Teen Power Alliance experienced complete program cuts and eventual closure due to state budget.

### *BWCPb* Battered Women and Children:Substance Abuse Shelter (McKinney ESG)

Contract Number 09950218879

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of emergency shelter beds occupied--give # in bed days (bed days = actual # of beds occupied each day of the month totaled) measured by the actual number of days for the month | Actual | 0 |
| 1.10 | Percentage of families receiving support services measured by number of families receiving support services (divided number of families in shelter) | 100% | 0 |
| 1.11 | Number of children receiving children's services measured by actual number of children receiving children's services | Actual | 0 |
| 1.12 | Percentage of children receiving children's services measured by number of children receiving children's services divide number of children in shelter/safe home | 100% | 0 |

| | | | |
|---|---|---|---|
| 1.2 | Percentage of emergency shelter beds occupied measured by the number of bed days divided by capacity for month (capacity = actual # of beds times # of days in the month) | 100% | 0 |
| 1.3 | Number of families requesting shelter who are turned away due to lack of space measured by actual number of families turned away | Actual | 0 |
| 1.4 | Percentage of families requesting shelter who are turned away due to lack of space measured by actual number of families turned away divided by # of families requesting shelter/safe home | Actual | 0 |
| 1.5 | Number of families receiving safety plans measured by actual number of families receiving safety plans | Actual | 0 |
| 1.6 | Percentage of families receiving safety plans measured by number of families receiving safety plans divided by number of families in shelter | 100% | 0 |
| 1.7 | Number of families receiving advocacy services measured by actual number of families receiving advocacy services | Actual | 0 |
| 1.8 | Percentage of families receiving advocacy services measured by the number of families receiving advocacy services divided by number of families in shelter | 100% | 0 |
| 1.9 | Number of families receiving support services measured by actual number of families receiving support services | Actual | 0 |
| 2.1 | Number of families reporting at time of exit that they were helped during their stay in the shelter measured by actual number of families reproting that they were helped during their stay in the shelter/safe home | Actual | 0 |
| 2.2 | Percentage of families reporting at time of exit that they were helped during their stay in the shelter measured by number of families reproting they were helped divided by the number of families exiting shelter | Actual | 0 |
| 2.3 | Number of families who receive follow-up contact 3 months after leaving the shelter measured by the actual number of families contacted | Actual | 0 |
| 2.4 | Percentage of families who receive follow-up contact 3 months after leaving the shelter measured by number of families contacted ina given month (who left 3 months prior) divided by # of families who left the shelter during the entire month 3 months prio | Actual | 0 |
| 2.5 | Number of families who receive follow-up contact 6 months after leaving the shelter/safe home measured by the actual number of families contacted | Actual | 0 |

| | | | |
|---|---|---|---|
| 2.6 | Percentage of families who receive follow-up contact 6 months after leaving the shelter measured by number of families contacted in a given month (who left 6months prior) divided by # of families who left the shelter during the entire month 6 months prio | Actual | 0 |
| 3.1 | Number of families receiving community (non-residential) services measured by actual number of families receiving community services | Actual | 221 |
| 3.2 | Percentage of families receiving community (non-residential) services measured by number of families receiving community services divided by the number of families seerved in both shelter and outside community | Actual | 1 |
| 3.3 | Number of trainings conducted measured by actual number of trainings conducted | Actual | 0 |
| 3.4 | Percentage of trainings actually conducted in relation to number of trainings requested by community measured by number of trainings requested divided by number of trainings actually conducted | Actual | 0 |
| 4.1 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 0 |
| 4.2 | Percentage of staff who speak multiple languages measured by number of staff who speak multiple languages divided by total number of staff | Actual | 0 |

**Contractor Comments:** Measure Numbers 1.1 through 2.6, 3.3 and 3.4 are not applicable to this program design. This McKinney ESG contract is for housing advocacy services. Also, the YWCA is able to provide interpreters who speak fifteen different languages through the Multi Lingual Volunteers Interpreters Program at UMass Amherst. So, although the staff speak English only, we are able to serve the diverse population which makes up our community.

## *BWCPc* Battered Women and Children Services: Clinical Services

Contract Number 09950218908

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of intakes performed measured by actual number of intakes performed | Actual | 20 |
| 1.2 | Number of referrals received from DSS measured by actual number of referrals received from DSS | Actual | 5 |
| 1.3 | Percentage of referrals from DSS measured by number of referrals from DSS divided by total number of referrals | Actual | 0.2 |
| 1.4 | Number of cases slef-referred measured by actual number of cases self-referred | Actual | 2 |

| | | | |
|---|---|---|---|
| 1.5 | Percentage of cases self-referred measured by the number of self-referrals divided by total number of referrals | Actual | 0.08 |
| 1.6 | Number of referrals received from domestic violence agencies measured by actual number of referrals received from domestic violence agencies | Actual | 22 |
| 1.7 | Percentage of referrals from domestic violence agencies measured by number of referrals from domestic violence agencies divided by total number of referrals | Actual | 0.88 |
| 1.8 | Number of referrals from other sources measured by actual number of referrals from other sources | Actual | 1 |
| 1.9 | Percentage of referrals from other sources measured by number of non DSS, self-referred or domestic violence agency referrals divided by total number of referrals | Actual | 0.04 |
| 2.1 | Number of children not accepted into program for safety reasons measured by actual number of children not accepted into the program for safety reasons | Actual | 0 |
| 2.2 | Percentage of children not accepted into program for safety reasons measured by number of children not accepted for safety reasons divided by total number of children not accepted into program | Actual | 0 |
| 2.3 | Number of children who received on-going services from the program measured by actual number of children who received on-going services from the program | Actual | 36 |
| 2.4 | Number of adults who received advocacy services from the program measured by actual number of adults who received advocacy sevices from the program | Actual | 18 |
| 2.5 | Number of adults referred out for mental health services measured by actual number of adults referred out for mental health services | Actual | 12 |
| 2.6 | Number of adults who received on-going services from the program measured by actual number of adults who received on-going services from the program | Actual | 18 |
| 3.1 | Number of non-English speaking families served measured by actual number of non-English speaking families served | Actual | 1 |
| 3.2 | Percentage of non-English speaking families served measured by actual number of non-English speaking families served divided by total number of families served | Actual | 0.028 |
| 3.3 | Number of English-speaking families of diverse ethnic backgrounds served measured by actual number of English-speaking families of diverse ethnic backgrounds served | Actual | 30 |
| 3.4 | Percentage of English-speaking families of diverse ethnic backgrounds served measured by actual numbr of English-speaking families of diverse ethnic backgrounds served divided by total number of families served | Actual | 0.833 |

| | | | |
|---|---|---|---|
| 4.1 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 0 |
| 4.2 | Percentage of staff who speak multiple languages measured by actual number of staff who speak multiple languages divided by total number of staff | Actual | 0 |
| 4.3 | Number of community-based initiatives participated in measured by actual number of community-based initiatives participated in | Actual | 5 |

**Contractor Comments:**

## *BWCPd* Battered Women and Children: Visitation Services

Contract Number 09950219344

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of referrals received from court personnel measured by actual number of referrals received from court personnel | Actual | 77 |
| 1.2 | Percentage of referrals received from court personnel measured by actual number of referrals received from court personnel divided by total number of referrals to the program | Actual | 0.85 |
| 1.3 | Number of referrals received from other domestic violence service providers measured by actual number of referrals received from other domestic violence service providers | Actual | 1 |
| 1.4 | Percentage of referrals received from other domestic violence service providers measured by actual number of referrals from domestic violence service providers divided by total number of referrals to the program | Actual | 0.018 |
| 1.5 | Number of referrals received from DSS measured by actual numbers of referrals received from DSS | Actual | 5 |
| 1.6 | Percentage of referrals received from DSS measured by actual number of referrals from domestic violence service providers divided by the total number of referrals to the program | Actual | 0.062 |
| 1.7 | Number of referrals received from others measured by actual number of referrals received from others | Actual | 6 |
| 1.8 | Percentage of referrals received from others measured by actual number of referrals received from others divided by the total number of referrals to the program | Actual | 0.075 |
| 2.1 | Number of safe supervised visits measured by actual number of safe supervised visits | Actual | 496 |
| 2.2 | Number of safe unsupervised visits measured by actual number of safe unsupervised visits | Actual | 0 |

| | | | |
|---|---|---|---|
| 2.3 | Percentage of safe unsupervised visits measured by total number of safe unsupervised visits at the program divided by total number of safe supervised visits | Actual | 0 |
| 2.4 | Number of safe neutral exchanges measured by actual number of safe neutral exchanges | Actual | 19 |
| 3.1 | Number of participants in parenting groups for non-offending parents measured by actual number of participants in parenting groups for non-offending parents | Actual | 2 |
| 3.2 | Percentage of participants in parenting groups for non-offending parents measured by number of non-offending parents in the parenting groups divided by the number of non-offending parents in the program | Actual | 0.064 |
| 3.3 | Number of participants in parenting groups for offending parents measured by actual number of participants in groups for offending parents | Actual | 4 |
| 3.4 | Percentage of participants in parenting groups for offending parents measurd by actual number of participants in parenting groups for offending parents divided by the number of offending parents in the program | Actual | 0.129 |
| 4.1 | Number of families referred to court due to dangerous behavior measured by actual number of families referred back to court due to dangerous behavior | Actual | 0 |
| 4.2 | Percentage of families referred to court due to dangerous behavior measured by actual number of families referred back to court due to dangerous behavior dividedby total number of families in program | Actual | 0 |
| 4.3 | Number of families reveiving case management services measured by actual number of families receiving case management services | Actual | 20 |
| 4.4 | Percentage of families reveiving case management services measured by actual number of families receiving case management services divided by total number of families in program | Actual | 0.302 |
| 5.1 | Number of staff who speak multiple languages measured by actual number of staff who speak multiple languages | Actual | 3 |
| 5.2 | Percentage of staff who speak multiple languages measured by actual number of staff who speak multiple languages divided by total number of staff | Actual | 0.211 |
| 5.3 | Number of non-English speaking families served measured by actual number of non-English speaking families served. | Actual | 1 |
| 5.4 | Percentage of non-English speaking families served measured by actual number of non-English speaking families served divided by total number of families served | Actual | 0.032 |

| | | | |
|---|---|---|---|
| 5.5 | Number of families served from diverse ethnic backgrounds measured by actual number of families from diverse ethnic backgrounds reveiving services | Actual | 14 |
| 5.6 | Percentage of families served from diverse ethnic backgrounds measured by actual number of families from diverse ethnic backgrounds reveiving services divided by total number of families served | Actual | 0.186 |
| 5.7 | Number of community-based initiatives participated in measured by actual number of community-based initiatives participated in | 67 | 67 |

**Contractor Comments:**

## *BWCSa* Battered Women & Children: Comprehensive Program

Contract Number 00010219233

| Measure Number | | Goal | Actual Performance |
|---|---|---|---|
| 1.1 | Number of emergency shelter/safe home beds occupied--# in bed days(bed days=actual # of beds occupied each day of the month totaled) measured by total number of bed days for the month | Actual | 7301 |
